**The Hubble Space Telescope** David J. Shayler, David M. Harland, 2015-11-25 The highly successful Hubble Space Telescope was meant to change our view and understanding of the universe. Within weeks of its launch in 1990 however the space community was shocked to find out that the primary mirror of the telescope was flawed. It was only the skills of scientists and engineers on the ground and the daring talents of astronauts sent to service the telescope in December 1993 that saved the mission. For over two decades NASA had developed the capabilities to service a payload in orbit. This involved numerous studies and the creation of a ground based infrastructure to support the challenging missions. Unique tools and EVA hardware supported the skills developed in crew training that then enabled astronauts to complete a demanding series of spacewalks. Drawing upon first hand interviews with those closely involved in the project over thirty years ago this story explains the development of the servicing mission concept and the hurdles that had to be overcome to not only launch the telescope but also to mount the first servicing mission a mission that restored the telescope to full working order three years after its launch saved the reputation of NASA and truly opened a new age in understanding of our place in space. This is not just a tale of space age technology astronauts and astronomy. It is also a story of an audacious scientific vision and the human ingenuity and determination to overcome all obstacles to make it possible. Hubble Space Telescope From Concept to Success is a story of an international partnership dedicated teamwork and a perfect blend of human and robotic space operations that will inspire people of all ages. The subsequent servicing missions that enabled the telescope to continue its scientific program beyond its 25th year in orbit are described in a companion volume Enhancing Hubble's Vision Servicing a National Treasure An Introduction to Mechanical Engineering Jonathan Adam Wickert, Kemper E. Lewis, 2020

Warm Beer, Lousy Food John S. Columbia, 2009-12 The line began forming after eight o'clock. Sal short and heavy set kept everyone busy. Neat in a white shirt and sports jacket with his grey fedora cocked to the side his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb with hats and horns and were there to warm up the crowd. Some in line expected this others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy exchanging stories they had heard toilet seat covers to serve drinks on microphones in the ladies room toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color but harmless. If you were lucky you might see a Balls for the Queen or a Singing beer. The price was always right for a good time and Warm Beer and Lousy Food was the place to be
