Motor Torpedo Boat Manual Jun 12 2022 FEBRUARY 1943 1. This Motor Torpedo Boat Manual (short title--Motorpron Two) is approved and issued to the service for use. This manual is RESTRICTED, may be issued to officers and petty officers of the Navy, and for instruction of naval personnel. It shall not be carried in aircraft for use therein. 2. Although motor torpedo boats are a relatively new weapon, considerable operating experience has been accumulated. Peacetime operation promoted valuable experimental work and the development of tactical, administrative, and operative procedures. Wartime operation against the enemy in the Pacific, to date, has already greatly added to the total experience gained. As new squadrons are commissioned and sent to outlying bases, the importance of passing on the benefits of operating experience to new personnel needs no elaboration.. 3. Each commanding officer shall keep a record of issue of this manual within his command. When no longer required or when its destruction is ordered, it shall be destroyed by burning. No report of destruction is required. Public domain content transcribed and formatted for HTML by Larry Jewell & Patrick Clancey, Hyperwar Foundation.

Replacing Your Boat's Engine Jun 24 2023 The first in a series of highly practical, hands on, step-by-step photographic manuals, Replacing Your Boat's Engine fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of replacing a boat's engine and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). Anyone who wishes to upgrade their boat's engine or replace an ailing or broken engine will find this step-by-step illustrated book a hand-holding godsend.
