**White Cargo** Don Jordan, Michael Walsh, 2008-03-08 White Cargo is the forgotten story of the thousands of Britons who lived and died in bondage in Britain's American colonies. In the seventeenth and eighteenth centuries more than 300,000 white people were shipped to America as slaves. Urchins were swept up from London's streets to labor in the tobacco fields where life expectancy was no more than two years. Brothels were raided to provide breeders for Virginia. Hopeful migrants were duped into signing as indentured servants unaware they would become personal property who could be bought, sold, and even gambled away. Transported convicts were paraded for sale like livestock. Drawing on letters, diaries, and court and government archives, Don Jordan and Michael Walsh demonstrate that the brutalities usually associated with black slavery alone were perpetrated on whites throughout British rule. The trade ended with American independence, but the British still tried to sell convicts in their former colonies, which prompted one of the most audacious plots in Anglo-American history. This is a saga of exploration and cruelty spanning 170 years that has been submerged under the overwhelming memory of black slavery. White Cargo brings the brutal, uncomfortable story to the surface.

**Whose History?** Grant Rodwell, 2013 Somebody once quipped that any work of Australian historical fiction is a burning fuse travelling over decades through Australian culture and society. In some manner, every newly published Australian historical novel is connected to what it has preceded. Each work belongs to a proud history. Through multiple examples, Grant Rodwell encourages readers to see how a work of historical fiction has evolved. Thus, under various themes, *WHOSE HISTORY* examines the traditions in Australian historical fiction and ponders how Australian historical novels can engage teachers and student teachers. *WHOSE HISTORY* aims to illustrate how historical novels and their related genres may be used as an engaging teacher learning strategy for student teachers in pre-service teacher education courses. It does not argue all teaching of History curriculum in pre-service units should be based on the use of historical novels as a stimulus, nor does it argue for a particular percentage of the use of historical novels in such courses. It simply seeks to argue the case for this particular approach, leaving the extent of the use of historical novels used in History curriculum units to the professional expertise of the lecturers responsible for the units.

**Spying Blind** Amy B. Zegart, 2009-02-17 In this pathbreaking book Amy Zegart provides the first scholarly examination of the intelligence failures that preceded September 11. Until now those failures have been attributed largely to individual mistakes. But Zegart shows how and why the intelligence system itself left us vulnerable. Zegart argues that after the Cold War ended the CIA and FBI failed to adapt to the rise of terrorism. She makes the case by conducting painstaking analysis of more than three hundred intelligence reform recommendations and tracing the history of CIA and FBI counterterrorism efforts from 1991 to 2001, drawing extensively from declassified government documents and interviews with more than seventy high ranking government officials. She finds that political leaders were well aware of the emerging terrorist danger and the urgent need for intelligence reform but failed to achieve the changes they sought. The same forces that have stymied intelligence reform for decades are to blame: resistance inside U.S. intelligence agencies, the rational interests of politicians and career bureaucrats, and core aspects of our democracy such as the fragmented structure of the federal government. Ultimately, failures of adaptation led to failures of performance. Zegart reveals how longstanding organizational weaknesses left unaddressed during the 1990s prevented the CIA and FBI from capitalizing on twenty-three opportunities to disrupt the September 11 plot. *Spying Blind* is a sobering account of why two of America's most important intelligence agencies failed to adjust to new threats after the Cold War and why they are unlikely to adapt in the future.

**The Boy on the Beach** Tima Kurdi, 2018-04-17 An intimate and poignant memoir about the family of Alan Kurdi, the young Syrian boy who became the global emblem for the desperate plight of millions of Syrian refugees and of the many extraordinary journeys the Kurdis have taken, spanning countries and continents. Alan Kurdi's body washed up on the shore of the Mediterranean Sea on September 2, 2015, and overnight the political became personal as the world awoke to the reality of the Syrian refugee crisis. Tima Kurdi first saw the shocking photo of her nephew in her home in Vancouver, Canada. But Tima did not need a photo to understand the truth; she and her family had already been living it. In *The Boy on the Beach*, Tima recounts her idyllic childhood in Syria, where she grew up with her brother Abdullah and other siblings in a tight-knit family. A strong-willed independent woman, Tima studied to be a hairdresser and had dreams of seeing the world. At twenty-two, she emigrated to Canada, but much of her family remained in Damascus. Life as a single mother and immigrant in a new country wasn't always easy, and Tima recounts with heart-wrenching honesty the anguish of being torn between a new home and the world she'd left behind. As Tima struggled to adapt to life in a new land, war overtook her homeland. Caught in the crosshairs of civil war, her family risked everything and fled their homes. Tima worked tirelessly to help them find safety, but their journey was far from easy. Although thwarted by politics, hounded by violence, and separated by vast distances, the Kurdis encountered setbacks at every turn, they never gave up hope. And when tragedy struck, Tima suddenly found herself thrust onto the world stage as an advocate for refugees everywhere, a role for which she had never prepared, but that allowed her to give voice to those who didn't have an opportunity to speak for themselves. From the jasmine-scented neighbourhoods of Damascus before the war to the streets of Aleppo during it, to the refugee camps of Europe and the leafy suburbs of Vancouver, *The Boy on the Beach* is one family's story of love, loss, and the persistent search for safe harbour in a devastating time of war.

*Word Order and Information Structure in Makhuwa-Enahara* Jenneke Van der Wal, 2009 This thesis investigates the grammar of Makhuwa Enahara a Bantu language spoken in the north of Mozambique The information structure is an influential factor in this language determining the word order and the use of special conjugations known as conjoint and disjoint verb forms The thesis consists of two parts The first part is a grammatical description of the language covering the basic properties in the phonology prosody and morphology of the nominal and verbal domain as well as an overview of the conjugational system The chapter also examines some syntactic issues such as relativisation and non verbal predication The second part is concerned with the question how syntax and information structure interact in Makhuwa Enahara The elements in a sentence are positioned before or after the verb on the basis of their information structure Elements in the preverbal domain are interpreted as more accessible functioning as topics The disjoint verb and elements in the postverbal domain form the comment The element immediately following the conjoint verb form is interpreted not just as new information but as exclusive meaning that the proposition holds for that referent and not for some other referents These data can be accounted for if insights from syntax and information structure are combined Two such approaches are discussed a cartographic model and an interface model Two interface rules are proposed to account for the interpretation of word order and the conjoint and disjoint verb forms in Makhuwa Enahara
