General Kenney Reports: A Personal History of the Pacific War, 1997 General Kenney Reports is a classic account of a combat commander in action General George Churchill Kenney arrived in the South west Pacific theater in August 1942 to find that his command if not in a shambles was in dire straits The theater commander General Douglas MacArthur had no confidence

in his air element Kenney quickly changed this situation He organized and energized the Fifth Air Force bringing in operational commanders like Whitehead and Wurtsmith who knew how to run combat air forces He fixed the logistical swamp making supply and maintenance supportive of air operations and encouraging mavericks such as Pappy Gunn to make new and innovative weapons and to explore new tactics in airpower application The result was a disaster for the Japanese Kenney s airmen used air power particularly heavily armed B 25 Mitchell bombers used as commerce destroyers to savage Japanese supply lines destroying numerous ships and effectively isolating Japanese garrisons The classic example of Kenney in action was the Battle of the Bismarck Sea which marked the attainment of complete Allied air dominance and supremacy over Japanese naval forces operating around New Guinea In short Kenney was a brilliant innovative airman who drew on his own extensive flying experiences to inform his decision making General Kenney Reports is a book that has withstood the test of time and which should be on the shelf of every airman *Digital Storage in Consumer Electronics* Thomas M.
