and may not include access to online tests or materials included with the original product **The Jamestown Project**
Karen Ordahl Kupperman,2009-06-30 Listen to a short interview with Karen Ordahl Kupperman Host Chris Gondek Producer
Heron Crane Captain John Smith's 1607 voyage to Jamestown was not his first trip abroad He had traveled throughout
Europe been sold as a war captive in Turkey escaped and returned to England in time to join the Virginia Company's
colonizing project In Jamestown migrants merchants and soldiers who had also sailed to the distant shores of the Ottoman
Empire Africa and Ireland in search of new beginnings encountered Indians who already possessed broad understanding of
Europeans Experience of foreign environments and cultures had sharpened survival instincts on all sides and aroused
challenging questions about human nature and its potential for transformation It is against this enlarged temporal and
geographic background that Jamestown dramatically emerges in Karen Kupperman's breathtaking study Reconfiguring the
national myth of Jamestown's failure she shows how the settlement's distinctly messy first decade actually represents a
period of ferment in which individuals were learning how to make a colony work Despite the settlers dependence on the
Chesapeake Algonquians and strained relations with their London backers they forged a tenacious colony that survived
where others had failed Indeed the structures and practices that evolved through trial and error in Virginia would become
the model for all successful English colonies including Plymouth Capturing England's intoxication with a wider world through
ballads plays and paintings and the stark reality of Jamestown for Indians and Europeans alike through the words of its
inhabitants as well as archeological and environmental evidence Kupperman re-creates these formative years with
astonishing detail Following Directions and Riddle Clues Tiffany Rosengarten,2010-09-01 Logical thinking is a lifelong
skill that is developed practiced and even enjoyed The reproducible activities in this packet are designed to give students
practice following directions and solving riddles They will be asked to navigate partners from a starting point to a destination
on a map and to use clues to solve riddles A lifetime of logical thinking awaits your students start them on a positive path
with these Beginning Links to Logic **Our Strange New Land** Patricia Hermes,2002-05-01 Nine year old Elizabeth keeps
a journal of her experiences in the New World as she encounters Indians suffers hunger and the death of friends and helps
her father build their first home
