This is the only available volume to summarize current knowledge of prehistoric regional exchange in the American Southwest and Mesoamerica. As such, anthropologists and archaeologists will find it a valuable source of important data for comparative analysis of regional systems relative to sociopolitical organization. Restates briefly the background and initial organization of the Southwest Missouri Library Service, Inc. and covers an approximate three-year period of operation beginning October 1, 1957, with emphasis on current practices and policies. The product of more than fifteen years of collaboration between tribal and academic scholars, this volume presents groundbreaking research demonstrating that the Hopi Mesas are among the great centers of the Pueblo world. If the Southwest is known for its distinctive regional culture, it is not only the indigenous influences that make it so. As Anglo Americans moved into the territories of the greater Southwest, they brought with them a desire to reestablish the highest culture of their former homes: opera, painting, sculpture, architecture, and literature. But their inherited culture was altered, challenged, and reshaped by Native American and Hispanic peoples, and a new, vibrant cultural life resulted. From Houston to Los Angeles, from Tulsa to Tucson, Keith L. Bryant traces the development of "high culture" in the**

Southwest. Humans create culture, but in the Southwest, Bryant argues, the land itself has also influenced that creation. "Incredible light, natural grandeur, . . . and a geography at once beautiful and yet brutal molded societies that sprang from unique cultural sources." The peoples of the American Southwest share a regional consciousness—an experience of place—that has helped to create a unified, but not homogenized, Southwestern culture. Bryant also examines a paradox of Southwestern cultural life. Southwesterners take pride in their cultural distinctiveness, yet they struggled to win recognition for their achievements in "high culture." A dynamic tension between those seeking to re-create a Western European culture and those desiring one based on regional themes and resources continues to stimulate creativity. Decade by decade and city by city, Bryant charts the growth of cultural institutions and patronage as he describes the contributions of artists and performers and of the elites who support them. Bryant focuses on the significant role women played as leaders in the formation of cultural institutions and as writers, artists, and musicians. The text is enhanced by more than fifty photographs depicting the interplay between the people and the land and the culture that has resulted. In the first picture book written by a DACA Dreamer, Areli Morales tells her own powerful and vibrant immigration story. When Areli was just a baby, her mama and papa moved from Mexico to New

York with her brother, Alex, to make a better life for the family--and when she was in kindergarten, they sent for her, too. Everything in New York was different. Gone were the Saturdays at Abuela's house, filled with cousins and sunshine. Instead, things were busy and fast and noisy. Areli's limited English came out wrong, and schoolmates accused her of being illegal. But with time, America became her home. And she saw it as a land of opportunity, where millions of immigrants who came before her paved their own paths. She knew she would, too. This is a moving story--one that resonates with millions of immigrants who make up the fabric of our country--about one girl living in two worlds, a girl whose DACA application was eventually approved and who is now living her American dream. The Deferred Action for Childhood Arrivals (DACA) is an immigration policy that has provided relief to thousands of undocumented children, referred to as "Dreamers," who came to the United States as children and call this country home. From Houston to Los Angeles, from Tulsa to Tucson, Keith L. Bryant, Jr., traces the development of "high culture" in the Southwest. "A new kind of history of the Southwest (mainly New Mexico and Arizona) that foregrounds the stories of Latino and Indigenous peoples who made the Southwest matter to the nation in the twentieth century"--Provided by publisher. Ladies of the Canyons is the true story of remarkable women who left the security and comforts of genteel Victorian society and journeyed to the American Southwest in

search of a wider view of themselves and their world. Educated, restless, and inquisitive, Natalie Curtis, Carol Stanley, Alice Klauber, and Mary Cabot Wheelwright were plucky, intrepid women whose lives were transformed in the first decades of the twentieth century by the people and the landscape of the American Southwest. Part of an influential circle of women that included Louisa Wade Wetherill, Alice Corbin Henderson, Mabel Dodge Luhan, Mary Austin, and Willa Cather, these ladies imagined and created a new home territory, a new society, and a new identity for themselves and for the women who would follow them. Their adventures were shared with the likes of Theodore Roosevelt and Robert Henri, Edgar Hewett and Charles Lummis, Chief Tawakwaptiwa of the Hopi, and Hostiin Klah of the Navajo. Their journeys took them to Monument Valley and Rainbow Bridge, into Canyon de Chelly, and across the high mesas of the Hopi, down through the Grand Canyon, and over the red desert of the Four Corners, to the pueblos along the Rio Grande and the villages in the mountains between Santa Fe and Taos. Although their stories converge in the outback of the American Southwest, the saga of Ladies of the Canyons is also the tale of Boston's Brahmins, the Greenwich Village avant-garde, the birth of American modern art, and Santa Fe's art and literary colony. Ladies of the Canyons is the story of New Women stepping boldly into the New World of inconspicuous success, ambitious failure, and the

personal challenges experienced by women and men during the emergence of the Modern Age. In the fall of 1886, Boston philanthropist Mary Tileston Hemenway sponsored an archaeological expedition to the American Southwest. Directed by anthropologist Frank Hamilton Cushing, the Hemenway Expedition sought to trace the ancestors of the Zuñis with an eye toward establishing a museum for the study of American Indians. In the third year of fieldwork, Hemenway's overseeing board fired Cushing based on doubts concerning his physical health and mental stability, and much of the expedition's work went unpublished. Today, however, it is recognized as a critical base for research into all of southwestern prehistory. Drawing on materials housed in half a dozen institutions and now brought together for the first time, this projected seven-volume work presents a cultural history of the Hemenway Expedition and early anthropology in the American Southwest, told in the voices of its participants and interpreted by contemporary scholars. Taken as a whole, the series comprises a thorough study and presentation of the cultural, historical, literary, and archaeological significance of the expedition, with each volume posing distinct themes and problems through a set of original writings such as letters, reports, and diaries. Accompanying essays guide readers to a coherent understanding of the history of the expedition and discuss the cultural and scientific significance of these data in modern

debates. This first volume, *The Southwest in the American Imagination*, presents the writings of Sylvester Baxter, a journalist who became Cushing's friend and publicist in the early 1880s and who traveled to the Southwest and wrote accounts of the expedition. Included are Baxter's early writings about Cushing and the Southwest, from 1881 to 1883, which reported enthusiastically on the anthropologist's work and lifestyle at Zu-i before the expedition. Also included are published accounts of the Hemenway Expedition and its scientific promise, from 1888 to 1889, drawing on Baxter's central role in expedition affairs as secretary-treasurer of the advisory board. Series co-editor Curtis Hinsley provides an introductory essay that reviews Baxter's relationship with Cushing and his career as a journalist and civic activist in Boston, and a closing essay that inquires further into the lasting implications of the "invention of the Southwest," arguing that this aesthetic was central to the emergence and development of southwestern archaeology. Seen a century later, the Hemenway Expedition provides unusual insights into such themes as the formation of a Southwestern identity, the roots of museum anthropology, gender relations and social reform in the late nineteenth century, and the grounding of American nationhood in prehistoric cultures. It also conveys an intellectual struggle, ongoing today, to understand cultures that are different from the dominant culture and to come to

grips with questions concerning America's meaning and destiny. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Covering nearly a thousand years of southwestern prehistory and history, this volume brings together the best of current research to illustrate the variation in the organization of ceramic production evident in this single geographic area. In this superbly rich epic of fact and reflection, Alex Shoumatoff records his quest to capture the vast multiplicity of the American

Southwest. From the Biosphere to the Mormons, from the deadly world of narcotraffickers to the secret lives of the covertly Jewish conversos, Shoumatoff explores the many alternative states of being that have staked their claim in the Southwest. Full of profound sympathy and unique insights, Legends of the American Desert takes us on a kaleidoscopic journey into the most complex and myth-laden region of the American landscape and imagination. [This book] offers a close look at how Johnson handled the issues of civil rights, segregation, Vietnam, and an unruly economy, and demonstrates how these issues and events wore away Johnson's once robust idealism.-Back cover. In this biography, Randolph B. Campbell explores the life of Sam Houston and his important role in the development of the Southwest. Paperback, brief, and inexpensive, each of the titles in the Library of American Biography Series focus on a figure whose actions and ideas significantly influenced the course of American history and national life. In addition, each biography relates the life of its subject to the broader themes and developments of the times. Nearly 50 years ago, the Bureau of Reclamation proposed building a dam at the confluence of two rivers in central Arizona. While the dam would bring valuable water to an arid plain, it would also destroy a wildlife habitat, flood archaeological sites, and force the Yavapai Indians from their ancestral home. This is the fascinating story of this controversial and

ultimately thwarted project. First Published in 1978. Routledge is an imprint of Taylor & Francis, an informa company. Coyote insists the crows teach him how to fly, but the experience ends in diaster. "Emil Haury stands as one of the finest archaeologists of the American Southwest. He skills were sharpened by the best mentors—Cummings, Douglass, Gladwin—and eventually Haury's excavations became the definitive work on the Mogollon and Hohokam cultures. . . . This work is a 'best of Haury' collection of many of his previously published works, with excellent introductory essays by colleagues and noted archaeologists—gathered into one, readable volume."—Choice This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Celebrated artist and lead character designer of Brave, Ratatouille, and Despicable Me, Carter Goodrich, shows that sometimes, even the prickliest people—or the crankiest cacti—need a little love. Hank is the

prickliest cactus in the entire world. He sits in a pot in a window that faces the empty desert, which is just how he likes it. So, when all manner of creatures—from tumbleweed to lizard to owl—come to disturb his peace, Hank is annoyed. He doesn't like noise, he doesn't like rowdiness, and definitely does not like hugs. But the thing is, no one is offering one. Who would want to hug a plant so mean? Hank is beginning to discover that being alone can be, well, lonely. So he comes up with a plan to get the one thing he thought he would never need: a hug from a friend.

A heavily illustrated history & appreciation of the contribution of the Fred Harvey Company to the preservation and promotion of Indian art. Serves as the catalog of an exhibit--through April 1997-- at the Heard Museum in Phoenix. c. Book News Inc. By analyzing ways in which indigenous cultures described the American Southwest, David Teague persuasively argues against the destructive approach that Americans currently take to the region. Included are Native American legends and Spanish and Hispanic literature. As he traces ideas about the desert, Teague shows how literature and art represent the Southwest as a place to be sustained rather than transformed. 14 illustrations.
