You'd have to be mad to play golf every day for a month alongside the busiest motorway in Britain but that's what Trevor Sandford did in August 2011. When an ordinary club golfer took on the challenge for charity, every day brought on a new adventure. This book tells the tale of the Golf Against Cancer tour with all the blisters, the blog and the banter. Some of these stories you could not make up; this is genuine feel-good non-fiction. a brilliant and funny account of a fantastic achievement The Social Golfer A Viking statue, a coffee pot, a ghost story, and a controversial cake: What can the things that immigrants treasured tell us about their history? Between 1870 and 1914 almost one-quarter of Iceland's population migrated to North America, forming enclaves in both the United States and Canada. This book examines the multi-sensory side of the immigrant past through rare photographs, interviews, artefacts, and early recipes. By revealing the hidden histories behind everyday traditions, The Viking Immigrants maps the transformation of Icelandic North American culture over a century and a half. Incorporating the latest research throughout, Daniel Levi's Fifth Edition of Group Dynamics for Teams explains the basic psychological concepts of group dynamics, focusing on their application with teams in the workplace. In Mixed Company explores taverns as colonial public space and how men and women of diverse backgrounds • Native and newcomer, privileged and labouring, white and non-white • negotiated a place for themselves within them. The stories that emerge unsettle comfortable certainties about who belonged where in colonial society. Colonial taverns were places where labourers enjoyed libations with wealthy Aboriginal traders like Captain Thomas, who also treated a Scotsman to a small bowl of punch; where white soldiers rubbed shoulders with black colonists out to celebrate Emancipation Day; where English ladies and their small children sought refuge for a night. The records of the past tell stories of time spent in mixed company but also of the myriad, unequal ways that colonists found room in taverns and a place in Upper Canadian culture and society. Reconstructed from tavern-keepers' accounts, court records, diaries, travelogues, and letters, In Mixed Company is essential reading for tavern aficionados and anyone interested in the history of gender, race, and culture in Canadian or colonial society. What role should I play in changing circumstances? What contributions can I make to my country of birth, my country of choice, the family, the community and the world? What is left for me to do? The searches for answers to all of these questions and the experiences should be of interest to the younger generation who have to satisfy themselves with answering similar questions as well as to those who must reflect on their own journeys in life. INTERNATIONAL BESTSELLER - Pulitzer Prize winning author presents the stories of a wide range of Muslim women in the Middle East. As an Australian American and an experienced foreign correspondent, Brooks' thoughtful analysis attempts to understand the precarious status of women in the wake of Islamic fundamentalism. "Frank, engaging, and captivating." - The New York Times Nine Parts of Desire is the story of Brooks' intrepid journey toward an understanding of the women behind the veils, and of the often contradictory political, religious, and cultural forces that shape their lives. Defying our stereotypes about the Muslim world, Brooks' acute analysis of the world's fastest growing religion deftly illustrates how Islam's holiest texts have been misused to justify repression of women, and how male pride and power have warped the original message of a once liberating faith. As a prizewinning foreign correspondent for The Wall Street Journal, Geraldine Brooks spent six years covering the Middle East through wars, insurrections, and the volcanic upheaval of resurgent fundamentalism. Yet for her, headline events were only the backdrop to a less obvious but more enduring drama: the daily life of Muslim women. This vivid account of the missionary work of the Rev. Hope Masterton Waddell in the West Indies and Central Africa was first published in 1863. During his sixteen years in Jamaica he witnessed the slave revolt and the aftermath of the abolition of slavery. The mission helped former slaves adapt to freedom in new communities. In 1846 he left Jamaica for Calabar in West Africa (now part of Nigeria), and his narrative is one of the best European accounts of pre-colonial Africa. The mission was concerned with ending local practices such as polygamy, human sacrifice and witchcraft, and Waddell formed a close relationship with King Eyo. The book gives considerable detail about the history and culture of the area, as well as on the work of the mission. His work in Calabar is still commemorated there in the Hope Waddell Training Institute, Duke Town. From unsubstantiated 2020 election fraud claims and the storming of the US Capitol to the rampage of COVID-19 and racial injustice, this book covers the foundations, institutions, and processes of "the great American experiment" with a clear and resonant theme: Democracy cannot be taken for granted, whether at home or internationally, and eternal vigilance (along with civic intelligence) is required to protect it. Approaching Democracy provides students with a framework to analyze the structure, process, and action of US government, institutions, and social movements. It also invites comparison with other countries. This globalizing perspective gives students an understanding of issues of governance and challenges to democracy here and elsewhere. At a moment of growing domestic terrorism, political hyper-partisanship, populism, identity politics, and governmental dysfunction, there is no better time to bring Approaching Democracy--a textbook based on Vaclav Havel's powerful metaphor of democracy as an ideal and the American experiment as the closest approach to it--to a new generation of political science undergraduate students. NEW TO THE NINTH EDITION Two new authors, Nadia E. Brown and Sarah Allen Gershon, who bring refreshing intellectual and diverse perspectives to the text. Includes the tumultuous political context surrounding the Trump presidency, the 2020 elections, the 116th Congress, the Supreme Court, the COVID-19 crisis, and the fight for social and racial justice. Figures and tables reflect the latest available data and surveys. Two new features--Diversity and Democracy, highlighting the experiences of America's diverse social groups and the role of identity politics—and Discussion Questions at the end of each chapter, assessing critical thinking skills. Critical contemporary events are explored throughout the book, including the attempted coup following the 2020 elections, the Trump administration's handling of the COVID-19 pandemic, Black Lives Matter, protests in American cities that come to the epicenter of America's approach to democracy, the changes in the Supreme Court and the federal court system, the growth of LGBTQ+ legal rights, and the alteration in American Federalism. New and updated data on public attitudes toward police brutality, DACA, voter suppression, healthcare, and the global climate movement are also covered. In the summer of 1956, a girl goes in search of freedom: "Chronicles a time of great change in America . . . will keep you reading long past your bedtime." —Kelly O'Connor McNeese, author of The Island of Doves A child swipes her mother's engagement ring, snatches her sister's brand-new nightgown, and runs outside to play "bride." She soon loses the ring, rips the gown, and, when she gets caught, decides it's time to pack her suitcase and make a run for it. When the policeman brings her home that night, her parents' reaction isn't what she expected. In fact, they tell her to try living at some of her friends' houses in their little St. Louis suburb, so she can find a better family... What happens next is a summer-long journey in which Grace Mitchell rides shotgun in a Plymouth Belvedere, hunkers in the back of a rattletrap vegetable truck, crawls into a crumbling tunnel, dresses up with a prom queen, and keeps vigil in the bedroom of a molestation victim. There are reasons why Grace remembers the summer of 1956 for the rest of her life. Those are just a few. Through the eyes of a child and the mature woman she becomes, we make the journey with Grace and discover important truths about life, equality, family, and the soul-searching quest for belonging. An original writer for "Saturday Night Live" chronicles his own coming of age while offering an insider's view of the birth and rise of the groundbreaking television show, featuring stories about some of its greatest personalities. Communication remains a significant topic for job acquisition, development, and advancement. As such, there are no shortage of classes, seminars and books written on the subject. However, there are few designed for the corporate consultant that are not aligned with some proprietary system, traditional academic classrooms, or author's speculation. These tend to be either inaccessible, questionable in their content, or specifically aligned with the producers' interests. So where can the Communication trainers and consultants go to focus on fundamental touchstone research and practices? The Handbook of Communication Training is a powerful template, and first of its kind, for communication practitioners and academicians who wish to strengthen their professional capabilities. It also acts as a guide and standard for consumers and clients of these services. The chapters within are an outgrowth of the National Communication Association's Training & Development Division's desire to provide guidance, structure, and support for members and non-members alike. It is specifically targeted at those pursuing best practices regarding communication consulting, coaching, teaching and training. The 7 Best Practices presented in this book represent capabilities that are foundational to the effective transfer of communication promotion and skill enhancement. As such, these practices, and supporting chapters, should appeal to novice and experts alike. The August offensive or Anzac Breakout at Gallipoli saw some of the bloodiest fighting since the landing as Commonwealth and Turkish troops fought desperate battles at Lone Pine, German Officers' Trench, Turkish Quinn's the Chessboard, the Nek, Chunuk Bair, the Farm, Hill Q and Hill 971. The New York Times bestseller now in paperback. One of the preeminent linguists of our time examines the realms of language that are considered shocking and taboo in order to understand what imbues curse words with such power--and why we love them so much. Profanity has always been a deliciously vibrant part of our lexicon, an integral part of being human. In fact, our ability to curse comes from a different part of the brain than other parts of speech--the urgency with which we say "f&*k!" is instead related to the instinct that tells us to flee from danger. Language evolves with time, and so does what we consider profane or unspeakable. Nine Nasty Words is a rollicking examination of profanity, explored from every angle: historical, sociological, political, linguistic. In a particularly coarse moment, when the public discourse is shaped in part by once-shocking words, nothing could be timelier. When men of great intellect, who have long and intently and exclusively

given themselves to the study or investigation of some one particular branch of secular knowledge, whose mental life is concentrated and hidden in their chosen pursuit, and who have neither eyes nor ears for any thing which does not immediately bear upon it, when such men are at length made to realize that there is a clamour all around them, which must be heard, for what they have been so little accustomed to place in the category of knowledge as Religion, and that they themselves are accused of disaffection to it, they are impatient at the interruption; they call the demand tyrannical, and the requisitionists bigots or fanatics. They are tempted to say, that their only wish is to be let alone; for themselves, they are not dreaming of offending any one, or interfering with any one; they are pursuing their own particular line, they have never spoken a word against any one's religion, whoever he may be, and never mean to do so. It does not follow that they deny the existence of a God, because they are not found talking of it, when the topic would be utterly irrelevant. All they say is, that there are other beings in the world besides the Supreme Being; their business is with them. After all, the creation is not the Creator, nor things secular religious. Theology and human science are two things, not one, and have their respective provinces, contiguous it may be and cognate to each other, but not identical. When we are contemplating earth, we are not contemplating heaven; and when we are contemplating heaven, we are not contemplating earth. Separate subjects should be treated separately. As division of labour, so division of thought is the only means of successful application. "Let us go our own way," they say, "and you go yours. We do not pretend to lecture on Theology, and you have no claim to pronounce upon Science." With this feeling they attempt a sort of compromise, between their opponents who claim for Theology a free introduction into the Schools of Science, and themselves who would exclude it altogether, and it is this: viz., that it should remain indeed excluded from the public schools, but that it should be permitted in private, wherever a sufficient number of persons is found to desire it. Such persons, they seem to say, may have it all their own way, when they are by themselves, so that they do not attempt to disturb a comprehensive system of instruction, acceptable and useful to all, by the intrusion of opinions peculiar to their own minds.
