victim? NEW YORK TIMES BESTSELLER Cochise County Sheriff Joanna Brady's professional and personal lives collide when her college-age daughter is involved in a missing persons case in this evocative and atmospheric mystery in J. A. Jance's New York Times bestselling suspense series, set in the beautiful desert country of the American Southwest. When Jennifer Brady returns to Northern Arizona University for her sophomore year, she quickly becomes a big sister to her new roommate, Beth Rankin, a brilliant yet sheltered sixteen-year-old freshman. For a homeschooled Beth, college is her first taste of both freedom and unfettered access to the internet, and Jenny is concerned that she's too naïve and rebellious for her own good. Her worries are well-founded because one day Beth vanishes, prompting Jenny to alert campus authorities, local police, and her mom, Sheriff Joanna Brady—who calls in a favor. Beth is found, but Jenny's concern has unwittingly put her in the crosshairs of a criminal bent on revenge. With Christmas vacation approaching, and Beth at war with her parents, Jenny invites Beth to the shelter of the Brady home. While Joanna is sympathetic, she's caught up in a sensitive case—an officer-involved shooting that has placed the lives of two young children in jeopardy—leaving her stretched thin to help a fragile young woman recently gone missing and endangered. Juggling a family and a career has never been easy for Cochise County Sheriff Joanna Brady. Now the impending birth of her second child only adds to her burden, especially when two brutal crimes fall under her jurisdiction. A corpse is discovered in the Arizona desert with the fingers severed from both hands—the body of an ex-con who served twenty years for a murder he claimed not to remember. Soon after, one of Joanna's female officers is savagely assaulted and left for dead while on an unauthorized stakeout. Since the victim is one of their own, the department directs the bulk of its resources toward finding her attacker. But the desert slaying haunts Joanna as well, and neither her pregnancy nor family concerns will keep her from doing her duty, no matter how perilous. Because justice must be served. And enforcing the law has become more than what Joanna Brady does—it's what she is. For the first time, critically acclaimed, New York Times bestselling suspense master J.A. Jance brings together her two most beloved creations: Arizona sheriff Joanna Brady and Seattle investigator J.P. Beaumont. The dead woman on a cold slab in the Arizona morgue was a talented artist recently arrived from the West Coast. The Washington State Attorney General's office thinks this investigation is too big for a small-town female law officer to handle, so they're sending Sheriff Joanna Brady some unwanted help—a seasoned detective named Beaumont. Sheriff Brady resents his intrusion, and Bisbee, Arizona, with its ghosts and memories, is the last place J.P. Beaumont wants to be. But the twisting desert road they must reluctantly travel together is leading them into a very deadly nest of rattlers. And if they hope to survive, suddenly trust is the only option they have left . . . electrifying Joanna Brady novel by New York Times bestselling author J. A. Jance. A prisoner languishes in a Phoenix jail cell accused of slaying his estranged wife. No one believes the man is innocent, except the new female sheriff of Cochise County, in town for a crash course in police training. Joanna Brady is out of her jurisdiction—and possibly out of her league. For a human monster is on the prowl, hiding the grisly evidence of his horrific crimes in the vast emptiness of the Arizona desert. And an impromptu investigation, with no official sanction, and no back-up, is drawing a cold, ingenious serial killer much too close to Brady for comfort—and closer, worse still, to her little girl. This book provides an up-to-date overview of the Mössbauer effect in physics, chemistry, electrochemistry, catalysis, biology, medicine, geology, mineralogy, archaeology and materials science. Coverage details the most recent developments of the technique especially in the fields of nanoparticles, thin films, surfaces, interfaces, magnetism, experimentation, theory, medical and industrial applications and Mars exploration. Alice Rogers, an elderly widow, is dead, found murdered in the Arizona desert. It's easy enough to pin the killing on the teens caught driving her car across the Mexican border, but Sheriff Brady isn't about to let it go at that. Alice was something of a free spirit, with a penchant for Scotch, the glitter of Las Vegas, and a romance with a man twenty years her junior. Her hot-tempered daughter Susan suspects Mom's boyfriend—her former handyman who moved in instead of moving on when he finished his handy work. Now Susan's furious at her brother Cleve, the do-nothing mayor of Tombstone, blaming him for not protecting their inheritance by breaking up their mother's winter romance. Yet all is not as it appears to be, and Joanna is forced to put her personal life on hold to dig deeper into Alice's death, the lives of her greedy offspring, and the identity of her mysterious gentleman friend. And as the investigation gets sidetracked by ugly local land disputes, it takes some troublesome twists and turns, until Sheriff Brady finds herself wading through a murky morass of graft and corruption that may have given someone reason to kill—and kill again. With grit, courage and dogged determination, Joanne challenged the status quo -- and won. Now, as newly elected Sheriff of Cochise County, Arizona, she must battle the prejudice and hostility of a mistrustful, male-dominated police force -- and solve a grisly double homicide that threatens to tear the sleepy desert community to pieces. For the two bodies baking in the harsh Southwestern sun are connected by sinister threads that reach back generations -- and by devastating family secrets of greed, hatred and shocking abuse that could destroy the innocent along with the guilty.
