The Everything Store Brad Stone,2013-10-15 The authoritative account of the rise of Amazon and its intensely driven founder Jeff Bezos praised by the Seattle Times as the definitive account of how a tech icon came to life Amazon com started off delivering books through the mail But its visionary founder Jeff Bezos wasn't content with being a bookseller He wanted Amazon to become the everything store offering limitless selection and seductive convenience at disruptively low prices To do so he developed a corporate culture of relentless ambition and secrecy that's never been cracked Until now Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members giving readers the first in depth fly on the wall account of life at Amazon Compared to tech's other elite innovators Jobs Gates Zuckerberg Bezos is a private man But he stands out for his restless pursuit of new markets leading Amazon into risky new ventures like the Kindle and cloud computing and transforming retail in the same way Henry Ford revolutionized manufacturing The Everything Store is the revealing definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read

The Emperor of All Maladies Siddhartha Mukherjee,2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS this New York Times bestseller is an extraordinary achievement The New Yorker a magnificent profoundly humane biography of cancer from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure control and conquer it to a radical new understanding of its essence Physician researcher and award winning science writer Siddhartha Mukherjee examines cancer with a cellular biologist's precision a historian's perspective and a biographer's passion The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with and perished from for more than five thousand years The story of cancer is a story of human ingenuity resilience and perseverance but also of hubris paternalism and misperception Mukherjee recounts centuries of discoveries setbacks victories and deaths told through the eyes of his predecessors and peers training their wits against an infinitely resourceful adversary that just three decades ago was thought to be easily vanquished in an all out war against cancer The book reads like a literary thriller with cancer as the protagonist Riveting urgent and surprising The Emperor of All Maladies provides a fascinating glimpse into the future of cancer treatments It is an illuminating book that provides hope and clarity to those seeking to demystify cancer

General Kenney Reports: A Personal History of the Pacific War,1997 General Kenney Reports is a classic account of a combat commander in action General George Churchill Kenney arrived in the South west Pacific theater in August 1942 to find that his command if not in a shambles was in dire straits The theater commander General Douglas MacArthur had no confidence in his air element Kenney quickly changed this situation He organized and energized the Fifth Air Force bringing in operational commanders like Whitehead and Wurtsmith who

knew how to run combat air forces He fixed the logistical swamp making supply and maintenance supportive of air operations and encouraging mavericks such as Pappy Gunn to make new and innovative weapons and to explore new tactics in airpower application The result was a disaster for the Japanese Kenney s airmen used air power particularly heavily armed B 25 Mitchell bombers used as commerce destroyers to savage Japanese supply lines destroying numerous ships and effectively isolating Japanese garrisons The classic example of Kenney in action was the Battle of the Bismarck Sea which marked the attainment of complete Allied air dominance and supremacy over Japanese naval forces operating around New Guinea In short Kenney was a brilliant innovative airman who drew on his own extensive flying experiences to inform his decision making General Kenney Reports is a book that has withstood the test of time and which should be on the shelf of every airman An Anthropologist on Mars Oliver Sacks,2012-11-14 From the bestselling author of The Man Who Mistook His Wife for a Hat Fascinating portraits of neurological disorder in which men women and one extraordinary child emerge as brilliantly adaptive personalities whose conditions have not so much debilitated them as ushered them into another reality Here are seven detailed narratives of neurological patients including a surgeon consumed by the compulsive tics of Tourette s syndrome unless he is operating an artist who loses all sense of color in a car accident but finds a new sensibility and creative power in black and white and an autistic professor who cannot decipher the simplest social exchange between humans but has built a career out of her intuitive understanding of animal behavior Sacks combines the well honed mind of an academician with the verve of a true storyteller *Beyond Adventure* Roy Chapman Andrews,1954 **The Ecology of Commerce** Paul Hawken,1995 Paul Hawken believes that the impending ecological catastrophe cannot be prevented by individuals only big business is powerful and influential enough to reverse the present trend In this book he sets out to show the need for a new relationship between governments and businesses believing that their present collusion against the public is undemocratic **Cracking Ice: episode 1** N.J. Lysk, Hockey was everything to them both until they met each other All Keenan Avali wants to do is play hockey It doesn t matter that he s an alpha he s got no interest in dominating anywhere but on the ice When Cartwright Johnson joins the Hell s Flames he expects to play hard to compensate for being an omega who dared to pursue a professional hockey career After his last team traded him he is not making the mistake of falling for a teammate ever again He s sure he s got the control to keep his pants on and his heart closed until he meets Keenan Avali An omega can t trust an alpha much less one as hot as Avali but nobody can fail to see they play together like they were made for it But for how long can they be the perfect teammates on ice when they can t stand to look at each other off it This is episode 1 of Cracking Ice a serialized novel that will be published every two weeks for the rest of the year Contains hockey alphas and omegas under the control of their instincts friendship romance and very mixed feelings Not Destiny is a companion novel and it can be read before or after Cracking Ice **On Writing Well** William Knowlton Zinsser,1994 Warns against common errors in structure style and diction and explains the fundamentals of conducting interviews and writing

travel scientific sports critical and humorous articles *Grand Strategy and Military Alliances* Peter R. Mansoor, Williamson Murray, 2016-02-09 A broad ranging study of the relationship between alliances and the conduct of grand strategy examined through historical case studies *The Paleoanthropology and Archaeology of Big-Game Hunting* John D. Speth, 2010-09-08 Since its inception paleoanthropology has been closely wedded to the idea that big game hunting by our hominin ancestors arose first and foremost as a means for acquiring energy and vital nutrients This assumption has rarely been questioned and seems intuitively obvious meat is a nutrient rich food with the ideal array of amino acids and big animals provide meat in large convenient packages Through new research the author of this volume provides a strong argument that the primary goals of big game hunting were actually social and political increasing hunter s prestige and standing and that the nutritional component was just an added bonus Through a comprehensive interdisciplinary research approach the author examines the historical and current perceptions of protein as an important nutrient source the biological impact of a high protein diet and the evidence of this in the archaeological record and provides a compelling reexamination of this long held conclusion This volume will be of interest to researchers in Archaeology Evolutionary Biology and Paleoanthropology particularly those studying diet and nutrition **The Wages of Whiteness** David R. Roediger, 2020-05-05 An enduring history of how race and class came together to mark the course of the antebellum US and our present crisis Roediger shows that in a nation pledged to independence but less and less able to avoid the harsh realities of wage labor the identity of white came to allow many Northern workers to see themselves as having something in common with their bosses Projecting onto enslaved people and free Blacks the preindustrial closeness to pleasure that regimented labor denied them white workers consumed blackface popular culture reshaped languages of class and embraced racist practices on and off the job Far from simply preserving economic advantage white working class racism derived its terrible force from a complex series of psychological and ideological mechanisms that reinforced stereotypes and helped to forge the very identities of white workers in opposition to Blacks Full of insight regarding the precarious positions of not quite white Irish immigrants to the US and the fate of working class abolitionism *Wages of Whiteness* contributes mightily and soberly to debates over the 1619 Project and critical race theory **On Writing Well, 30th Anniversary Edition** William Zinsser, 2012-09-11 *On Writing Well* has been praised for its sound advice its clarity and the warmth of its style It is a book for everybody who wants to learn how to write or who needs to do some writing to get through the day as almost everybody does in the age of e mail and the Internet Whether you want to write about people or places science and technology business sports the arts or about yourself in the increasingly popular memoir genre *On Writing Well* offers you fundamental principles as well as the insights of a distinguished writer and teacher With more than a million copies sold this volume has stood the test of time and remains a valuable resource for writers and would be writers *Dust* Emanuel Haldeman-Julius, Marcet Haldeman-Julius, 1921 Story of an unsuccessful marriage against a background of Kansas farm life Cf Hanna A Mirror for the nation *American Overdose* Chris

McGreal,2018-11-13 A comprehensive portrait of a uniquely American epidemic devastating in its findings and damning in its conclusions The opioid epidemic has been described as one of the greatest mistakes of modern medicine But calling it a mistake is a generous rewriting of the history of greed corruption and indifference that pushed the US into consuming more than 80 percent of the world s opioid painkillers Journeying through lives and communities wrecked by the epidemic Chris McGreal reveals not only how Big Pharma hooked Americans on powerfully addictive drugs but the corrupting of medicine and public institutions that let the opioid makers get away with it The starting point for McGreal s deeply reported investigation is the miners promised that opioid painkillers would restore their wrecked bodies but who became targets of drug dealers in white coats A few heroic physicians warned of impending disaster But American Overdose exposes the powerful forces they were up against including the pharmaceutical industry s coopting of the Food and Drug Administration and Congress in the drive to push painkillers resulting in the resurgence of heroin cartels in the American heartland McGreal tells the story in terms both broad and intimate of people hit by a catastrophe they never saw coming Years in the making its ruinous consequences will stretch years into the future

The Tatas Girish Kuber,2019-03-25 WINNER OF THE GAJA CAPITAL BUSINESS BOOK PRIZE 2019 The nineteenth century was an exciting time of initiative and enterprise around the world If John D Rockefeller was creating unimagined wealth in the United States that he would put to the service of the nation a Parsi family with humble roots was doing the same in India In 1822 a boy was born in a priestly household in Gujarat s Navsari village Young Nusserwanji knew early on that his destiny lay beyond his village and decided to head for Bombay to start a business the first in his family to do so He had neither higher education nor knowledge of business matters just a burning passion to carve a path of his own What Nusserwanji started as a cotton trading venture his son Jamsetji born in the same year as Rockefeller grew into a multifaceted business turning around sick textile mills setting up an iron and steel company envisioning a cutting edge institute of higher learning building a world class hotel and earning himself the title of the Bhishma Pitamah of Indian Industry Stewarded ably over the decades by Jamsetji s sons Dorabji and Ratanji the charismatic and larger than life JRD and thereafter the more business like Ratan the Tata group today is a 110 billion dollar empire The Tatas is their story But it is more than just a history of the industrial house it is an inspiring account of India in the making It chronicles how each generation of the family invested not only in the expansion of its own business interests but also in nation building Few know for instance that the first hydel power project in the world was conceived of and built by the Tatas Nor that some radical labour concepts such as eight hour work shifts were born in India at the Tata mill in Nagpur The Tata Cancer Research Centre the Indian Institute of Science the Tata Institute of Fundamental Research as also the national carrier Air India the family has a long rich and unrivalled legacy The Tatas is a tribute to a line of visionaries who have a special place in the hearts and minds of ordinary Indians Written by seasoned journalist Girish Kuber this is also the only book that tells the complete Tata story spanning almost two hundred years

Understanding Environmental Pollution

Marquita K. Hill, 2004-08-26 *Understanding Environmental Pollution* systematically introduces pollution issues to students and others with little scientific background. The first edition received excellent reviews and the new edition has been completely refined and updated. The book moves from the definition of pollution and how pollutants behave to air and water pollution basics, pollution and global change, solid waste and pollution in the home. It also discusses persistent and bioaccumulative chemicals and pesticides and it places greater stress on global pollutants. The relationship between energy generation and use and pollution is stressed as well as the importance of going beyond pollution control to pollution prevention. Impacts on human and environmental health are emphasized throughout. Students are often invited to come to their own conclusions after having been presented with a variety of opinions. This textbook provides the basic concepts of pollution toxicology and risk assessment for non science majors as well as environmental science students. **MoneyBall**

Medicine Harry Glorikian, Malorye Allison Branca, 2017-11-20 How can a smartwatch help patients with diabetes manage their disease? Why can't patients find out prices for surgeries and other procedures before they happen? How can researchers speed up the decade long process of drug development? How will Precision Medicine impact patient care outside of cancer? What can doctors, hospitals and health systems do to ensure they are maximizing high value care? How can healthcare entrepreneurs find success in this data driven market? A revolution is transforming the 10 trillion healthcare landscape promising greater transparency, improved efficiency and new ways of delivering care. This new landscape presents tremendous opportunity for those who are ready to embrace the data driven reality. Having the right data and knowing how to use it will be the key to success in the healthcare market in the future. We are already starting to see the impacts in drug development, precision medicine and how patients with rare diseases are diagnosed and treated. Startups are launched every week to fill an unmet need and address the current problems in the healthcare system. Digital devices and artificial intelligence are helping doctors do their jobs faster and with more accuracy. **MoneyBall Medicine: Thriving in the New Data Driven Healthcare Market** which includes interviews with dozens of healthcare leaders describes the business challenges and opportunities arising for those working in one of the most vibrant sectors of the world's economy. Doctors, hospital administrators, health information technology directors and entrepreneurs need to adapt to the changes effecting healthcare today in order to succeed in the new cost conscious and value based environment of the future. The authors map out many of the changes taking place, describe how they are impacting everyone from patients to researchers to insurers and outline some predictions for the healthcare industry in the years to come. **The History of the 36th (Ulster) Division** Cyril Falls, 1922

Cracking Ice: episode 2 N.J. Lysk, 2021-01-04 An omega in heat. His straight alpha teammate. A night they won't forget. A connection they cannot deny. When Cartwright Johnson joins the Hell's Flames he expects to play hard to compensate for being an omega, daring to pursue a professional hockey career. But he doesn't count on the instant connection he forms with his alpha linemate. Or on the heat it sparks. All Keenan Avali wants to do is play hockey. It doesn't matter that

he s an alpha he s got no interest in dominating anywhere but on the ice And he s certainly got no interest in men no matter how sweet they smell or how beautifully they skate Nobody can fail to see they play together like they were made for it But how close can they get to success without losing something much dearer than a game Cracking Ice is a 240 000 word episodic novel including enemies to lovers role reversals powerful instincts life changing friendships and a love that cannot be denied
