**SUMMARY:** Multiple choice test of 48 items consisting of picture recognition and sentence completion. Forms A & B are parallel. The Access Reading Test is purpose-designed for wide-range assessment from age 7 to 20+ years, and pinpoints strengths and weaknesses in four key reading skill areas: Literal comprehension, Vocabulary,

Comprehension requiring inference or prediction and opinions and Comprehension requiring analysis. - Provides reliable retesting and progress monitoring over time with two parallel test forms A and B -each contain 60 questions based on carefully matched reading experiences - The test can be given to groups or individuals: it takes just 30 minutes to administer, and is quick and easy to score - The gradually increasing difficulty allows students to meet a variety of graded texts (fiction and non-fiction) and styles - Valid across a wide age and ability range - level of demand ranges from reading strategies, vocabulary and literacy skills appropriate to Key Stages 2 and 3, to the vocabulary and grammatical structures associated with GCSE - The optional Scorer/Profiler CD-ROM enables instant, accurate age and score calculations and detailed group performance listings The Access Reading Test gives standardised scores, reading ages and percentiles, together with information about the average scores for each year group in each skill area. The manual also describes how to use the test to help establish if a student may be eligible for extra time in national tests or examinations. The Functional Reading Test

is a standardised multiple-choice group test of reading comprehension. It assesses students' understanding of a wide cross-section of texts and genres, ranging from material and contexts which will be familiar to students, to less familiar, but potentially significant, texts reflecting the world of work and early adulthood. Trialled and standardised on almost 4000 secondary school students, the test provides norms as standardised scores, National Curriculum levels and Functional Skills Standards, from Entry 2 to above Level 2. It is especially useful for screening students who, at 13 years of age, have made only limited progress in reading, as it differentiates very precisely amongst below-average readers in the 13-16+ age range. The parallel forms A and B allow the progress of such students to be monitored and evaluated very accurately. The Functional Reading Test is matched to the QCA's Functional Skills Standards for reading, but is equally suitable for use as a free-standing measure of reading attainment, providing a robust global measure of reading comprehension of an essentially functional nature. A quick, reliable, orally delivered assessment focusing on children's understanding of

number and number operations, now fully restandardised - check out the Specimen Set for full details.
