Come a Little Bit Closer Feb 13 2022 Ian 'Peewee' Wilson has been singing bass doo-wop with iconic vocal group The Delltones since the 1950s and the First Wave of Australian pop. In this breezy and brilliant memoir, Peewee recalls the highs and inimitable lows of life fronting Australia's longest-performing vocal group. Beyond the stage door he reveals the secret to his longevity: a larrikin spirit honed in his beach-bumming youth, and a wide-eyed curiosity that led him to dabble in hallucinogenic substances and chase Playboy Bunnies (not at the same time). It's all part of Peewee's never-ending search for the underlying meaning of it all. Come a little bit closer to the Beanpole of Bop.

Human Error in Aviation Oct 24 2022 Most aviation accidents are attributed to human error, pilot error especially. Human error also greatly effects productivity and profitability. In his overview of this collection of papers, the editor points out that these facts are often misinterpreted as evidence of deficiency on the part of operators involved in accidents. Human factors research reveals a more accurate and useful perspective: The errors made by skilled human operators - such as pilots, controllers, and mechanics - are not root causes but symptoms of the way industry operates. The papers selected for this volume have strongly influenced modern thinking about why skilled experts make errors and how to make aviation error resilient.
