

Sleek and elegant, the SL412's LED backlight features energy savings and a slim design – bringing entertainment into any living space with style.

## Advantages

### 1080P FULL HD

Is the highest HD resolution for the top-of-the-line in picture performance. Enjoy the best of both worlds, the spatial resolution of 1080 HDTV material and the smooth stable image of a progressive scan format.

### LED TV

Edge LED Backlight technology, transforming these models into slimmer, brighter, more energy efficient televisions. A higher Contrast Ratio can also be achieved providing brighter whites and deeper blacks than traditional CCFL backlight televisions.

### HDMI

Digital input for the premium in high definition connectivity. An HDMI cable can transfer digital video and multi channel audio to compatible home theatre components and high definition televisions without the need to scale down or compress the signal. A single cable can deliver the best in picture and sound quality.

### USB

Expand your entertainment options with the USB Input. Just simply plug in a USB flash drive loaded with digital photo or music files from your PC and start enjoying them with the built-in easy to use media player.

### Native Mode

Is an advanced scaling circuitry that eliminates overscan which can hide up to 8% of the original image around the perimeter of the screen. Native Mode technology displays every pixel on the screen allowing you to view the entire image.

### Gaming Mode

Includes new "video bypass circuitry" to shorten signal time to the screen (also known as "input lag"). This creates an improved gaming experience – and an advantage you have over your opponents.
