A complete and fully customisable manual is available to the practising physician to assist with day-to-day operations. The Manual places an emphasis on improving and aiding the medical and business aspects of running an efficient and successful medical practise. An accompanying CD allows the podiatric physician and staff to customise a wide assortment of template forms, from memos for office procedures, employee job descriptions, forms for new employees to sign, and patient consent forms, to creating your own, personalised office employee handbook. This is truly a tool your office cannot do without. Covers the following topics: Clinical Care. The Manual's first section deals specifically with clinically related procedures such as treatment algorithms, appropriate X-ray positioning, general clinical care policies and procedures, proper documentation techniques, and caring for, ordering and dispensing medical instruments, equipment and supplies. The section concludes with a collection of essential clinical care forms and patient education materials needed for everyday operations. Patient Relations. The second section discusses how the podiatric physician's office should manage patient appointment scheduling, insurance, new patient processing, missed appointments, and patient care outside the office. The forms provided at the end of this section will help you and your staff communicate effectively with your patients and provide staff with essential information for dealing with patient-related situations. Office Administration. The objectives of this section include identifying the specific job responsibilities for each of the office personnel, identifying office policies such as responding to telephone calls, delays in the waiting room, and cleanliness, as well as discussing financial policies such as budgeting, accounts payable, collection policies, coding and fee schedules, and insurance and Medicare billing. Conventional administrative forms follow this section's discussions. Personnel Policies. The Manual's fourth section contains the office staff policy guidelines, from compensation and benefits to behavioural expectations. A well thought-out personnel policy section is essential so that your employees know what is expected from them as members of your team. Key forms such as an appropriate employee warning notice and an example of a performance review are among the forms provided in this section. Appendices. Appendix A, Model Plans and Programmes for the OSHA Bloodborne Pathogens and Hazard Communications Standards is a public domain resource reproduced in this publication as a reference tool. The Occupational Safety and Health Administration (OSHA) requires all medical offices to have an

Exposure Control Plan. This plan is designed to minimise exposure to bloodborne pathogens or other infectious material. This practical text reviews the most recent literature supporting clinical decisions regarding over a dozen common foot and ankle conditions, along with presentations of the techniques themselves, both surgical and non-surgical. The conditions are presented anatomically from forefoot to ankle, beginning with issues surrounding toenails, such as fungal infection and treatment of ingrown toenails, then proceeds to discuss the toes and toe joints, including hammertoe fixation, 2nd MPJ pathology, and Lapidus bunionectomy. Treatments for arthritis of the midfoot and flatfoot follow, along with arthroscopy and arthroplasty of the ankle, surgical and non-surgical approaches for Achilles tendon ruptures, and treatments for Charcot neuroarthropathy, clubfoot and general considerations of wound care of the foot and ankle. Throughout, an emphasis is placed on the best available evidence for each treatment strategy. Evidence-Based Podiatry will be a valuable resource for podiatrists, orthopedic surgeons, and residents, fellows and trainees treating these common foot and ankle conditions. Professional Practice for Podiatric Medicine provides an overview of the challenges facing podiatric clinicians in the United Kingdom. The notion of professionalism and the constructs that underpin service delivery are of increasing concern in the current healthcare climate. The topics covered in this text are timely and relevant to new and current clinicians. Podiatry has undergone many changes over the last two decades, and the foremost change has been an increasing emphasis on professionalism in clinical practice. In this book, several experienced podiatric practitioners and healthcare educators contribute chapters on different aspects of podiatry. Principles of leadership and management (which impact on individual career paths) are discussed, alongside the processes of appraisal, work loading and continuing professional development that will shape the future of podiatry.
