How do I choose the right vehicles for my Savings and Investing goals? How much do I need for Emergency Reserves? How do I choose the right Allocation for my investments? Life Insurance - Do I need it? If so, what kind and how much? If I no longer need my existing policy, what are my options? Disability Insurance - Do I need it? If so, what kind and how much? How can I run a Projection to find out if I am on track to reaching my financial goals? How will Inflation affect my savings and investments? I received an Inheritance - Now what do I do? Incapacitation - How do I make sure my wishes are carried out if I become medically or mentally incapacitated? How do I choose among my Social Security Retirement Benefit options? What Social Security Disability Benefits are available to me and my family? What Social Security Survivorship Benefits are available to me and my family? Risks - All investments carry some type of risk; understanding the different types of risk is vital to your success as a saver or investor. These few pages will almost certainly change the way you think about risk. The biggest obstacle to investors reaching their goals is procrastination. Making the decision to start is the hardest part. The rest is easy. Order now to take that first step! This edition is for 2014 and 2015. There is a large population in our country, whose people choose to live (or have to live) away from the world of banks, financial analysts, and investment consultants. Those who DO live in the world of banks have plenty of people to help them, and more than plenty of resources of which they can avail themselves. But what about people who don't have personal banking relationships? People who are maybe just like you, or me. Where do we go to get advice and answers to the financial issues we face? How can we handle our paychecks and bills, and what about savings? Sometimes the answers to money questions are fairly easy and common sense; but sometimes they require a lot of research. That's time and possibly facilities you may not have available to you. But still, you need to find out what to do if you owe back taxes, how to budget and ways to meet that budget, what are other ways to make extra income, how can government programs help you when you need it, how to get started saving, the ins and outs of credit and loans, and how you can get out of debt-realistically. This is why we published this book. Each section focuses on one of the larger issues and how it can help you manage your life. Each section will go into specific details on the most common issues and problems people face. Dollars and Sense: a Fable of Personal Finance Nov 13 2022 Want to learn about the basics of personal finance in an easy-to-understand manner? In this fable, during some normal days, this family explores many of the financial topics all families, especially children, should understand. It's written in plain, layman's terms with a little bit of humor. There doesn't seem to be anywhere in American society where the basics of personal finance are taught and emphasized over a large part of a person's life, yet we all deal with some part of personal finance every day. Knowledge and experience in this area seem to come through trial and error and perhaps through some self-study and self-exploration. But there isn't a place you get it on a consistent or persistent basis. This book was written using the author's family as protagonists in this "day-in-the-life" fable to first and foremost help teach his kids some basics about personal finance. He has taken personal responsibility to teach his children these insights - for as long as they'll let him. If you find value in this book, please model it then share it with your family, friends and associates.
