The outlook for a victory by the Allied Powers was in doubt in 1942. When only two untested American divisions arrived in the European theatre, Gen. Lucien K. Truscott conceived the plan of organizing an American commando unit to be known as the "Rangers." Maj. William O. Darby was placed in command of the first Ranger Battalion and proved himself an officer of such extraordinary leadership that his unit became known as "Darby's Rangers." The Spearheaders is an

account from an enlisted man's point of view of the intensely dramatic career of the Rangers. Collection of the monthly climatological reports of the United States by state or region, with monthly and annual national summaries. Combining ethnographic and historical research conducted in Angola, Portugal, and the United Kingdom, A Prophetic Trajectory tells the story of Simão Toko, the founder and leader of one of the most important contemporary Angolan religious movements. The book explains the historical, ethnic, spiritual, and identity transformations observed within the movement, and debates the politics of remembrance and heritage left behind after Toko's passing in 1984. Ultimately, it questions the categories of prophetism and charisma, as well as the intersections between mobility, memory, and belonging in the Atlantic Lusophone sphere. Established in Waco in 1968, the Texas Ranger Hall of Fame and Museum honors the iconic Texas Rangers, a service which has existed, in one form or another, since 1823. They have become legendary symbols of Texas and the American West. Thirty-one Rangers, with lives spanning more than two centuries, have been enshrined in the Hall of Fame. In The Ranger Ideal Volume 1: Texas Rangers in the Hall of Fame, 1823-1861, Darren L. Ivey presents capsule biographies of the seven inductees who served Texas before the Civil War. He begins with Stephen F. Austin, "the Father of Texas," who laid the foundations of the Ranger service, and then covers John C. Hays, Ben McCulloch, Samuel H. Walker, William A. A. "Bigfoot" Wallace, John S. Ford, and Lawrence Sul Ross. Using primary records and reliable secondary sources, and rejecting apocryphal tales, The Ranger Ideal presents the true stories of these intrepid men who fought to tame a land with gallantry, grit, and guns. This Volume 1 is the first of a planned three-volume series covering all of the Texas Rangers inducted in the Hall of Fame and Museum in Waco, Texas. Mountain Ranger is an oral history of the US Army Mountain Ranger Camp beginning in 1952, containing multiple interviews and offerings from officers and Non-Coms, plus the author's pertinent research. The winner of every battle under the blazing desert sun, is ultimately the sun itself. Arizona Ranger Sam Burrack is in pursuit of Max Carver, the Gentleman Bandit, leader of the infamous Wild Bunch, who has recently graduated from robbery to murder. Crossing the border into Mexico, Sam's orders are to get Carver without involving himself with Mexican Federales or other law enforcement. Easier said than done? You bet .... Since the 1950s the world has witnessed a period of extraordinary religious revival in which religious political parties and non-governmental organizations have gained power around the globe. At the same time, the international community has come to focus on the challenge of promoting global human security. This groundbreaking book explores how these trends are interacting. In theoretical essays and case studies from Turkey, Egypt, Pakistan, the Americas, Africa and Europe, the contributors address such crucial questions as: Under what circumstances do religiously motivated actors advance or harm human welfare? Do certain state policies tend to promote security-enhancing behavior among religious groups? The book concludes by providing important suggestions to policymakers about how to factor the influence of religion into their evaluation of a population's human security and into programs designed to improve human security around the globe. "Rory Fanning's odyssey is more than a walk across America. It is a gripping story of one young man's intellectual journey from eager soldier to skeptical radical, a look at not only the physical immenseness of the country, its small towns, and highways, but into the enormity of its past, the hidden sins and unredeemed failings of the United States. The reader is there along with Rory, walking every step, as challenging and rewarding experience for us as it was for him."--Neil Steinberg, Chicago Sun-Times Pat Tillman's death by friendly fire was covered up just days before his comrade Rory Fanning--who served in the same unit as Tillman--left the Army Rangers as a conscientious objector. Disquieted by his tours in Afghanistan, Fanning sets out to honor Tillman's legacy by crossing the United States on foot. Told with page-turning style, humor, and warmth, Worth Fighting For explores the emotional and social consequences of rejecting the mission of one of the most elite fighting forces in the world. It is only through the generous, and colorful people Fanning meets and the history he discovers that he learns to live again. Rory Fanning walked across the United States for the Pat Tillman Foundation in 2008-09, following two

deployments to Afghanistan with the 2nd Army Ranger Battalion. He is a housing activist living in Chicago, Illinois. Rory works for Haymarket Books and this is his first book. *Death of a Texas Ranger* is the thrilling, action-packed story of the murder of Texas Ranger John Green by Cesario Menchaca, one of three Rangers of Mexican descent under Green's command. Immediately word spread that the killing may have been the botched outcome of a contract taken out on Menchaca's life by the notorious Gabriel Marnoch, a local naturalist who had run up against the law himself. But was it? Much more than just a story about a tragic frontier killing, it is the story of an era. The events leading up to the murder and Green's son's decades' long quest for justice for his father's killer exemplify the chaotic frontier society in Texas after the Civil War, a time fraught with political turmoil and cultural clashes. Amidst that chaos, the virgin landscape of Texas was a magnet to those interested in the natural sciences in the nineteenth century, an era often referred to as the Age of Darwin. The clash between the seemingly pastoral landscape with its offerings for science and the brutal history of the region ties this very readable regional history into the larger American story. What is a park ranger's life? A wild bear who favors Kentucky Fried Chicken A fugitive wanted in eight states A dog that saves his owner's life Wildland firefighters battling nature and fire A ghost haunting a colonial mansion Hikers who stay lost because they think searchers calling their names are wild animals Being willing to risk your life to make our parks safe and help preserve them for the future These are just a few experiences you will read about in *A Park Ranger's Life*. Drawn from the thirty-two-year career of National Park Ranger Bruce W. Bytnar, you will discover what it takes to be a park ranger, what threats to visitors and resources they deal with on a daily basis, and what you can do to help protect and preserve our national heritage. Reflections on the challenge of studying and discussing subjects society rejects, reviles, or considers unspeakable. As part of this multilayered conversation about stigma, this volume discusses the relationship between the stigmatized individual and our role as researchers. Here we address our own perspectives as researchers struggling with stigma issues and tellability, as well as scholarly reflexive concerns dealing with what can't be said when working with stigmatized groups or topics. The disciplinary focus of folklore positions us well to concentrate on the vernacular experience of the stigmatized, but it also propels us toward analysis of the performance of stigma, the process of stigmatization, and the political representation of stigmatized populations. These perspectives come to the fore in this book, as does the multilayered nature of stigma—its ability to reproduce, overlap, and spread, not just in terms of replication but also in terms of the ethnographer's ability to apprehend it and her ability to research and write about it. Using examples from both adults and children, the authors explain and describe the complex integrated network of strategies that takes place in the minds of proficient readers, strategies that struggling readers have to learn in order to construct their own reading processes. The examples and scenarios of teacher/student interactions in this book provide a sense of how it looks and what it sounds like to teach strategic actions to struggling readers.--[book cover]. *Religio-political organisations in Zimbabwe* play an important role in advocating democratisation and reconciliation, against acquiescent, silenced or co-opted mainstream churches. *Reconciliation and Religio-political Non-conformism in Zimbabwe* analyses activities of religious organisations that deviate from the position of mainline churches and the political elites with regard to religious participation in political matters, against a background of political conflict and violence. Drawing on detailed case studies of the Zimbabwe Christian Alliance (ZCA), Churches in Manicaland (CiM) and Grace to Heal (GtH), this book provocatively argues that in the face of an unsatisfactory religious and political culture, religio-political non-conformists emerge seeking to introduce a new ethos even in the face of negative sanctions from dominant religious and political systems. There is nothing lonelier than a cat who has been loved, at least for a while, and then abandoned on the side of the road. A calico cat, about to have kittens, hears the lonely howl of a chained-up hound deep in the backwaters of the bayou. She dares to find him in the forest, and the hound dares to befriend this cat, this feline, this creature he is supposed to hate. They are an unlikely pair, about to become an unlikely family. Ranger urges the cat to hide underneath the porch, to raise her kittens there because Gar-Face, the man living inside the house, will surely use them as alligator bait should he find them. But they are safe in the Underneath...as long as they stay in the Underneath. Kittens, however, are notoriously curious creatures. And one kitten's one moment of curiosity sets off a chain of events that is astonishing, remarkable, and enormous in its meaning. For everyone who loves *Souder*, *Shiloh*, and *The Yearling*, for everyone who loves the haunting beauty of

writers such as Marjorie Kinnan Rawlings, Flannery O'Connor, and Carson McCullers, Kathi Appelt spins a harrowing yet keenly sweet tale about the power of love—and its opposite, hate—the fragility of happiness and the importance of making good on your promises. This book critically interrogates emerging interconnections between religion and biomedicine in Africa in the era of antiretroviral treatment for AIDS. Highlighting the complex relationships between religious ideologies, practices and organizations on the one hand, and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other, this anthology charts largely uncovered terrain in the social science study of the Aids epidemic. Spanning different regions of Africa, the authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions, religious practices and moralities as they co-evolve in situations of AIDS treatment. This book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life-prolonging treatment programmes.
