

Creating Facts: Israel, Palestinians, and the West Bank, by GEOFREY ARONSON. 310 pages, notes, index. Institute for Palestinian Studies, Washington, D.C. 1987. \$24.95.

The publication of Aronson's book could not have been more timely. *Creating Facts* provides the background to understanding the current uprising in the occupied territories and thus is an invaluable resource in tracing the origins of the uprising and understanding its contours, nuances, and urgency.

Organizationally, *Creating Facts* weaves between Israeli policy vis-à-vis the occupied territories and the Palestinian response to occupation. It documents the imposition of Israeli rule and the unabashed dispossession of the Palestinians. Aronson points to the continuity in Israeli policy and practices between 1948 and the current "creation of facts" in the territories. The establishment of Jewish settlements on Palestinian lands is the key to Israeli policy in both places and periods.

With precision, the author illustrates the absence of any serious policy divergence between the main Israeli political parties, Labor and Likud, over the permanent retention of the territories. Behind the publically expressed ambiguity about the future of the territories lies a clear intent to retain and incorporate them. The author argues that "Dayan's ideas hold the key to Israeli policy toward the occupied territories." He not only formulated and established the "system of relations" between the state and the territories but he managed to ensure "continuity in the leadership transition from Labor to Likud" (p. 20).

Aronson also draws attention to the continuity of the Palestinians' response to the occupation. From the beginning, he contends, they have resisted occupation. The author also shows that the Israeli response to any form of resistance has been swift, brutal, and repressive. Though this book was completed before the recent uprising broke out, it is amply evident that the current behavior of the Israel Defense Forces is not a new phenomenon arising from Israeli concerns for "law and order" but is simply a manifestation of a long-held policy carried to new extremes. What becomes clear in reading Aronson's work is the extent to which Israeli "security" arguments, voiced to excuse or explain the ferocity with which they are attempting to quell the uprising, are only a camouflage. As Aronson diligently points out, for twenty years Israel has been on the offensive in the occupied territories.

Aronson claims the Camp David accord simply "sanctified" (p. 78) Israeli rule in the occupied territories and thus does not contradict but actually agrees with Israel's long-term policy of creeping annexation. Moreover, through the accord, Israel obtained official Egyptian and American agreement to its goals. The agreement shifted the terms of the debate from notions of territorial compromise to those of territorial administration.
