Edition is the essential source for basic esthetics training. This new edition builds upon Milady's strong tradition of providing students and instructors with the best beauty and wellness education tools for their future. The rapidly expanding field of esthetics has taken a dramatic leap forward in the past decade, and this up-to-date text plays a critical role in creating a strong foundation for the esthetics student. Focusing on introductory topics, including history and opportunities in skin care, anatomy and physiology, and infection control and disorders, it lays the groundwork for the future professional

to build their knowledge. The reader can then explore the practical skills of a skin care professional, introducing them to the treatment environment, basic facial treatments, hair removal, and the technology likely to be performed in the salon or spa setting. As a student in the esthetician field, I was looking for a book I couldn't find. I wanted a book that was straight forward and answered my questions without being too technical. I wanted to understand what I was being taught. I needed it to "click" with so much information coming at me at once. Some of my

questions seemed too simple to ask, while others veered off topic. This book is written in a question and answer format and also includes lists and charts. It's a book for the beginner, the student looking for an easier way to absorb what you're being taught. It can also be used for the intermediate esthetician as a quick study guide and refresher. This is the book I was looking for while I was in school, but never found. Contains answers to 275 frequently-asked questions about skin care, providing information about skin biology, aging and photo-aging skin, acne and acne-prone skin,

sensitivity, redness, allergy-prone skin, dry skin, sun care, dark spots and pigment problems, skin care products and ingredients, how to assess skin, and problems that need a doctor. Skin Care: Beyond the Basics, 3e is an invaluable resource for both the student and the professional esthetician seeking practical information and the latest in skin care breakthroughs. Written by one of the country's most noted skin care specialists, this text presents the most up-to-date information available on acne, aging treatment, rosacea management, sensitive skin care, and plastic surgery

patient care. New information on non-invasive anti-aging programs and new ingredient technologies are presented, as well as new photos to aid in skin analysis and the identification of various conditions. The text presents numerous examples and application techniques throughout, which can be utilized in daily practice. This workbook is a valuable student supplement that coordinates chapter-by-chapter with the textbook. Use of the workbook helps to strengthen the student's understanding of esthetics by reinforcing the material covered in the textbook. The

workbook contains short answer, short essay, sentence completion, matching, definition, labeling, and word review activities. A final exam review make up of multiple-choice questions and a series of situational tests are also included. 1992. - Lesson plans help with organizing and presenting the material, and activities provide opportunities to expand the content and further develop skills- Transparency and handout masters- All components are conveniently packaged in a sturdy 3-ring binder- A CD-ROM Computerized Testbank- 700 multiple-choice questions

corresponding to the material in the Student Course Book- Questions are in addition to those in the Exam Review and Student CD-ROM Whether you are an Esthetics student, just starting out, been an Esthetician for years, or wherever you happen to be on your Esthetics journey, and whatever challenges you are facing right now, the exercises in this workbook will help you create an action plan and a clear career path for your life and your business. You know this workbook is for you if: You are new to the Esthetics profession and you want to have a purpose and plan for your career and skincare

business. You are feeling unfulfilled and/or struggling in your life and your skincare career. You have grown complacent in your life and career and it no longer serves your best interest. You are feeling frustrated and stuck as an Esthetician. You have been continuously settling for less than what you really want. You find yourself constantly struggling to grow and market your business. If you find yourself in any of these scenarios, then this workbook is for you! The exercises in this book CAN and WILL help you create a positive mindset and energy that will change the way you think about

yourself and your business! This workbook will require you to go within and ask yourself meaningful questions that will inspire and energize you to make the necessary changes in your life that will empower you to create the business and life you truly want rather than settling for less. As you work through the exercises, you will gain insights into the areas of your life or the habitual patterns that have kept you feeling stuck. When I was starting out as an Esthetician over 25 years ago, I had such a difficult time finding support from other Estheticians. I spent a lot of those early years feeling

frustrated, fearful and insecure about my future success in the Esthetics industry. Well, fellow Estys, I made many mistakes on my journey and I made a vow to myself that if I had the opportunity to experience success on any level I would share those success secrets with other Estheticians. I am so excited about finally being in a position to guide and support fellow Estheticians and colleagues that find themselves facing the same obstacles on their journey that I faced while developing my career. Although, I know at times an Esthetics career can be an uphill battle, I am proof that you can no matter where you

are starting from, make the money you want to make and achieve the success that you desire most with the right mindset, support system and success tools and resources needed to make it. I made it and now I want to share my secrets to success with you! Congratulations again on taking this GIANT step toward your success!
