**Sacred Natural Sites** Bas Verschuuren, Jeffrey McNeely, Gonzalo Oviedo, Robert Wild, 2012-06-25 Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats India, Sagarmatha Chomolungma Mt Everest Nepal, Tibet and China, the Golden Mountains of Altai Russia, Holy Island of Lindisfarne UK and the sacred lakes of the Niger Delta Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.

**The New Latin American Left** Patrick S. Barrett, Daniel Chavez, César A. Rodríguez Garavito, 2008-10-20 Leading scholars discuss ideology and hotly contested post-structuralist theory.

**Città e guerra : difese, distruzioni, permanenze delle memorie e dell'immagine urbana. Tomo II : tracce e patrimoni** Maria Ines Pascariello, Alessandra Verapalumbo, Raffaele Amore, 2023-12-31 Italiano In un momento così significativo per la storia europea e mondiale, questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche, le azioni militari e la fisionomia delle città e del paesaggio urbano sull'evoluzione delle strutture e delle tecniche di difesa, sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana, sul recupero delle tracce della memoria cittadina. Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima, durante e dopo la guerra; dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline. In particolare, nell'ambito del disegno, viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti; mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici, passando in rassegna casi studio, soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra, con un'attenzione particolare all'identità e alla memoria collettiva. English At such a significant moment in European and world history, this volume aims to be a collection of scientific reflections about the relationships between political choices, military actions, and the physiognomy of cities and the urban landscape; about the evolution of defence structures and techniques; about the representation of war and its effects on the urban image; and about the recovery of the traces of city memory. On the one hand, the field of Digital Humanities opens up new perspectives to study the image of the city before, during, and after the war; on the other hand, digital technologies engage academics and researchers from various disciplines. In particular, in the area of drawing, the role of representation in the formulation of

urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored while in the area of conservation the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored reviewing case studies solutions and debates relating to the conservation of urban heritage involved in wartime actions with a focus on identity and collective memory U-2 Flight Manual United States. *Cultures of Anyone* Luis Moreno Caballud,2015 This book focuses on the rise of sharing and collaboration practices among peers in Spanish digital cultures and social movements in the wake of Spain s financial meltdown of 2008 *The Andean glacier and water atlas* Johansen, Kari Synnove,Alfthan, Björn,Baker, Elaine,Hesping, Malena,Schoolmeester, Tina,Verbist, Koen,GRID-Arendal (Norway),2018-11-05 This Atlas illustrates the significant reduction in glacier mass happening throughout the Andean region It quantifies the contribution of glaciers to drinking water supplies in cities and to agriculture hydropower and industries A reduction in glacier mass results in a long term reduction in seasonal melt water which is the mainstay of livelihoods for millions of people *Aristotle's Animals in the Middle Ages and Renaissance* Carlos G. Steel,Guy Guldentops,Pieter Beullens,1999 Aristotle s zoological writings with their wealth of detailed investigations on diverse species of animals have fascinated medieval and Renaissance culture This volume explores how these texts have been read in various traditions Arabic Hebrew Latin and how they have been incorporated in different genres in philosophical and scientific treatises in florilegia and encyclopedias in theological symbolism in moral allegories and in manuscript illustrations This multidisciplinary and multilinguistic approach highlights substantial aspects of Aristotle s animals **Cannabis** Chris Duvall,2014-11-15 Thanks to its best known use any mention of cannabis tends to bring up jokes about the munchies or debates about marijuana and legalized drug use But this not so innocent flowering plant was one of the first to be domesticated by humans and it has been used in spiritual therapeutic and even punitive applications ever since in addition to its more recreational purpose Despite all the hoopla surrounding cannabis however we actually understand relatively little about it in the human and ecological past In Cannabis Chris Duvall explores the botanical and cultural history of one of our most widely distributed crops presenting an even handed look at this heady little plant Providing a global historical geography of cannabis Duvall discusses the manufacture of hemp and its role in rope making clothing and paper as well as cannabis s use as oil and fuel His focus though is on its most prevalent use as a psychoactive drug Without advocating for either the prohibition or legalization of the drug Duvall analyzes a wide range of works to offer a better understanding of both stances and moreover the diversity of human cannabis relationships across the world In doing so he corrects the overly simplistic portrayals of cannabis that have dominated discourse on the subject arguing that we need to understand the big picture in order to improve how the plant is managed worldwide Richly illustrated and highly accessible Cannabis is an essential read to understand the rapidly evolving debate over the legalization of marijuana in the United States and other countries **Popular Photography** ,1990-08 *Canon 50D* Jeff Revell,2009-04-21 Now that you ve bought the amazing

**Popular Photography**, 1994-05     **Zainichi (Koreans in Japan)** John Lie, 2008-11-17 This book traces the origins and transformations of a people, the Zainichi or Koreans residing in Japan. Using a wide range of arguments and evidence, historical and comparative, political and social, literary and pop cultural, John Lie reveals the social and historical conditions that gave rise to Zainichi identity while exploring its vicissitudes and complexity. In the process, he sheds light on the vexing topics of diaspora, migration, identity, and group formation.     **The Book of Proverbs** Ted Hildebrandt, Fred Putnam, 2010-11-23     **Lords of Romagna** John Lerner, 1965-06-18     *The Twilight of the Avant-garde* Jonathan Mayhew, 2009-01-01 *Twilight of the Avant Garde* addresses the central problem of contemporary Spanish poetry: the attempt to preserve the scope and ambition of modernist poetry at the end of the twentieth century. Offering a critical analysis of Luis Garc a Montero's poetry of experience and the work of Jos Angel Valente and Antonio Gamoneda among others, Mayhew challenges received notions about the value of poetic language in relation to the society and culture at large. Ultimately championing the survival of more challenging and ambitious modes of poetic writing in the postmodern age, this volume argues that the cultural ambition of modernist poetics remains alive and well in our age of cynicism.     *Popular Photography*, 1991-01     **Popular Photography**, 1991-01     *The Spanish Inquisition* Henry Kamen, 1998-01-01 Thirty five years ago Kamen wrote a study of the Inquisition that received high praise. This present work, based on over 30 years of new research, is not simply a complete revision of the earlier book. Innovative in its presentation, point of view, information, and themes, it will revolutionize further study in the field.     **The Juno Mission** Scott Bolton, 2018-09-14 The Juno mission to Jupiter is one of the most ambitious, daring, and challenging solar system exploration missions ever conceived. Next to the Sun, Jupiter is the largest object in our solar system. As such, it is both a record and driver

of the formation and evolution of the planets no other object in our solar system can tell us more about the origin of planetary systems Understanding the details of giant planet formation structure composition and powerful magnetospheric environment required a new perspective close up and over the poles of Jupiter an orbit never before attempted Juno was specifically designed for this challenge entering into the harshest planetary environment known in the solar system This volume describes the mission design scientific strategies and instrument payload that enable Juno to peer deep into Jupiter s atmosphere and reveal the fundamental process of the formation and early evolution of our solar system In these papers the Juno instrument teams describe their investigations which include gravity radio science microwave radiometers magnetometers an infrared imager auroral mapper an ultraviolet imager and spectrograph a visible light imager known as JunoCam low and high energy particle detectors and plasma wave and radio electromagnetic sensors The articles also describe a radiation monitoring experiment and the extensive laboratory measurements undertaken to assist with the analysis and interpretation of Juno s pioneering investigation of Jupiter s deep atmosphere Originally published in Space Science Reviews Volume 213 Issue 1 4 November 2017 [Notes Of Ben Jonson's Conversations With William Drummond Of Hawthornden.
