Love for Imperfect Things Haemin Sunim,2018-12-24 Susan Cain New York Times bestselling author of Quiet The world could surely use a little more love a little more compassion and a little more wisdom In Love for Imperfect Things Haemin Sunim shows us how to cultivate all three and to find beauty in the most imperfect of things including your very own self A 1 internationally bestselling book of spiritual wisdom about learning to love ourselves with all our imperfections by the Buddhist author of The Things You Can See Only When You Slow Down Hearing the words be good to yourself first then to others was like being struck by lightning Many of us respond to the pressures of life by turning inward and ignoring problems sometimes resulting in anxiety or depression Others react by working harder at the office at school or at home hoping that this will make ourselves and the people we love happier But what if being yourself is enough Just as we are advised on airplanes to take our own oxygen first before helping others we must first be at peace with ourselves before we can be at peace with the world around us In this beautiful follow up to his international bestseller The Things You Can See Only When You Slow Down Zen Buddhist monk Haemin Sunim turns his trademark wisdom to the art of self care arguing that only by accepting yourself and the flaws that make you who you are can you have compassionate and fulfilling relationships with your partner your family and your friends With more than thirty five full color illustrations Love for Imperfect Things will appeal to both your eyes and your heart and help you learn to love yourself your life and everyone in it When you care for yourself first the world begins to find you worthy of care

The Other Side of Criminology Gerardus Petrus Hoefnagels,2013-06-29 Didactically a textbook of criminology should start at the beginning The learning process also an emotional process begins in criminology with the concepts views emotions attitudes and ideas we have regarding crime and criminals Exploration of these underlying factors is one of the aims of the present book We can free our thinking only by being aware of the significance of our own feelings and thoughts about a phenomenon like crime That is the basic problem confronting us In scientific thinking implicit postulates as to the *sensus communis* unless recognized and neutralized grow into idols The fight against crime is one example of such an idol Crimes and criminals exist only by virtue of reactions to certain forms of behavior For this reason this book will begin by examining the reactions of society to crime Criminology is primarily a science of others than offenders In this sense I invert criminology The history of criminology is not so much a history of offenders 2 as a history of the reactions of those in power

Understanding Muhammad and Muslims Ali Sina, 2011-11 Peace cannot be attained as long as there are ideologies that promote hate People don't naturally do evil They do evil when indoctrinated Good people do evil things when they perceive injustice Often their perception is imaginary Masses of people can be manipulated to believe that they are victimized They then become filled with hate seek revenge and commit atrocities while considering themselves righteous and justifying every cruelty Islam is one such a doctrine Why are there no freedom of speech and no true democracy in any Islamic country Why do they abuse and treat their women as objects Why do all Muslim countries have dismal Human Rights record Why they riot and murder innocent people over the silliest things What drives so many of them to terrorism Why they are constantly at war with everyone and with each other To understand Muslims we must understand their prophet Islam is Muhammadism His biographers reported Muhammad used to withdraw to a cave and spend days wrapped in his thoughts He felt spasms heard bells ringing and saw ghosts He thought he had become demon possessed but his wife reassured him he had become a prophet Convinced of his superior status Muhammad was intolerant of those who rejected him assassinated those who criticized him raided looted and massacred entire populations He reduced thousands to slavery He raped and allowed his men to rape their female captives All of this he did with a clear conscience and a sense of entitlement He was magnanimous to those who admired him but vengeful towards his detractors He believed he was the most perfect human creation and that the universe was created because of him

Understanding Muhammad ventures beyond the stories It unravels the mystique of the most influential and yet the most enigmatic man in history Muslims emulate their prophet Only by understanding him can we know what makes them tick and predict these most unpredictable people

The Many Lives of Marilyn Monroe Sarah Churchwell, 2005-12-27 A brilliant investigation into the debates surrounding Marilyn Monroe's life and the cultural attitudes that her legend reveals There are many Marilyn's sex goddess and innocent child crafty manipulator and dumb blonde liberated woman and tragic loner Indeed the writing and rewriting of this endlessly intriguing icon's life has produced more than six hundred books from the long procession of authoritative biographies to the memoirs and plays by ex-husband Arthur Miller and the works by Norman Mailer and Joyce Carol Oates But even as the books have multiplied myth reality fact fiction and gossip have become only more intertwined there is still no agreement about such fundamental questions as Marilyn's given name the identity of her

father whether she was molested as a child and how and why she died *The Many Lives of Marilyn Monroe* reviews the unreliable and unverifiable but highly significant stories that have framed the greatest Hollywood legend All the while cultural critic Sarah Churchwell reveals us to ourselves our conflicted views on women our tormented sexual attitudes our ambivalence about success our fascination with self destruction In incisive and passionate prose Churchwell uncovers the shame belittlement and anxiety that we bring to the story of a woman we supposedly adore In the process she rescues a Marilyn Monroe who is far more complicated and credible than the one we think we know *Home Blood Pressure Monitoring* George S. Stergiou, Gianfranco Parati, Giuseppe Mancia, 2019-10-31 Hypertension remains a leading cause of disability and death worldwide Self monitoring of blood pressure by patients at home is currently recommended as a valuable tool for the diagnosis and management of hypertension Unfortunately in clinical practice home blood pressure monitoring is often inadequately implemented mostly due to the use of inaccurate devices and inappropriate methodologies Thus the potential of the method to improve the management of hypertension and cardiovascular disease prevention has not yet been exhausted This volume presents the available evidence on home blood pressure monitoring discusses its strengths and limitations and presents strategies for its optimal implementation in clinical practice Written by distinguished international experts it offers a complete source of information and guide for practitioners and researchers dealing with the management of hypertension *Lesson Study for Learning Community* Eisuke Saito, Masatsugu Murase, Atsushi Tsukui, John Yeo, 2014-09-25 Lesson Study has been actively introduced from Japan to various parts of the world starting with the US Such introduction is heavily connected with a focus on mathematics education and there is a strong misconception that Lesson Study is only for mathematics or science The introduction is usually done at the departmental or form level and there has been a strong question about its sustainability in schools This book comprehensively explores the idea of Lesson Study for Learning Community LSLC and suggests that reform for the culture of the school is needed in order to change learning levels among the children teachers and even parents In order for this to happen the ways of management and leadership are also included as objectives of LSLC as are practices at the classroom level It argues that LSLC is a comprehensive vision and framework of school reform and needs to be taken up in a holistic way across disciplines Chapters include How to Create Time How to Build the Team How to Promote Reform How to Reform Daily Lessons How to Conduct a Research Lesson How to Discuss Observed Lessons How to Sustain School Reform based on LSLC Strong interest in LSLC is already prevalent in Asian countries such as Japan China Korea Taiwan Indonesia Vietnam and Singapore and is now being introduced more in the west This book will be of great interest to those involved in education policy and reform and for practitioners of education at all levels *The Caravan* Thomas Hegghammer, 2020-03-05 Abdallah Azzam the Palestinian cleric who led the mobilization of Arab fighters to Afghanistan in the 1980s played a crucial role in the internationalization of the jihadi movement Killed in mysterious circumstances in 1989 in Peshawar Pakistan he remains one of the most influential jihadi

ideologues of all time Here in the first in depth biography of Azzam Thomas Hegghammer explains how Azzam came to play this role and why jihadism went global at this particular time It traces Azzam s extraordinary life journey from a West Bank village to the battlefields of Afghanistan telling the story of a man who knew all the leading Islamists of his time and frequented presidents CIA agents and Cat Stevens the pop star It is however also a story of displacement exclusion and repression that suggests that jihadism went global for fundamentally local reasons
