ENT Board Prep is a high-yield review that is an ideal study guide for the ENT in-service and board exams. While other review guides are low yield or more of a textbook, this is quick, concise, and easy-to-use, providing everything you need to know in a easy to digest format. ENT Board Prep offers review on sections such as cancer, ear, sinus, plastics, sleep, and laryngology, as well as case studies useful for studying for the oral board exams. Written and edited by leaders in the field, this book aims to serve future residents and fellows in those crucial weeks leading up to the ENT board exam. Women are entering medical school in equal numbers as men, yet still face unique challenges in a profession where, overall, male physicians outnumber female physicians 3 to 1. Women in medicine also face decisions such as when to have a child during training and often struggle with work-life balance. This book features real stories and advice from mothers in medicine at all stages of training from medical student to practicing physician and addresses the topics that shape the lives, joys, and challenges of women in medicine today. The book is based on the best posts and wisdom shared on the Mothers in Medicine blog, which was established in 2008 by the editor and has published over 1500 posts and has over 4.8 million page views to date. The book is organized by themes that are unique to the physician-mother: career decisions, having children during training, navigating life challenges, practice issues, and work-life balance. Each chapter features an excerpt from the blog followed by an honest discussion of the key considerations, guidelines, and tips as related to each topic in the conversational, personal tone of the blog. The book concludes with a chapter that features the most popular questions posted on the Mothers in Medicine blog and a summary of the responses received from the community of readers. Mothers in Medicine: Career, Practice, and Life Lessons Learned is a valuable and contemporary resource for pre-medical students, medical students, residents, and physicians. Thoroughly revised and updated, the most complete family medicine board review guide continues to be the resource of choice for anyone preparing to take the American Board of Family Medicine (ABFM) examination. This edition includes dozens of new cases. A revision of a proven guide for those preparing for the Engineer-in-Training Exam, this text also serves as a standard reference for professional engineers. Contents: Mathematics; Computer Programming; Statics; Dynamics; Mechanics of Materials; Fluid Mechanics; Thermodynamics; Chemistry; Electricity; Structure of Matter; and Materials Science. First Published in 1980. Routledge is an imprint of Taylor & Francis, an informa company. ASBOG Exam Secrets helps you ace the National Association of State Boards of Geology Examination, without weeks and months of endless studying. Our comprehensive ASBOG Exam Secrets study guide is written by our exam experts, who painstakingly researched every topic and concept that you need to know to ace your test. Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. ASBOG Exam Secrets includes: The 5 Secret Keys to ASBOG Exam Success: Time is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; Comprehensive sections including: Field Methods/Geophysics/Modeling, Types of Faults, Law of Initial Horizontality, Radiometric Methods, Rule of V's, Geomorphic Characteristics of a Fault, Orogenic Events, Field Investigations, Ground Penetrating Radar (GPR), Snell's Law, Spontaneous Potential (SP), Gamma Radiation, Side-Looking Airborne Radar (SLAR), Hydrogeology/Environmental Geochemistry, Porosity and Permeability, Containment of Water in Underground Structures, Hydrogeological Investigation, Hydrologic Budget Equation, Ground-water Inventory Equation, Bernoulli Equation, Aquifers, Porosity, Values of Specific Yield, Storativity or Storage coefficient, Transmissivity, Bailer Test, The Theis Equation and Method, Dupuit Equation, Ground Water Studies, and much more... Designed to prepare you for the FE exam, "FE/EIT Sample Examinations" simulates the actual FE exam in every aspect, from the format and level of difficulty to the number of problems and the distribution of problems across exam topics. The most realistic practice for the FE exam 2 complete sample exams 120 morning and 60 general afternoon problems on each exam Multiple-choice format, just like the exam, with solutions Increase your comfort level of solving problems in SI units Mentally prepare for the pressure of working under timed conditions - A complete, 170-problem practice exam - Step-by-step solutions are included A unique review reference featuring nearly 1,000 multiple choice questions. Each question focuses on a key concept or anesthesia problem encountered in daily practice. Answers, explanations, case analyses and references follow, making the information relevant to patient care and standard procedures. Sports Medicine: Study Guide and Review for Boards is a comprehensive review text surveying the breadth of nonsurgical sports medicine. Covering topics pertinent to (and found on) the Sports Medicine board examination, the book is intended as a primary study tool for candidates preparing for certification. All of the subject areas tested on the boards are represented, including basic science and general procedures; health promotion and preventive aspects; emergency assessment and care; and diagnosis, management, and treatment of the full range of sports-related injuries and conditions. The editors have used the exam content outline as a blueprint for organizing the book so the space allotted to each chapter reflects the corresponding emphasis of the topic on the exam. Sports Medicine also provides the concise, high-yield facts that residents, fellows, trainees, and clinicians in any discipline need to supplement their training in non-operative sports medicine. Features of Sports Medicine: Study Guide and Review for Boards Include Written in outline format for ease of use Comprehensive review of all topics covered on the Sports Medicine board examination Mirrors organization of the official exam content outline; material is weighted according to space allotted on the actual test Editors and authors are noted experts and teachers in the field of sports medicine and come from multiple specialties Includes numerous figures and tables to illustrate key points and enhance learning Recommended reading for further study Can be used for board preparation or as a concise clinical text Focused on rotations in regional anesthesia and chronic pain, this book provides a structured review of the concepts covered in the American Board of Anesthesiology in-training exam. The first section of the book covers regional anesthesia with dedicated chapters on basic science, acute postoperative pain, and nerve blocks for neuraxial, lower and upper extremity blocks, and head and neck. The second

section on chronic pain includes chapters on basic science and common pain conditions - including craniofacial pain, CRPS, neuropathic pain, and cancer pain. This section closes on multimodal analgesia and other treatment approaches. Each chapter presents a common clinical topic and is organized by indications, preparation, technique, complication, prevention, clinical pearls, and related ABA key points. Highlights must-know information in bold throughout the text. Concise, practical, and easy-to-read, this book will aid anesthesiology residents, certified nurse anesthetists, and medical students in their study regarding patient care practices on regional anesthesia and chronic pain. The book will also be useful to residents going into regional anesthesia and pain medicine subspecialties during the year of their anesthesiology training. This comprehensive resource from the American Medical Society for Sports Medicine provides two complete tests with answers, explanations, and up-to-date references. Each test features 200 questions that were initially used to evaluate recent graduates of primary care sports medicine fellowship programs. The tests can be used by physicians studying for the Certificate of Added Qualifications exam or fellows studying for their In-Training Examinations. The book is also a great tool for pre/post-residency test preparation and for review sessions during sports medicine rotations. EMonCall handheld software provides on-the-spot treatment advice for the most frequently encountered problems in emergency medicine. The unique On Call format is organized for quick access to over 120 of the most common problems seen in the emergency department. For each on-call problem, users can immediately focus on the presenting problem, immediate questions, differential diagnosis, lab and other diagnostic tests, and treatment plan. Additional information on laboratory tests, procedures, fluids and electrolytes, and blood component therapy enhance the software's value as a single-source reference. The commonly used medications section offers quick access to the most frequently used medications in the emergency department. Covering everything you need to study for and pass the Pharmacy Technician Certification Board (PTCB) and ExCPT exams, Mosby's Review for the Pharmacy Technician Certification Examination, 3rd Edition makes exam preparation easy. Review the content you'll see on the exam with handy outlines, test-taking tips and strategies, and electronic flash cards. Written by noted pharmacy technician educator James J. Mizner, this complete review tests your knowledge and simulates the actual PTCB exam with 17 different, 100-question practice exams in the book and online. This edition is modeled after the updated Pharmacy Technician Certification Exam Blueprint. A total of 1,700 review questions are included in 17 practice exams in the book and online. 100-question format of each practice exam simulates the PTCB and ExCPT exams, with multiple-choice questions and the same balance of content, for a realistic test taking experience. 700 electronic flash cards help you learn and remember facts by covering the top 200 most prescribed pharmaceuticals, top 50 herbals, abbreviations, and sound-alike drugs. Review content reflects the new percentages covered on the PTCB exam. A convenient outline format helps you to quickly review important information you'll see on the exam. Tips and suggestions prepare you for test-taking success by providing an insider's perspective on what to expect and how to prepare for your exam when you have limited time. Seven practice exams in the book feature the same format and content emphasis as the national exam. Ten practice exams on the Evolve companion website in both timed and untimed modes help you identify any areas of weakness, and include instant feedback and remediation. UPDATED content includes current drug information and pharmacy practice procedures based on the new Pharmacy Technician Certification Exam Blueprint. NEW! Chapter objectives provide a clear breakdown of content and goals for review. Every year emergency medicine resident physicians participate in the American Board of Emergency Medicine (ABEM) In-Training Examination to assess their medical knowledge. Preparing for the examination involves assembling several different resources on a wide range of topics. Many resources are either too detailed or too superficial, limiting their effectiveness. Pocket Guide to the American Board of Emergency Medicine In-Training Exam is designed specifically for the Emergency Medicine Resident Physician as an aid to reviewing for the In-Training exam. Pertinent information is organized under the same topics as the examination. The concise text and tables deliver information quickly and a rapid review section allows for self-assessment. In addition, the small portable size enables revision whenever and wherever you are. Pocket Guide to the American Board of Emergency Medicine In-Training Exam is the only resource you will need for In-Training Examination preparation. The ONLY book with 3 full-length, 4-hour exams, plus 12 comprehensive reviews for the AM portion of the FE(EIT). Step-by-step explanations are presented. Knowledge of the first 90 semester credit hours of a typical engineering program are tested. Thorough reviews are provided for all areas tested on the FE, including the two new sections, Computers and Ethics. For engineering students who are pursuing an 'Engineer-in-Training' certification. This book offers high-yield review for the Orthopaedics In-Training Exam (OITE) and the American Board of Orthopaedic Surgery (ABOS) Part I exam for residents and attendings. From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together “Targeted review from USMLE expert Conrad Fischer, MD, Master the Boards USMLE Step 2 CK delivers what you need to excel on the exam and match into the residency program you want. The Fischer Method includes disease topics presented in exam-style format: What is the most likely diagnosis? What is the best initial test? What is the most accurate diagnostic test? What is the treatment? Includes: a logical approach that makes patient care easy to remember; hundreds of color diagnostic images, algorithms, and tables; and a new biostatistics chapter and dozens of new infectious disease topics.”-- Pass your wastewater certification exam the first time! This study guide is specially developed to give wastewater operators practice answering questions that are similar in format and content to the questions that appear on certification exams. Sample questions are provided for grades 1, 2, 3, and 4 wastewater operator certification exams, so you can study the questions that are specific to your grade level. Answers and references are included for questions. Math questions include the method to solve. AWWA's most popular operator training aid, this study guide is specially designed to give water operators and students practice in answering questions that are similar in format and content to the questions that appear on state certification exams. Sample questions and answers for both wastewater treatment and collections systems are included. This test prep book includes two full-length practice tests with explanations for every answer. Detailed review chapters provide sample problems and solutions, as well as an overview of the test subjects. Designed to assess students' knowledge of engineering subjects ranging from chemistry to thermodynamics. A thorough preparation for students taking the FE: PM General exam. This reference manual is designed to help those interested in passing the ASQ's certification exam for Six Sigma Green Belts and others who want a handy reference to the appropriate materials needed to conduct successful Green Belt projects. It is a reference handbook on running projects for those who are already knowledgeable about process improvement and variation reduction. The primary layout of the handbook follows the ASQ Body of Knowledge (BoK) for the Certified Six Sigma Green Belt (CSSGB) updated in 2015. The authors were involved with the first edition handbook, and have utilized first edition user comments, numerous Six Sigma practitioners, and their own personal knowledge gained through helping others prepare for exams to bring together a handbook that they hope will be very beneficial to anyone seeking to pass the ASQ or other Green Belt exams. In addition to the primary text, the authors have added a number of new appendixes, an expanded acronym list, new practice exam questions, and other additional materials Emergency Medicine Board Review is a comprehensive guide for preparing for the American Board of Emergency Medicine (ABEM) certification or ConCert

recertification exam, and for residents preparing for in-training examinations in Emergency Medicine. The text consists of over 900 multiple-choice questions, organized into 20 chapters covering topics such as gastrointestinal, cardiovascular, and nervous system emergencies, as well as various disorders. Chapters include questions, answers with detailed explanations, and "test taking tips" to help better navigate a standardized exam. Questions are written in a case-based format that emulates the ABEM and ConCert exams, and are supplemented by numerous figures, tables, and boxes. A portable, comprehensive revision guide for resident physicians preparing for the ABEM Emergency Medicine In-Training Exam. Engineer-In-Training Sample Examinations provides two complete eight-hour practice exams to build test-taking skills and confidence. Solutions are provided. This book offers 1,400 plus practice questions and answers so that you can take your water operator certification exam with confidence. CMIT Construction Manager-In-Training Practice Exam This 200 questions and answers CMIT Construction Manager-In-Training Practice Exam will surely give you an idea and help you pass the exam. This book is a must if you want to feel the actual exam. Buying and reading this book won't guarantee you'll pass the exam. We still highly recommend you undergo training, so you'll better understand the competencies. This PRACTICE TEST is only intended for those who feel scared to lose their hard-earned money due to exam failure. If you passed this test in one try, there's some chances you'll pass the actual exam too although we cannot guarantee that. About the Author The author of this book is an independent practice exam provider not associated/affiliated with the certification organization mentioned throughout this book. The Certification names mentioned in this book is their trademarks. We only mention these certification names to describe the relevant exam. Certified PRO aims to give you the realistic taste of exam. Although we cannot guarantee that when you pass our practice exam, you'll also pass the actual exam, we can almost be sure that if you get 50% and below in our practice exam, your chances of passing the actual exam is very low. The ONLY book with 3 full-length, 4-hour exams, plus 12 comprehensive reviews for the AM portion of the FE(EIT). Step-by-step explanations are presented. Knowledge of the first 90 semester credit hours of a typical engineering program are tested. Thorough reviews are provided for all areas tested on the FE, including the two new sections, Computers and Ethics. For engineering students who are pursuing an 'Engineer-in- Training' certification. Authored by current and former physicians at the Mayo Clinic, Faust's Anesthesiology Review, 5th Edition, combines comprehensive coverage of essential anesthesiology knowledge with an easy-to-use format, reflecting the latest advances in the field. This outstanding review tool offers concise content on everything needed for certification, recertification, or as a refresher for anesthesiology practice, covering a broad range of important and timely topics. Save valuable time with this trusted resource as you master the latest advances, procedures, guidelines, and protocols in anesthesiology.
