? Includes extra coverage of the Soloman Islands. Sustainable travel tips highlighted throughout, and an Environment chapter written by Tim Flannery. The author is a Scot from the small (two shop) village of Whins of Milton, two miles south of the Royal Burgh of Stirling. He has always loved the sea and ships, and was master of the first Australian flag anchor handler, operating in offshore oilfields around Australia. The book covers a when o' topics – growing up in the Whins, then living in Australia, to which he emigrated in 1968 with his wife and family, to his wanderings in the countries of the Pacific Basin. Later, it also makes some comments on Australians, their character and contentment (and pride) as to who they are as a race of people, living under the Southern Cross. Ships and the sea are never far away. Also part of this story is the Greek Tragedy of the demise of Alfred Holt, the author having been indentured to that heroic and exemplary Liverpool company as a deck apprentice in 1957. The note, Welcome to Country, says it all as to his worldview of Australians, an attitude almost Caledonian in its sense of directness and curiosity, particularly regarding the workings of the vast world which is all around us.

Includes extra coverage of the Soloman Islands. Sustainable travel tips highlighted throughout, and an Environment chapter written by Tim Flannery. Lonely Planet's Walking Guides cover bushwalking and trekking routes throughout the world. Written by experienced trekkers, the guides are designed for anyone who believes that the best way to see a country is on foot, whether they are independent trekkers or in organized groups. Each guide includes walks of varying difficulty. Features of this series include: detailed day-by-day route descriptions; information on the culture and natural history of the region; what to take and where to get supplies on the way; comprehensive health and first-aid sections; clear, reliable maps; information on safety, preparation and planning, equipment and hiring porters; and advice on the best time of year to undertake each walk. In Papua New Guinea hopes are high that real change is on its way; the country's political, administrative, financial and technical leaders now have to find a way to ensure the most productive distribution and use of financial resources. Many international actors are watching closely to see how this young country negotiates its path. Papua New Guinea became a major exporter of gas in 2014 when the \$19bn PNG liquefied natural gas (LNG) project was completed ahead of schedule and within budget, significantly increasing the size and strength of the economy. The year ahead is likely to see PNG benefit from the further development of its hydrocarbons sector, fuelling the growth of its economy as a whole. The LNG influx also poses challenges, however, in terms of ensuring inclusive growth and productive use of the new revenues. PNG takes pride in being a final frontier of natural and cultural development, but the task ahead is to protect the country's heritage while becoming part of the global economy.

This comprehensive and systematic survey of all the countries of East Asia, Southeast Asia, Australia, New Zealand and the Pacific Islands - from Afghanistan to Vietnam - presents statistics, directory material and informative essays on topics relating to contemporary and historical events in the region as a whole. Provides a framework for economic growth that "aims to create a business-friendly environment characterised by stable macroeconomic and financial conditions, [and] adequate physical infrastructure." - page xv.

Behavioural observations from both the field and captivity indicate that same-sex sexual interactions are widespread throughout the animal kingdom, and occur quite frequently in certain non-human species. Proximate studies of these phenomena have yielded important insights into genetic, hormonal and neural correlates. In contrast, there has been a relative paucity of research on the evolutionary aspects. *Homosexual Behaviour in Animals* seeks to readdress this imbalance by exploring animal same-sex sexual behaviour from an evolutionary perspective. Contributions focus on animals that routinely engage in homosexual behaviour and include birds, dolphin, deer, bison and cats, as well as monkey and apes, such as macaques, gorillas and bonobos. A final chapter looks at human primates. This book will appeal to graduate students and researchers in evolutionary biology, biological anthropology, zoology, evolutionary psychology, animal behaviour and anyone interested in the current state of knowledge in this area of behavioural studies. An examination of the global-local tension evident in much work on development issues through the example of fresh food markets in Papua New Guinea 2011 Updated Reprint. Updated Annually. Polynesia French Investment & Business Guide A guide to enjoying the variety of activities in Papua New Guinea, from bushwalking and diving to eating and bird-watching. Coverage includes information about travel around and between the island's various areas, health and safety, lodging, and Pidgin, as well as historical, political, and cultural

background material. Includes many color photographs.
