When Dirk Pitt is nearly killed rescuing an oil survey team from a freak wave on Russia's Lake Baikal, it appears a simple act of nature. But when the survey team is abducted and Pitt's research vessel nearly sunk, it becomes clear this is no run of bad luck, but the influence of something, or someone, more sinister. In fact, Pitt and the NUMA crew have inadvertently stepped between a Mongolian tycoon and his plans to corner the global oil market, beginning with covert negotiations in China. To ensure the deal goes through, this mysterious businessman will encourage ever-escalating acts of sabotage and violence. Pitt and Giordino soon learn the magnate's fury and his power both stem from the same source: a dark secret about Genghis Khan, the greatest conqueror the world has ever known. To Pitt and Giordino the famed Khan's empire is nearly the stuff of legend and his tomb a forgotten mystery. But the Khan's legacy is very real. And it's the treasure of his grandson Kublai Khan that holds the key to stopping this modern-day oil baron from restoring the conquests of his ancestors. [Paintings of the Razmnama](#) Oct 17 2021 "Razmnama or The Book of War is the Persian translation of the great Hindu epic, the Mahabharata. The Mughal Emperor Akbar took a personal interest in the translation project and invited learned men, well-versed with the work, from all over the country to help some of his best Persian scholar-courtiers prepare the most authentic text possible. Once this was complete, master painters at his atelier produced a lavishly illustrated copy for his personal use. Akbar then invited his nobles to get copies of the text made for themselves. Out of the three copies made, the three-volume Razmnama in the Birla Academy of Art & Culture, Kolkata, is the only one complete with 81 miniatures. Most of these images are full-page ones and the text bears the name of the scribe and date of completion - 1605. The paintings are of great interest to students of Mughal painting as they combine the finest elements of the Mughal court style with the narrative style of storytelling. Some of the most popular Mahabharata stories were chosen by the painters and instead of composing two or three separate paintings they incorporated different stages of narrative detail within the frame of a single image. The overall style is refined and clearly follows the court style during the closing years of Akbar's reign. The 1605 Razmnama is a key document for the study of Mughal painting during the beginning of the 17th century."--BOOK JACKET.

**Leave No Man Behind** Jul 26 2022 Beginning with the birth of combat aircraft in World War I and the early attempts to rescue warriors trapped behind enemy lines, Leave No Man Behind chronicles in depth nearly one hundred years of combat search and rescue (CSAR). All major U.S. combat operations from World War II to the early years of the Iraq War are covered, including previously classified missions and several Medal-of-Honor-winning operations. Authors George Galdorisi and Tom Phillips (both veteran U.S. Navy helicopter pilots) highlight individual acts of heroism while telling the big-picture story of the creation and development of modern CSAR. Although individual missions have their successes and failures, CSAR, as an institution, would seem beyond reproach, an obvious necessity. The organizational history of CSAR, however, is not entirely positive. The armed services, particularly the U.S. Air Force and Navy, have a tendency to cut CSAR at the end of a conflict, leaving no infrastructure prepared for the next time that the brave men and women of our armed forces find themselves behind enemy lines. The final chapter has not yet been written for U.S. combat search and rescue, but in view of the life-saving potential of these forces, an open and forthright review of U.S. military CSAR plans and policies is long overdue. Beyond the exciting stories of heroic victories and heartrending defeats, Leave No Man Behind stimulates debate on this important subject.

**An Unfortunate War** Feb 13 2024 Three hundred sixty-seven parsecs from Earth, a battle looms. With the discovery of hyperdrive technology, humans gained the ability to explore their galaxy. As Earth's population exploded, the discovery of a new planet of nearly identical size and resources was welcome news. The establishment of a colony on the new planet, now known as Haven, was a crucial investment in humanity's future. After 250 years, the colony thrives. Haven's self-sufficient residents love their world and no longer feel any attachment to Earth. But back on Earth, conditions grow increasingly desperate, and the people look to Haven for salvation. Rich in agricultural opportunities and minerals, the colony could be Earth's salvation, but the people of Haven are cautious by nature. To preserve resources for future generations, Haven's government has refused Earth's latest demands. Peaceful by nature, they must now prepare to defend their colony from off-world invaders who would strip their planet dry as well. In order to protect their planet, as well as their sovereignty, the people of Haven prepare for war. John Collins, a skilled construction worker, has been drafted to serve in Haven's militia. There, he meets his commanding officer, Helen Ramses. A raven-haired beauty, she treats John like her personal servant and sparks begin to fly as their personalities clash. Other members of the fire team begin to wonder if John or Helen will survive their tense relationship.

**Uncommon Valor** Nov 29 2022 Uncommon Valor is a look into the formation and operation of an advanced Special Forces recon company during the Vietnam War. Code-named the Studies and Observations Group, SOG was the most covert U.S. military unit in its time and contained only volunteers from such elite units as the Army's Green Berets, Navy SEALs, and Air Force Air Commandos. SOG warriors operated in small teams, going behind enemy lines in Laos and Cambodia and along the Ho Chi Minh Trail, tasked with performing special reconnaissance, sabotaging North Vietnamese Army ammunition, attempting to rescue downed U.S. pilots, and other black ops missions. During that time, Forward Operating Base-2's (FOB-2's) recon company became the most highly decorated unit of the Vietnam War, with five of its men earning the Medal of Honor and eight earning the Distinguished Service Cross-America's second highest military award for valor. Purple Hearts were earned by SOG veterans at a pace unparalleled in American wars of the twentieth century, with casualties at times exceeding 100 percent. One, Bob Howard, was wounded on fourteen different occasions, received eight Purple Hearts, was written up after three different missions for the Medal of Honor, and emerged from Vietnam as the most highly decorated soldier since World War II's Audie Murphy.

**The Love and Rockets Companion** Jan 20 2022 The Love and Rockets Companion: 30 Years (and Counting) contains three incredibly in-depth and candid interviews with creators Gilbert, Jaime and Mario Hernandez: one conducted by writer Neil Gaiman (Coraline); one conducted some six years into the comic's run by longtime L&R publisher Gary Groth; and one conducted by the book's author, spanning Gilbert's, Jaime's and Mario's careers, and looking to the future of the ongoing series, with a follow-up conversation with Groth. This book has foldout family trees for both Gilbert's Palomar and Jaime's Locas storylines; unpublished art; a character glossary (which is handy, considering that Gilbert alone has created 50+ characters!); highlights from the original series' anarchic letters columns; timelines; and the most wide-ranging Hernandez Brothers bibliography ever compiled, including album and DVD covers, posters and more.

**Antinomies of Art and Culture** May 04 2023 In this landmark collection, world-renowned theorists, artists, critics, and curators explore new ways of conceiving the present and understanding art and culture in relation to it. They revisit from fresh perspectives key issues regarding modernity and postmodernity, including the relationship between art and broader social and political currents, as well as important questions about temporality and change. They also reflect on whether or not broad categories and terms such as modernity, postmodernity, globalization, and decolonization are still relevant or useful. Including twenty essays and seventy-seven images, Antinomies of Art and Culture is a wide-ranging yet incisive inquiry into how to understand, describe, and represent what it is to live in the contemporary moment. In the volume's introduction the theorist Terry Smith argues that predictions that postmodernity would emerge as a global successor to modernity have not materialized as anticipated. Smith suggests that the various situations of decolonized Africa, post-Soviet Europe, contemporary China, the conflicted Middle East, and an uncertain United States might be better characterized in terms of their "contemporaneity," a concept which captures the frictions of the present while denying the inevitability of all currently competing universalisms. Essays range from Antonio Negri's analysis of contemporaneity in light of the concept of multitude to Okwui Enwezor's argument that the entire world is now in a postcolonial constellation, and from Rosalind Krauss's defense of artistic modernism to Jonathan Hay's characterization of contemporary developments in terms of doubled and even para-modernities. The volume's centerpiece is a sequence of photographs from Zoe Leonard's Analogue project. Depicting used clothing, both as it is bundled for shipment in Brooklyn and as it is displayed for sale on the streets of Uganda, the sequence is part of a striking visual record of new cultural forms and economies emerging as others are left behind. Contributors: Monica Amor, Nancy Condee, Okwui Enwezor, Boris Groys, Jonathan Hay, Wu Hung, Geeta Kapur, Rosalind Krauss, Bruno Latour, Zoe Leonard, Lev Manovich, James Meyer, Gao Minglu, Helen Molesworth, Antonio Negri, Sylvester Okwunodu Ogbechie, Nikos Papastergiadis, Colin Richards, Suely Rolnik, Terry Smith, McKenzie Wark

**Circle of Fire** Jun 05 2023 By 2808 AD, humanity has achieved faster than light travel, and has explored thousands of light years away from Earth. The Earth Space Force is clearly the dominant military power in the region. For centuries, there had been rumors about an ancient race just beyond the boundaries of known space. In The End of Winter, Commander Curt Jackson of the ESF discovers them, forms an alliance, and after several battles with pirates, they set about the process of re-establishing the ancestral Imperial capital on Valhalla. They discovered and repaired a Swarm ship, idle for 7000 years after an invasion which almost wiped out civilization in the galaxy. Together, they set out on the Grand Survey in the repaired Swarm ship, the first complete circumnavigation of the galaxy. Circle of Fire tells the story of that voyage. TERRY SAVAGE provides independent management consulting services to governments and private industry. He recently concluded an engagement as Program Manager for the State of Utah for an effort to integrate education and employment data, and provide advisement to both students and job seekers about possibilities and options. He was Chief Information Officer for the State of Nevada from 2000-2007. Terry is also a published science fiction author. His first novel,

The End of Winter, is published and currently in print. The sequel, Circle of Fire, will be released in early 2012. Through the Darkness, the final book in the trilogy, is scheduled for publication in 2013.

**SOG Kontum** Aug 27 2022 The Military Assistance Command, Vietnam Studies and Observations Group (MACV-SOG) was a highly classified, multi-service United States Special Forces unit which conducted covert unconventional warfare operations prior to and during the Vietnam War. The unit conducted strategic reconnaissance missions in South Vietnam, North Vietnam, Laos, and Cambodia; carried out the capture of enemy prisoners, rescued downed pilots, and conducted rescue operations to retrieve allied prisoners of war throughout Southeast Asia; and conducted clandestine agent team activities and psychological operations. This book tells the story of the Teams operating out of FOB2 Kontum, near the tri-border area, in 1968-69. From recon missions over the fence to the heroic, and sometimes fatal efforts undertaken to try and rescue missing SOG members, the events are told through the words of the men themselves, supported by previously unreleased official documents.

**Life Lessons** Sep 27 2022 As a master of realism, Jerome Witkin illustrates in his art the moral plight of everyday lives. His most complex and critically acclaimed works—intense, often disturbing scenes of the Holocaust—have earned him a growing international audience. This second edition of Life Lessons incorporates material from the past decade, including ten of his most important and provocative paintings. It brings the viewer in intimate contact with the dense interior landscapes of both people and places. Often regarded as belonging to an artistic pantheon including the work of Lucien Freud, Manet, Ingres, Goya, and Courbet, Witkin's paintings range from moody urban landscapes and penetrating portraits to intimate figure studies and vivid, psychologically charged tableaux, frequently referencing seminal moments in history. Witkin's newer work includes an enormous six-panel exploration of Dachau's 1945 liberation (Entering Darkness, 2001)—his culmination of a twenty-year series on the Holocaust, regarded by critics as among the most compelling of paintings made on the subject.
