Hiller,2005 This book a succinct discussion on urban issues with specific focus on Canadian materials and the Canadian context Several features include Aboriginal urbanization in Canada extensive focus on both the rural and urban economy immigration crime and gender The overall emphasis of the text is to unite experts in the field of urban sociological issues from a Canadian perspective Urban Canada Harry H. Hiller,2009 Urbanization is a fact of Canadian life With approximately 80 per cent of Canadians residing in cities it is imperative that students understand the issues associated with urban living Urban Canada approaches the study of city life in two ways A demographic approach examines the movements of people to cities while a socio cultural one emphasizes the pervasiveness of urban oriented thinking culture and organization within society Urban Canada provides a succinct discussion of urban issues from a uniquely Canadian perspective *Urban Canada* James W. Simmons,Robert Simmons,1969 *Urban Sociology* William G. Flanagan,2010-01-16 The fifth edition of this text presents a balanced review of the ecological arguments that the urban arena produces unique experiential and urban based cultural effects while exploring the broader political and economic contexts that produce and modify the urban environment In addition to examining the urban dimensions of such topics as community formation and continuity minority and majority dynamics ethnic experience poverty power and crime it provides an analysis of the spatial distribution of population and resources with regard to the metropolitanization of the urban form and the interaction between urban concentration and development and underdevelopment From a first chapter that begins with a discussion of some of the more micrological features of the urban experience the text focuses on the significance of the more macrological cultural social organizational and political dimensions of urban change in an historical span that includes the first cities and concludes with an exploration of the implications of cyberspace transnationalism and global terrorism for the future of urban sociology While the work focuses primarily on the North American case its analytical and integrated discussion makes it applicable to urban societies in general **From Chicago to L.A.** Michael Dear,2001-08-09 From Chicago to L A begins the task of defining an alternative agenda for urban studies and examines the case for shifting the focus of urban studies from Chicago to Los Angeles The authors experienced scholars from a variety of disciplines examine The concepts that have blocked our understanding of Southern California cities The imaginative structures that people have been using to understand and explain Los Angeles The utility of the Los Angeles School of urbanism Writing Off the Rural West Parkland Institute,2001-09 This collection reveals the situation in rural Canada in a new light but more than that it shows us that the ability to renew our rural communities remains within our grasp if we have the will to do so BOOK JACKET **Second Promised Land** Harry H. Hiller,2009 Explosive economic growth in resource rich Alberta has led to a stunning increase in its population In contrast to Ontario and British Columbia which have grown primarily through

international migration Alberta has become a magnet for internal migrants contributing to population redistribution within Canada with significant national social and economic consequences Combining statistical analysis and ethnographic study Harry Hiller uncovers two waves of in migration to Alberta His innovative approach begins with the individual migrant and analyzes the relocation experience from origin to destination Through interviews with hundreds of migrants Hiller shows that migration is complex and dynamic shaped not just by what Alberta offers but also prompted by a process that begins in the region of origin that makes migration possible and helps determine whether migrants stay or return home By combining a social psychological approach with structural factors such as Alberta s transition from a regional hinterland province to its emerging role the global system discussions of gender The internet and folk culture Second Promised Land provides a multi dimensional and deeply human account of a contemporary Canadian phenomenon

**Host Cities and the Olympics** Harry H. Hiller, 2012-06-25 Rather than interpreting the Olympics as primarily a sporting event of international or national significance this book understands the Games as a civic project for the host city that serves as a catalyst for a variety of urban interests over a period of many years from the bidding phase through

the event itself Traditional Olympic studies have tended to examine the Games from an outsider's perspective or as something experienced through the print media or television In contrast the focus presented here is on the dynamics within the host city understood as a community of interacting individuals who encounter the Games in a variety of ways through support opposition or even indifference but who have a profound influence on the outcome of the Games as actors and players in the Olympics as a drama Adopting a symbolic interactionist approach the book offers a new interpretive model through which to understand the Olympic Games by exploring the relationship between the Games and residents of the host city Key analytical concepts such as framing dramaturgy the public realm and the symbolic field are introduced and illustrated through empirical research from the Vancouver 2010 Winter Games and it is shown how social media and shifts in public opinion reflected interaction effects within the city By filling a clear lacuna in the Olympic Studies canon this book is important reading for anybody with an interest in the sociology of sport urban studies event studies or urban sociology

Changing Neighbourhoods Jill Grant, Alan Walks, Howard Ramos, 2020-03-15 In recent decades growing inequality and polarization have been reshaping the social landscape of Canada's metropolitan areas changing neighbourhoods and negatively affecting the lived realities of increasingly diverse urban populations This book examines the dimensions and impacts of increased economic inequality and urban socio spatial polarization since the 1980s Based on the work of the Neighbourhood Change Research Partnership an innovative national comparative study of seven major cities the authors reveal the dynamics of neighbourhood change across the Canadian urban system By mapping average income trends across neighbourhoods they show the kinds of factors social economic and cultural that influenced residential options and redistributed concentrations of poverty and affluence While the heart of the book lies in the project's findings from each city other chapters provide critical context Taken together they offer important understandings of the depth and the breadth of the problem at hand and signal the urgency for concerted policy responses in the decades to come

**Urban Neighborhoods in a New Era** Clarence N. Stone, Robert P. Stoker, 2015-09-18 For decades North American cities racked by deindustrialization and population loss have followed one primary path in their attempts at revitalization a focus on economic growth in downtown and business areas Neighborhoods meanwhile have often been left severely underserved There are however signs of change This collection of studies by a distinguished group of political scientists and urban planning scholars offers a rich analysis of the scope potential and ramifications of a shift still in progress Focusing on neighborhoods in six cities Baltimore Chicago Denver Los Angeles Phoenix and Toronto the authors show how key players including politicians and philanthropic organizations are beginning to see economic growth and neighborhood improvement as complementary goals The heads of universities and hospitals in central locations also find themselves facing newly defined realities adding to the fluidity of a new political landscape even as structural inequalities exert a continuing influence While not denying the hurdles that community revitalization still faces the contributors ultimately put forth a strong case that a more hospitable local milieu can be created for making neighborhood policy In examining the course of experiences from an earlier period of redevelopment to the present postindustrial city this book opens a window on a complex process of political change and possibility for reform
