The Many Facets of Israel's Hydrogeology Uri Kafri, Yoseph Yechieli, 2020-11-09 This book presents a collection of essays that address various facets of the hydrogeology of Israel Despite its small geographic size Israel exhibits a variety of climates and is located between two regional fluctuating base levels The respective chapters discuss the variety of hydrogeological configurations and hydrological processes produced by these geographical circumstances In some cases the interpretation of these aspects is deliberately left open to debate because the authors were asked to provide in addition to their own views also alternative and even conflicting ones Hydrogeological configurations similar to those in Israel can be found in other countries around the world Therefore researchers scholars and professionals in this interdisciplinary field can benefit from and directly apply the considerable experience and expertise that has been gathered in Israel over the past few decades

Principles and Applications of Modified Atmosphere Packaging of Foods B. Blakistone, 2013-12-14 Modified atmosphere packaging may be defined as an active packaging method in which an altered atmosphere is created in the headspace that retards chemical deterioration while simultaneously retarding growth of spoilage organisms Shelf lives of perishable products such as dairy products meat poultry fish fruits and vegetables and bakery items are limited by biochemical changes in the product catalysed by exposure to the normal atmosphere 21 % oxygen 78% nitrogen and less than 0.1 % carbon dioxide and growth of spoilage organisms Modification of the atmosphere within a package containing these products helps to better maintain the quality of the food under longer storage conditions and retards the growth of undesirable organisms Of course deterioration is also slowed by chilling which is required for the transport to market of highly perishable items like meat poultry and fish that would either

spoil or have the potential for contamination by certain food pathogens Chilling plus a modification of the atmosphere optimizes the keeping quality of food Modification of the atmosphere has been known for over a century as a means of food preservation and has become a very popular means of food preservation in the latter part of the 20th century Modified atmosphere packaging MAP is practised extensively in Europe Canada and the USo Both vacuum packaging removal of air from the package and addition of gases within the package are considered MAP

Staging Masculinity Carla J. McDonough, 2006-07-05 The men in plays such as Arthur Miller's Death of a Salesman or Sam Shepard's True West are often presented as universal little attention is given to the gender dynamics involved in the characters This work looks at how contemporary playwrights including Miller Shepard Eugene O'Neill David Mamet and August Wilson stage masculinity in their works It becomes apparent that male playwrights return often to the issues of troubled manhood usually masked in other issues such as war business or family The plays indicate both the attractiveness of the model of traditional masculinity and the illusive nature of this image which all too often fractures and fails the characters who pursue it O'Neill's play The Hairy Ape and the character Yank receive much attention
