

**GATTACA Reflection Questions: Write your answers on a separate sheet of paper**

1. The film starts with two quotes that are 180 degrees apart. Here they are:

*"Consider God's handiwork; who can straighten what He hath made crooked?" – Ecclesiastes 7:13  
(The Bible)*

*"I not only think that we will tamper with Mother Nature, I think Mother wants us to." - Willard Gaylin  
(American Psychiatrist)*

**Explain the significance of these two quotes as they relate to this film.**

2. When Vincent was born and the DNA from his blood was analyzed, the nurse indicated the probability of a variety of things, (all bad) that would happen to Vincent. What things did Vincent have to overcome?

3. What was different about how Vincent's brother came into being? What was the significance of his being named "Anton"?

4. Why do you think the writer/director chose the name "GATTACA" for this film, and for the place where Vincent worked?

5. In the society of the future, people were classified as being "valid" or "invalid". Look up the real definitions of these words in the dictionary and comment how these words have been applied to members of society in the film. Do we have anything that resembles such labeling of people today? Explain.

**Note the symbol for infinity here. This implies the "infinite" potential that valids have.**

**Note the dagger symbol here. In classifying living things, a dagger next to an animal's name implies extinction. Note that IN-VALIDS are not even given a name.**

6. There were a variety of "valids" that were supposedly born superior, yet still had flaws. For each "valid" character pictured below, explain their shortcomings.

Anton

Irene

Jerome

Director

7. What was the purpose of the kiosk Irene went to with Vincent's hair? What were other people doing there? Would you use such a service if it was available?

8. Discuss at least FOUR preparations Vincent had to do every day to pass as Jerome Morrow at GATTACA. In each case, explain WHY he had to do each preparation.

**Indeh** Ethan Hawke, 2016-06-07 Based on exhaustive research this graphic novel offers a

remarkable glimpse into the raw themes of cultural differences the horrors of war the search for peace and ultimately retribution The Apache left an indelible mark on our perceptions of the American West Indeh shows us why The year is 1872 The place the Apache nations a region torn apart by decades of war The people like Goyahkla lose his family and everything he loves After having a vision the young Goyahkla approaches the Apache leader Cochise and the entire Apache nation to lead an attack against the Mexican village of Azripe It is this wild display of courage that transforms the young brave Goyahkla into the Native American hero Geronimo But the war wages on As they battle their enemies lose loved ones and desperately cling on to their land and culture they would utter Indeh or the dead When it looks like lasting peace has been reached it seems like the war is over Or is it Indeh captures the deeply rich narrative of two nations at war as told through the eyes of Naiches and Geronimo who then try to find peace and forgiveness Indeh not only paints a picture of some of the most magnificent characters in the history of our country but also reveals the spiritual and emotional cost of the Apache Wars

Mitchell, 2020-03-31 What makes you the way you are and what makes each of us different from everyone else In *Innate* leading neuroscientist and popular science blogger Kevin Mitchell traces human diversity and individual differences to their deepest level in the wiring of our brains Deftly guiding us through important new research including his own groundbreaking work he explains how variations in the way our brains develop before birth strongly influence our psychology and behavior throughout our lives shaping our personality intelligence sexuality and even the way we perceive the world We all share a genetic program for making a human brain and the program for making a brain like yours is specifically encoded in your DNA But as Mitchell explains the way that program plays out is affected by random processes of development that manifest uniquely in each person even identical twins The key insight of *Innate* is that the combination of these developmental and genetic variations creates innate differences in how our brains are wired differences that impact all aspects of our psychology and this insight promises to transform the way we see the interplay of nature and nurture *Innate* also explores the genetic and neural underpinnings of disorders such as autism
