Based on the archives of the Avery Architectural Library of Columbia University and the New York Historical Society, this refreshing portrait of one of America's most prominent architects is at the same time a document of the sweeping social and cultural changes taking place in the country at the turn of the twentieth century. A biography of Stanford White and more, the book recovers a neglected yet significant part of White's career--a career that not only set the bar for twentieth-century architecture but also defined the newly emerging profession of interior design. Discusses the sociological implications of portraits painted in seventeenth and eighteenth century America This biographical dictionary presents full information on 400 artists whose influence and illustrative contributions to the fields of science fiction and fantasy literature helped define the 20th century as the "Science Fiction Century" and helped established science fiction and fantasy as unique and identifiable genres. In addition to providing inclusive biographical data on venerable artists from Chris Achilleos to John Michael Zeleznik, each entry also includes a bibliographic listing of each artist's published work in the genre. A truly international treatment of its subject, The Spirit of Folk Art draws upon the vast resources of the Girard Collection, amassed by Alexander and Susan Girard and housed at the Museum of International Folk Art in Santa Fe. Distinguished

folklorist and scholar Henry Glassie offers a vigorous and often lyrical discussion of the nature of folk art. More than 345 illustrations, including 285 in full color and 50 field photographs showing the various artists at work, provide a rich complement to Glassie's insights. What would the same paintings everyone is so familiar with look like drawn by Renée Françoise Magritte, Fiona Bacon, Davina Hockney, Leona Da Vinci, Gertrude Klimt, Henrietta Matisse, Francesca Goya, Paola Picasso, Fernanda Victoria Eugenia Delacroix, Wilhelmina Ottilia Dix, and over 50 other artists (let us not forget Vincenza Van Gogh)? Another History is your chance to find out. Included, on each page opposite the painting, is a single paragraph biography of each woman artist. Another History of Art is a brilliantly satirical, and, yes, feminist, counterfactual history of art conceived, written, and painted by one of our most accomplished contemporary artists. Latin American culture has given birth to numerous dramatic works, though it has often been difficult to locate information about these plays and playwrights. This volume traces the history of Latin American theater, including the Nuyorican and Chicano theaters of the United States, and surveys its history from the pre-Columbian period to the present. Sections cover individual Latin American countries. Each section features alphabetically arranged entries for playwrights, independent theaters, and cultural movements. The volume begins with an overview of the development of theater in Latin America. Each of the country sections begins with an introductory survey and concludes with copious bibliographical information. The entries for playwrights provide factual information about the dramatist's life and works and place the author within the larger context of international literature. Each entry closes with a list of works by and about the playwright. A selected, general bibliography appears at the end of the volume. As a window to a lifetime of experiment and creative expression in clay, as a glimpse into the wellsprings of inspiration, and as a story of humanity, *Hands in Clay* offers a compelling introduction to ceramics. BRAVE Books partnered with Jack Posobiec to write *The Island Of Free Ice Cream*, a children's book that teaches kids that if something seems

Robert Hughes begins where American art itself began, with the Native Americans and the first Spanish invaders in the Southwest; he ends with the art of today. In between, in a scholarly text that crackles with wit, intelligence and insight, he tells the story of how American art developed. Hughes investigates the changing tastes of the American public; he explores the effects on art of America's landscape of unparalleled variety and richness; he examines the impact of the melting-pot of cultures that America has always been. Most of all he concentrates on the paintings and art objects themselves and on the men and women - from Winslow Homer and Thomas Eakins to Edward Hopper and Georgia O'Keeffe, from Arthur Dove and George Bellows to Jackson Pollock and Mark Rothko - who created them. This is an uncompromising and refreshingly opinionated exploration of America, told through the lens of its art. In recent years, the Dallas Museum of Art has expanded its collection of South Asian art from a small number of Indian temple sculptures to nearly 500 works, including Indian Hindu and Buddhist sculptures, Himalayan Buddhist bronze sculptures and ritual objects, artwork from Southeast Asia, and decorative arts from India's Mughal period. Artworks in the collection have origins from the former Ottoman empire to Java, and architectural pieces suggest the grandeur of buildings in the Indian tradition. This volume details the cultural and artistic significance of more than 140 featured works, which range from Tibetan thangkas and Indian miniature paintings to stone sculptures and bronzes. Relating these works to one another through interconnecting narratives and cross-references, scholars and curators provide a broad cultural history of the region. Distributed for the Dallas Museum of Art Amid the grandeur of the remote Pacific Northwest stands Kingcome, a village so ancient that, according to Kwakiutl myth, it was founded by the two brothers left on earth after the great flood. The Native Americans who still live there call it Quee, a place of such incredible natural richness that hunting and fishing remain primary food sources. But the old culture of totems and potlatch is being replaced by a new culture of prefab housing and alcoholism. Kingcome's younger generation is disenchanted and alienated from its heritage. And

now, coming upriver is a young vicar, Mark Brian, on a journey of discovery that can teach him—and us—about life, death, and the transforming power of love. *Marble Halls* is written for the intelligent layperson, rather than for the specialist in the history of architecture, who is interested in the architecture and interiors of America's Gilded Age as an expression of that era's quest for cultural equality with European nations, even as it paralleled the rise of the architectural style of Modernism. This encyclopedia is a biographical dictionary of some 1,000 women artists of the American West. The product of a twenty-year, coast-to-coast research project by authors Phil Kavinick and Marian Yoshiki-Kavinick, it offers accurate, concise introductions to women painters, graphic artists, and sculptors, all of whom achieved recognition as depicors of Western subjects between the 1840s and 1980. Their styles range from representationalism to early modernism, while their works depict everything from bold landscapes and scenes of intensive action to studies of Native Americans, pioneers, ranchers, farmers, wildlife, and flora. Each entry in the encyclopedia features the salient facts of the artist's life and career, with attention to her work with Western subject matter. Many of the entries also contain a selected list of the artist's exhibitions, current locations of her work in public collections, pertinent references, and a black-and-white example of her work. An overview of the history of women in western art complements the biographical entries.

Wes Craven's *A Nightmare on Elm Street* is one of the most inventive American films of the 1980s. Its sleeper success bred a series of film sequels and a syndicated television program while its villain, Freddy Krueger, became a Hollywood horror icon for the ages. In the four decades since its release, Craven's creation and subsequent franchise has become firmly established as a pop culture institution and a celebrated symbol of American cinema. This book takes readers on an engrossing journey through the history, production and themes of the *Nightmare on Elm Street* film series and its spin-off TV show, *Freddy's Nightmares*. It reveals new stories about the franchise's history and dives into some of the themes and ideas that tend to be overlooked. The book has a foreword by production designer Mick Strawn and exclusive interviews with cast and crew, including legendary Freddy Krueger actor Robert Englund; directors Jack Sholder, Chuck Russell, Mick Garris, Tom McLoughlin, Lisa Gottlieb, and William Malone; cinematographers Jacques Haitkin, Roy H. Wagner, and Steven Fierberg; and many more. [This book is] for American art survey courses. -Back cover. A panorama of painterly motifs, combined and reprised Ann Craven (born 1972) superimposes source photographs, historical works and her own paintings, creating mediated images that feature layer upon layer of referentiality--a collage of her most treasured curios. Peacocks showcase their plumage; birds perch on a branch; a trio of horses pose "just so." Through these acts of creation and recreation, Craven becomes both master and copyist, citing herself in her

own art historical lineage. Animals, birds, flowers, moons: Craven's motifs are in themselves an incantation--a wish to repeat, reencounter, relive. In keeping with this process of revisitation, Craven's paintings are repeated in threes throughout this fully illustrated catalog, mimicking the tripartite structure of her *Animals Birds Flowers Moonsexhibition*. The book is divided into three parts, each paired with one of three texts: two newly commissioned essays by Durga Chew-Bose and Keith Mayerson, and a 2021 interview between Craven and Lois Dodd. Profiles the careers of fifty American artists, presented chronologically from colonial limners from the sixteenth and seventeenth centuries, to Kara Walker, born in 1969, and includes time lines and reproductions of their work. This anthology brings together twenty outstanding works of recent scholarship on the history of the visual arts in the United States from the colonial period to 1945. The selected essays--all written within the past two decades--reflect the interdisciplinary character of current art historiography in America and the variety of approaches that contribute to the dynamism in the field. The authors take up diverse subjects--from colonial portraits to nineteenth-century sculptures of women to photographic images of New York--and invite those with a general knowledge of the history of American art to think more deeply about art and culture. Employing many interpretive methodologies, including iconology, social history, structuralism, psychobiography, and feminist theory, the contributors to this volume combine close analysis of specific art objects or groups of objects with discussion of how these works of art operated within their cultural contexts. The authors consider the works of such artists as John Singleton Copley, Charles Willson Peale, Winslow Homer, Thomas Eakins, Georgia O'Keeffe, and Jackson Pollock as they assess how paintings, sculpture, prints, drawings, and photographs have carried meaning within American society. And they investigate how the conceptualization, production, and presentation of works of art both inform and are informed by prevailing attitudes toward the role of the arts and the artist in American culture. Looks at five centuries of American architecture, painting, sculpture, decorative arts, and photography. The years before the First World War have long been romanticized as a zenith of French culture—the “Belle Époque.” The era is seen as the height of a lost way of life that remains emblematic of what it means to be French. In a vast range of texts and images, it appears as a carefree time full of joie de vivre, fanfare and frills, artistic daring, and scientific innovation. The Moulin Rouge shared the stage with the Universal Exposition, Toulouse-Lautrec rubbed elbows with Marie Curie and La Belle Otero, and Fantômas invented automatic writing. This book traces the making—and the imagining—of the Belle Époque to reveal how and why it became a cultural myth. Dominique Kalifa lifts the veil on a period shrouded in nostalgia, explaining the century-long need to continuously reinvent and even sanctify this moment. He sifts through images handed down in memoirs and reminiscences, literature and film, art and history to explore the many facets of the era, including its worldwide reception. The Belle Époque was born in France, but it quickly went global as other countries adopted the concept to write their own histories. In shedding light on how the Belle Époque has been celebrated and reimaged, Kalifa also offers a nuanced

meditation on time, history, and memory. Jackson Pollock, Georgia O'Keeffe, Andy Warhol, Julian Schnabel, and Laurie Anderson are just some of the major American artists of the twentieth century. From the 1893 Chicago World's Fair to the 2000 Whitney Biennial, a rapid succession of art movements and different styles reflected the extreme changes in American culture and society, as well as America's position within the international art world. This exciting new look at twentieth century American art explores the relationships between American art, museums, and audiences in the century that came to be called the 'American century'. Extending beyond New York, it covers the emergence of Feminist art in Los Angeles in the 1970s; the Black art movement; the expansion of galleries and art schools; and the highly political public controversies surrounding arts funding. All the key movements are fully discussed, including early American Modernism, the New Negro movement, Regionalism, Abstract Expressionism, Pop Art, and Neo-Expressionism. Today the work of so-called "outsider" artists is receiving unprecedented attention. This major critical appraisal of America's 20th-century self-taught artists coincides with a major 1998 traveling exhibition organized by the Museum of American Folk Art in New York. While some of these artists have received critical recognition, others remain virtually unknown, following their muse regardless. 150 color images. American Art set the standard for American art survey courses for the last decade by providing a thorough and engaging chronology of American art, including painting, sculpture, architecture, decorative arts, photography, folk art, and graphic arts. Wayne Craven presents art and artists within the context of their times, including insights into the intellectual, spiritual, and political environment. Along the way, Craven charts the growth of a distinctly American art culture. The resulting book is as much a history of American culture as of American art. Original architectural drawings, sketches, plans, 19th century photographs, and new color photographs give the history and description of this architectural landmark. In this excellent book, Jonathan Harris explores the fundamental changes which have occurred both in the institutions and practice of art history over the last thirty years. The Gilded Age (1865-1918) saw the sudden rise of America's first High Society, including such prominent families as the Astors, Whitneys, and Vanderbilts. As an aristocracy based on fortunes recently acquired, these families endeavored to live like Europe's blue-blooded nobility, shedding Puritan restraint as they joyously flaunted their new wealth--especially where their homes were concerned. They erected French chateaus and Italian palazzos on New York's Fifth Avenue, at Newport, and elsewhere, often taking inspiration from Parisian styles of the Second Empire. They rejected more modest American styles just as they rejected middle-class society, and for interior decoration they turned to such artisans as Tiffany, Herter Brothers, and Allard's of Paris. Immensely readable and illuminated with 250 stunning color and black-and-white illustrations, this is the fascinating story of America's first millionaire society, the way they lived and partied, and the lush artistic and cultural legacy they established. Two introductory essays and 82 artworks cover the history of American art from the mid-eighteenth to the mid-twentieth centuries.

"This book, published on the occasion of Dan Flavin: The Architecture of Light at the Deutsche Guggenheim Berlin, draws upon the Solomon R. Guggenheim Museum's extensive holdings of the artist's work.". Sexuality in Ancient Art is the first anthology on the visual representation of the sexual body, sexual activity and desire, and the role of sexuality in the formation of personality and social institutions. Bringing together essays by historians of the art of Egypt and the Ancient Near East, Greece, the Etruscans, and Rome, this collection demonstrates how a variety of methods and theoretical frames can be used to define and articulate these issues. The goal of this volume is to open a range of new subjects and approaches in the visual arts and the problems of representation to students and scholars of the ancient world. Wayne Macauley is one of the artists removed from his home, given a new place to live and the chance to 'give back to society'. In his strange new community, housed on a footy oval in a faraway town, he is told to create and be useful. He will write. Then he finds out about the rejection slips already written for the work he has yet to submit.
