Holotropic Breathwork, Second Edition Stanislav Grof,Christina Grof,2023-09-01 In the second edition of this classic text Stanislav Grof and Christina Grof describe their groundbreaking form of self exploration and psychotherapy holotropic breathwork Holotropic means moving toward wholeness from the Greek holos whole and trepein moving in the direction of The breathwork utilizes the remarkable healing and transformative potential of nonordinary states of consciousness These states engender a rich array of experiences with unique healing potential reliving childhood memories infancy birth and prenatal life and elements from the historical and archetypal realms of the collective unconscious Induced by very simple means a combination of accelerated breathing evocative music and bodywork in a safe and supportive setting holotropic breathwork integrates the insights from modern consciousness research depth psychology transpersonal psychology anthropology Eastern spiritual practices and mystical traditions The Grofs work with holotropic states of consciousness has introduced revolutionary changes to psychiatry psychology and psychotherapy Written in a clear easily understandable style this indispensable book summarizes their remarkable insights The second edition includes an expanded section on the history of holotropic breathwork as well as information on Grof Legacy Training

The Adventure of Self-Discovery Stanislav Grof,1988-01-31 Here Grof presents a useful model of the psyche a model extended by his thirty years of studying non ordinary states of consciousness It is useful for understanding such phenomena as shamanism mysticism psychedelic states spontaneous visionary experiences and psychotic episodes The model is also useful in explaining the dynamics of experiential psychotherapies and a variety of sociopolitical manifestations such as war and revolution This book might have been entitled Beyond Drugs The second part describes the principles and process of the non pharmacological technique developed by the author and his wife Christina for self exploration and for psychotherapy Grof explores in detail the components of this technique He describes its method its effective mechanisms as well as its goals and potential Its practice is simple since it utilizes the natural healing capacity of the psyche

When the Impossible Happens Stanislav Grof,2009-12 Feelings of oneness with others nature and the universe Encounters with extraterrestrials deities and demons Out of body experiences and past life memories Science casts a skeptical eye But Dr Stanislav Grof the psychiatric researcher who co founded transpersonal psychology believes otherwise When the Impossible Happens presents Dr Grof's mesmerizing firsthand account of his fifty year inquiry into waters uncharted by conventional psychology an odyssey that will leave you questioning the very fabric of your existence From the first LSD session that gave Dr Grof a glimpse of cosmic consciousness to his latest work with Holotropic Breathwork When the Impossible Happens explores fascinating experiments in astral projection remarkable tales of synchronicity memories of birth and prenatal life the survival of consciousness after death and much more Here is an incredible opportunity to journey beyond ordinary consciousness guaranteed to shake the foundations of what we assume to be reality and sure to offer a new vision of our human potential as we contemplate When the Impossible Happens STANISLAV GROF M D PH D One of the founders and chief theoreticians of transpersonal psychology Dr Grof is the president of the International Transpersonal Association and a professor of psychology at the California Institute of Integral Studies and the Pacifica Graduate Institute His numerous books include Beyond the Brain and Psychology of the Future

Psychology of the Future Stanislav Grof, 2019-03-28 Summarizes Grof's experiences and observations from more than forty years of research into non ordinary states of consciousness This accessible and comprehensive overview of the work of Stanislav Grof one of the founders of transpersonal psychology was specifically written to acquaint newcomers with his work Serving as a summation of his career and previous works this entirely new book is the source to introduce Grof's enormous contributions to the fields of psychiatry and psychology especially his central concept of holotropic experience where holotropic signifies moving toward wholeness Grof maintains that the current basic assumptions and concepts of psychology and psychiatry require a radical revision based on the intensive and systematic research of holotropic experience He suggests that a radical inner transformation of humanity and a rise to a higher level of consciousness might be humankind's only real hope for the future It's rare to find a textbook that is both extremely informative and enjoyable to read Psychology of the Future has to be one of the first ones I've ever come across Each chapter brought an entirely new concept theory or method that was just as engaging as the previous one Dr Tami Brady TCM Reviews This book is by a pioneering genius in consciousness research It presents the full spectrum of Grof's ideas from his earliest mappings of using LSD psychotherapy to his clinical work with people facing death to his more recent work with holotropic breathing to his latest thoughts about the cosmological implications of consciousness research and the prospects for dealing with an emerging planetary crisis Grof has always been one of the most original thinkers in the transpersonal field and his creativity has kept pace with the maturity of his overall vision Michael Washburn author of Transpersonal Psychology in Psychoanalytic Perspective Grof offers an outstanding contribution to the ever growing debate about the nature of human consciousness and about the place of humankind in the cosmos If more psychiatrists could be persuaded that human consciousness transcends the limitations of the physical brain and instead is but an aspect of what may best be described as cosmic consciousness we could not only expect treatment modalities to change but we could also anticipate the possibility of culture wide rethinking of the basic presuppositions of modern cosmology the cosmology that grounds Western institutions ideologies and beliefs about the nature of personhood Michael E Zimmerman author of Contesting Earth's Future Radical Ecology and Postmodernity Stanislav Grof MD is a psychiatrist with more than fifty years of experience in research of non ordinary states of consciousness He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague Czechoslovakia Chief of Psychiatric Research at the Maryland Psychiatric Research Center Assistant Professor of Psychiatry at the Johns Hopkins University and Scholar in Residence at the Esalen Institute He is currently Professor of Psychology at the California Institute of Integral Studies conducts professional training programs in holotropic breathwork and gives lectures and seminars worldwide He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association ITA In 2007 he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague He is the author and editor of many books including The Adventure of Self Discovery Dimensions of Consciousness and New Perspectives in Psychotherapy and Inner Exploration Ancient Wisdom and Modern Science Beyond the Brain Birth Death and Transcendence in Psychotherapy The Cosmic Game Explorations of the Frontiers of Human Consciousness and Human Survival and Consciousness Evolution all published by SUNY Press

Healing Our Deepest Wounds Stanislav Grof, 2012 Dr Grof's consciousness research over the last five decades has shown that the deepest roots of trauma often lie in experiences from birth or in events from human history that have not yet been resolved and are still active in the collective unconscious. This unresolved personal or collective history then expresses through an individual or group that has some connection to the earlier events. Traditional therapeutic approaches which focus only on events in the personal biography or tranquilizing medications do not access or heal these deeper wounds in the human psyche. From a more general perspective, Dr Grof examines the broad problems of violence and greed in society and finds that the widespread fear and aggression between individuals and groups may also originate in large part from the unconscious acting out of unresolved historical traumas from the collective unconscious. The message of Dr Grof and this book is however a hopeful one: there are approaches to therapy which utilize a specific non-ordinary state of consciousness which enables individuals with support to access and heal these deeper levels of trauma from the personal and collective unconscious. He has named this state of consciousness Holotropic, a composite word which means oriented toward wholeness or moving in the direction of wholeness from the Greek *holos* (whole) and *trepo* (moving toward) or in the direction of something. Dr Grof describes various approaches to achieving this Holotropic state and using it for healing, with his focus on Holotropic Breathwork which he developed with his partner Christina and psychedelic therapy which he pioneered in the 1950s and which is now experiencing a renaissance of clinical research for treatment of addictions and PTSD.

Ancient Wisdom and Modern Science Stanislav Grof, Marjorie Livingston Valier, 1984-06-30 A critical reevaluation of ancient spiritual systems long ignored or rejected because of their assumed incompatibility with science. Here are Swami Muktananda on the mind, Swami Prajnananda on Karma, Swami Kripananda on the Kundalini, Joseph Chilton Pearce on spiritual development, Jack Kornfield on Buddhism for Americans, Claudio Naranjo on meditation and much more.

Beyond the Brain Stanislav Grof, 1985-01-01 *Beyond the Brain* seriously challenges the existing neurophysiological models of the brain. After three decades of extensive research on those non-ordinary states of consciousness induced by psychedelic drugs and by other means, Grof concludes that our present scientific world view is as inadequate as many of its historical predecessors. In this pioneering work, he proposes a new model of the human psyche that takes account of his findings. Grof includes in his model the recollective level or the reliving of emotionally relevant memories, a level at which the Freudian framework can be useful. Beyond that is the perinatal level in which the human unconscious may be activated to a reliving of biological birth and confrontation with death. How birth experience influences an individual's later development is a central focus of the book. The most serious challenge to contemporary psychoanalytic theory comes from a delineation of the transpersonal level or the expansion of consciousness beyond the boundaries of time and space. Grof makes a bold argument that understanding of the perinatal and transpersonal levels changes much of how we view both mental illness and mental health. His reinterpretation of some of the most agonizing aspects of human behavior proves thought-provoking for both laypersons and professional therapists.

The Holotropic Mind Stanislav Grof, Hal Zina Bennett, 2009-10-13 A TURNING POINT IN PSYCHOLOGY AND HUMAN HISTORY Stanislav Grof, M.D. formerly a professor at Johns Hopkins University School of Medicine and founder of the International Transpersonal Association has written many books including *Realms of the*

The Cosmic Game Stanislav Grof, 1998-03-19 In this his culminating work the leading international figure in consciousness research masterfully synthesizes his vast findings drawing not only upon psychedelic therapy and Holotropic Breathwork but also from literature cross cultural studies ancient mystical sources and psychological data resulting in a profound consolidation and articulation of what is now known about nonordinary states of consciousness The Cosmic Game discusses the broadest philosophical metaphysical and spiritual insights gleaned in Grof's research concerning human nature and reality addressing the most fundamental questions human beings have asked about the nature of existence since time immemorial Insights from research into nonordinary states of consciousness portray existence as an astonishing play of the cosmic creative principle that transcends time space linear causality and polarities of every kind and suggest an identity of the individual psyche in its furthest reaches with the universal creative principle and the totality of existence This identity of the human being with the Divine is the ultimate secret that lies at the core of all great spiritual traditions What moves this book into the status of a classic is that it is in substantial agreement with the world's great wisdom and spiritual traditions This modern corroboration of the perennial philosophy is a stunning achievement and deserves publication to the widest audiences Ken Wilber author of *Up from Eden A Transpersonal View of Human Evolution* and *The Atman Project A Transpersonal View of Human Development* The Cosmic Game is the latest and best of Stanislav Grof's extraordinary contributions to our understanding of human consciousness This book provides a coherent picture of how individual experience fits into universal patterns of consciousness Frances Vaughan author of *Shadows of the Sacred Seeing through Spiritual Illusions* Perhaps the most important of all his works representing as it does an integration of the most profound of his clients experiences and demonstrating a remarkable convergence with the deepest spiritual experiences reported across centuries and cultures This convergence is a finding of the greatest significance Roger Walsh author of *The Spirit of Shamanism* Grof is the world's leading authority on the deep exploration of the mind and soul This is a wonderful gift Charles Tart author of *States of Consciousness* and *Psi Scientific Studies of the Psychic Realm* Stanislav Grof MD is a psychiatrist with more than fifty years of experience in research of nonordinary states of consciousness He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague Czechoslovakia Chief of Psychiatric Research at the Maryland Psychiatric Research Center Assistant Professor of Psychiatry at the Johns Hopkins University and Scholar in Residence at the Esalen Institute He is currently Professor of Psychology at the California Institute of Integral Studies conducts professional training programs in holotropic breathwork and gives lectures and seminars worldwide He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association ITA In 2007 he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague He is the author and editor of many books including *The Adventure of Self Discovery Dimensions of Consciousness* and *New Perspectives in Psychotherapy and Inner Exploration Ancient Wisdom and Modern Science Beyond the Brain Birth Death and Transcendence in Psychotherapy Human Survival and Consciousness Evolution and Psychology of the Future Lessons from Modern Consciousness Research* all published by SUNY Press

Human Survival and Consciousness Evolution Stanislav Grof, Marjorie Livingston Valier, 1988-01-01 In addition to the apocalyptic prospect of global nuclear destruction there are other dismal scenarios involving resource and environmental issues that are less imminent but still serious in the long term Past analyses seeking remedies have focused on symptoms rather than causes They represent extensions and expressions of the same philosophies and strategies that created these situations This book brings a fresh and optimistic perspective to the problem area It explores modern consciousness research and transpersonal psychology for practices that accelerate the development of consciousness It covers a wide range from laboratory techniques of experimental psychiatry transpersonal psychotherapies and Jungian psychology to the Oriental and Western mystical traditions
