In “The Extortioners” evidenced and dissolution of political society space is accentuated in a simulated country where any reference to chance is deconstructed and in which the characters represent their own process of enunciation, its own discursive structure, becoming witnesses and doers of the socio-cultural life of their country. In the story the boundary separating the imaginary from the real, to rethink the tension between politics and economics, commitment and reality through an excuse, where a man becomes wrapped in a troubled relationship between law is cleared and transgression and is blackmailed by a young, poor example of what you can do to get rich at the expense of whatever. This history as a body shaken by extortion becomes a reflection of citizens who recognize incomplete, but in turn willing to break the bonds that oppress through another system that defines not mutilate, without division, which propose answers to the questioning of the ruling political ideology. So the text is no longer full meaning, to make way for the inquiry, where the characters are alone ironically, to the extent that it promotes in the reader the desire to participate actively in the proposed dialogue, where Luis Ortiz assumes the risk of using the refined word for points closer to the limit where the cruelty of the political system. The story evoked in “The Extortioners” is a bitter satire where the narrative discourse is conducted to show the deterioration of a country and its people, caused by bad policies driven by their rulers. It is a discussion of how the policy is part of everyday life about how often unseen that has always done politics, gestures and words as much as in the acts not only of criminals, rulers and dictators, but of us, good men. "Farrugia weaves an amazing tale of power, deceit and double crosses. Espionage at its finest, intrigue that will tighten your gut and light every nerve on fire, The Chimera Vector goes far beyond science fiction and becomes a fast-paced mystery-thriller that defies early detection of where we are headed." ????? Filled with intense action with enough sci-fi and thriller to make me grin like I found the girl of my dreams." ????? "Loved it. High paced action thriller it definitely is. Also included are 15 papers from a special session on Human-

Computer Interaction and Knowledge Discovery (HCI-KDD 2013). Is Thailand the Test Case for Asian Development? That is the issue that caught my imagination and attracted me to teach and research in Thailand in 1964 and it has caught my constant attention over the years to the processes that were applied to help that nation develop. the International Bank for Reconstruction and Development (World Bank) financing of the Bhumipol (Yanhee) Dam at Tak in Northwest Thailand as a study of how corruption can be eliminated in development is to vital a testament of "how to control corruption" that it must be told! Yes, it is possible to eliminate corruption! But it takes patience and determination on the part of the financing agency and administrators! It takes time! Yet once achieved the citizens have pride in its integrity! By 1972-3 Thailand had developed more than a dozen colleges and universities and finally the Ministry of Education permitted the establishment of a private college with the founding of Bangkok College. discussions began for the founding of a Christian college and in 1974 Payap college was founded in Chiang Mai with 204 students. Private colleges operated as tuition charging institutions and manages to grow rapidly. In 1985 Payap College was able to meet the requirement of the Ministry for certification as the first private University in Thailand. Today that Payap University enrolls nearly 8,000 students in more than 24 different degree programs. As these processes of development and educational advancement have been going on in Thailand political development has also been maturing. Where since 1932, Thailand has been known as a "Land of the Coups" there has been change when for example a prime minister has decided to "resign" rather than waiting to be couped; and after a particularly violent coup in 1991, the coupmakers are shown on TV in the monarch's presence. Generals do not enjoy being embarrassed and are now significantly more restrained. When an election can be peacefully conducted and a woman elected prime minister, politics has made real progress! Even so, as Thailand floods, the political infighting is becoming vicious and we hold our breath and pray that the generals restrain!
