Demagogue Jun 22 2022 The definitive biography of the most dangerous demagogue in American history, based on first-ever review of his personal and professional papers, medical and military records, and recently unsealed transcripts of his closed-door Congressional hearings In the long history of American demagogues, from Huey Long to Donald Trump, never has one man caused so much damage in such a short time as Senator Joseph McCarthy. We still use "McCarthyism" to stand for outrageous

charges of guilt by association, a weapon of polarizing slander. From 1950 to 1954, McCarthy destroyed many careers and even entire lives, whipping the nation into a frenzy of paranoia, accusation, loyalty oaths, and terror. When the public finally turned on him, he came crashing down, dying of alcoholism in 1957. Only now, through bestselling author Larry Tye's exclusive look at the senator's records, can the full story be told. *Demagogue* is a masterful portrait of a human being capable of immense evil, yet beguiling charm. McCarthy was a tireless worker and a genuine war hero. His ambitions knew few limits. Neither did his socializing, his drinking, nor his gambling. When he finally made it to the Senate, he flailed around in search of an agenda and angered many with his sharp elbows and lack of integrity. Finally, after three years, he hit upon anti-communism. By recklessly charging treason against everyone from George Marshall to much of the State Department, he became the most influential and controversial man in America. His chaotic, meteoric rise is a gripping and terrifying object lesson for us all. Yet his equally sudden fall from fame offers reason for hope that, given the rope, most American demagogues eventually hang themselves.

Small Mercies Jun 03 2023 "Ten years after the loss of Bobby--the Amendola family's youngest son--everyone is still struggling to recover from the firefighter's unexpected death. Bobby's mother Gail; his widow Tina; his older brothers Peter, the corporate lawyer, and Franky, the misfit; and his father Michael have all dealt with their grief in different ways. But as the family gathers together for Bobby Jr.'s birthday party, they must each find a way to accept a new man in Tina's life while reconciling their feelings for their lost loved one"--

Pieces of Grace Aug 25 2022 Grace believed she went from losing it all to having it all. In a desperate attempt to put her life back together, Grace, divorced and jobless, leaves Tucson to return to Chicago--a place she never planned to call home again. She also never planned to fall for Benjamin Hayward. Drawn into the fairytale

existence of his power and wealth, Grace is unable to see what her family and friends see, and ignores the warning signs of Dr. Benjamin Hayward's dark side. Benjamin's secrets--the death of his mentally ill wife and the disappearance of his daughter--push Grace into an abyss deeper than the one that brought her home in the first place, and she risks losing even more. *Pieces of Grace* is a complicated story of relationships confused by undercurrents of mental illness. Readers find themselves hoping family and friends can carry Grace through her most difficult moments.

Applications of Feminist Legal Theory to Women's Lives May 02 2023 This book, the second of two volumes, examines the pressing issues that affect women--pornography, prostitution, battery, rape, pay equity, sexual harassment, motherhood, abortion, adoption, new reproductive technologies--and considers them through the lens of feminist legal theory. It features more than sixty articles by well-known legal scholars and feminists. The contributions are arranged thematically and include an introduction and comprehensive literature review by the editor. *Applications of Feminist Legal Theory to Women's Lives* will be a valuable text for students, a resource for scholars and policy makers, and a useful introduction for general readers.

The Craft of Scientific Presentations Nov 08 2023 This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing

graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

Basic College Mathematics with P.O.W.E.R. Learning Nov 15 2021
Sherri Messersmith's successful hardcover franchise is expanded with the new softcover P.O.W.E.R. series. The conversational writing style, practical applications, innovative student resources and student friendly walk through of examples that users of the hard cover books noted and appreciated are also found in the pages of the P.O.W.E.R. series. The P.O.W.E.R. Framework What makes P.O.W.E.R. a unique tool for the classroom? A major challenge in developmental courses is that students at this level struggle with basic study skills and habits. Maybe this is one of their first college courses or perhaps they are adults returning to school after a long absence. Either way, many of the individuals taking this course don't know how to be good students. Instructors often don't have the time, the resources or the expertise to teach success skills AND the math concepts. The new team of Messersmith, Perez and Feldman offer a scientifically based approach to meet this challenge. The P.O.W.E.R. Learning Framework was developed by successful author, psychologist, student success instructor and researcher, Bob Feldman. It is a method of accomplishing any task using five simple and consistent steps. Prepare. Organize. Work. Evaluate. Rethink. This framework is integrated at every level of the text to help students successfully learn math concepts while at the same time developing habits that will serve them well throughout their college careers and in their daily lives. The Math Mastering Concepts--With the textbook and Connect Math hosted by ALEKS, students can practice and master their understanding of algebraic concepts. Messersmith is rigorous enough to prepare students for the next level yet easy to read and understand. The exposition is written as if a professor is teaching in a lecture to be more accessible to students. The language is mathematically sound yet easy enough for

students to understand.

Historical Painting Techniques, Materials, and Studio Practice Jul 04 2023 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Anger, the Misunderstood Emotion Mar 08 2021 "This landmark book" (San Francisco Chronicle) dispels the common myths about the causes and uses of anger -- for example, that expressing anger is always good for you, that suppressing anger is always unhealthy, or that women have special "anger problems" that men do not. Dr. Carol Tavris expertly examines every facet of that fascinating

emotion -- from genetics to stress to the rage for justice. Book jacket.

The Sixth Extinction Dec 17 2021 A remote military research station in Utah sends out a frantic distress call, ending with a chilling final command: Kill us all! Personnel from the neighbouring base rush in to discover everyone already dead - and not just the scientists, but every living thing for fifty square miles has been annihilated. The land is entirely sterile-and the blight is spreading. To halt the inevitable, Commander Gray Pierce and Sigma must unravel a threat that rises out of the distant past, to a time when Antarctica was green and all life on Earth balanced upon the blade of a knife. Following clues from an ancient map rescued from the lost Library of Alexandria, Sigma will discover the truth about an ancient continent, about a new form of death buried under miles of ice.

The Cultural Mindset Nov 27 2022 The phenomenon of global organizations reminds us that cross-cultural management is more prevalent than ever. While it may not be possible to develop in-depth knowledge of all cultures, a person can develop a way of thinking where they integrate culture in all of their deliberations, decisions, and behaviors. Such an approach is transformative and involves adopting a cultural mindset, understanding culture's power as a frame of reference, and developing a new way of thinking. The book *The Cultural Mindset* is based on Dr. Nahavandi's years of teaching, researching, and consulting with many businesses on cross-cultural issues. Built around a think-know-do model, the text enables readers to adopt a cultural mindset that will effectively guide their thinking and behavior as future managers. Through case studies and self-assessments, the book allows students to develop a broader view of culture that is beyond learning skills and competencies. Additionally, by focusing on culture in general, the book allows readers to address both national cultural issues, such as how to work in another country or manage a multi-national team, and diversity issues, such as the glass ceiling or discrimination in the workplace. The key underlying

theme for both topics is how culture, national or group-related, impacts our perspective – what we value, how we think, how we behave, and how we manage people effectively. Each chapter will include a focus on both informational and transformational learning through: Cases and examples that will question assumptions and emphasize applicability Self-assessments to make the concepts personal and relevant, and encourage self-reflection Examples to help students understand those concepts Specific exercises and/or reflections to help students apply information to their own personal and professional life

Mistakes Were Made (but Not by Me) Feb 04 2021 Why do people dodge responsibility when things fall apart? Why the parade of public figures unable to own up when they make mistakes? Why the endless marital quarrels over who is right? Why can we see hypocrisy in others but not in ourselves? Are we all liars? Or do we really believe the stories we tell? Renowned social psychologists Carol Tavis and Elliot Aronson take a compelling look into how the brain is wired for self-justification. When we make mistakes, we must

calm the cognitive dissonance that jars our feelings of self-worth. And so we create fictions that absolve us of responsibility.

The Annotated Mona Lisa Sep 06 2023 Like music, art is a universal language. Although looking at works of art is a pleasurable enough experience, to appreciate them fully requires certain skills and knowledge." --Carol Strickland, from the introduction to *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* * This heavily illustrated crash course in art history is revised and updated. This second edition of Carol Strickland's *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* offers an illustrated tutorial of prehistoric to post-modern art from cave paintings to video art installations to digital and Internet media. * Featuring succinct page-length essays, instructive sidebars, and more than 300 photographs, *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* takes art history out of the realm of dreary textbooks, demystifies jargon and theory, and makes art accessible—even at a cursory reading. * From Stonehenge to the Guggenheim and from Holbein to

Warhol, more than 25,000 years of art is distilled into five sections covering a little more than 200 pages.

The Racial Contract Jan 10 2024 The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent *The Racial Contract* continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

The Maze Runner Jul 12 2021 Sixteen-year-old Thomas wakes up with no memory in the middle of a maze and realizes he must work with the community in which he finds himself if he is to escape.

Paul VI Apr 13 2024 A thoughtful, highly acclaimed biography of Giovanni Battista Montini, Paul VI, which sheds light on and powerfully underscores the personal and ecclesial sides of a man who brought modernity to the church.

How Emotions Are Made Aug 05 2023 Preeminent psychologist Lisa Barrett lays out how the brain constructs emotions in a way that could revolutionize psychology, health care, the legal system, and our understanding of the human mind. “Fascinating . . . A thought-provoking journey into emotion science.”—The Wall Street Journal “A singular book, remarkable for the freshness of its ideas and the boldness and clarity with which they are presented.”—Scientific American “A brilliant and original book on the science of emotion, by

the deepest thinker about this topic since Darwin.”—Daniel Gilbert, best-selling author of *Stumbling on Happiness* The science of emotion is in the midst of a revolution on par with the discovery of relativity in physics and natural selection in biology. Leading the charge is psychologist and neuroscientist Lisa Feldman Barrett, whose research overturns the long-standing belief that emotions are automatic, universal, and hardwired in different brain regions. Instead, Barrett shows, we construct each instance of emotion through a unique interplay of brain, body, and culture. A lucid report from the cutting edge of emotion science, *How Emotions Are Made* reveals the profound real-world consequences of this breakthrough for everything from neuroscience and medicine to the legal system and even national security, laying bare the immense implications of our latest and most intimate scientific revolution.

All the Single Ladies Jan 30 2023 "Today, only twenty percent of Americans are wed by age twenty-nine, compared to nearly sixty percent in 1960. The Population Reference Bureau calls it a 'dramatic reversal.' [This book presents a] portrait of contemporary American life and how we got here, through the lens of the single American woman, covering class, race, [and] sexual orientation, and filled with ... anecdotes from ... contemporary and historical figures"--

Introduction to Psychology Jul 24 2022 There is simply no other textbook as effective in getting students excited about and involved with psychology as Plotnik's exceptional text. Using his hallmark "multimedia on the printed page" approach, Rod Plotnik makes the concepts of psychology come to life! Plotnik's book is far more than just a good read and a compelling presentation--it is also a book written by a teacher committed to helping students master the content of psychology. From the side-by-side visual summaries to the concept reviews, Plotnik's text is designed throughout for student mastery. Professors report that all the important content is covered

in the Plotnik book--in a way that "hooks" students and gets them to read on. And Plotnik's commitment to teaching extends into the ancillaries that accompany the text. The activities in the Instructor's Manual are exciting, original, and offer truly innovative ways to get students involved in the concepts of the course. In many of today's psychology classrooms, the printed pages are just the beginning! In this exciting new Sixth Edition, the Learning Links feature references to the exciting NEW text-specific PowerStudy CD-ROM, developed by Rod Plotnik himself, in conjunction with Tom Doyle. Guided by the CD-ROM and the in-text references, students will launch into whole new worlds of interactive learning and exploration.
