**Urban Canada** Professor Department of Sociology Harry H Hiller, 2014-01-16 Cities are not just locations on a map they are diverse places in which human interaction unites and divides stimulates and antagonizes is structured and resisted Bringing together 17 chapters contributed by experts in the field Urban Canada offers a composite sketch of the dynamics of urbanization and the layered structure of urban life in Canada today Updated and revised throughout this third edition incorporates cutting edge research and offers brand new chapters on urban publicspaces and urban sustainability

**Urban Canada** Harry H. Hiller, 2005 This book a succinct discussion on urban issues with specific focus on Canadian materials and the Canadian context Several features include Aboriginal urbanization in Canada extensive focus on both the rural and urban economy immigration crime and gender The overall emphasis of the text is to unite experts in the field of urban sociological issues from a Canadian perspective

**Second Promised Land** Professor Department of Sociology Harry H Hiller, 2013-10-02 Exploring the realities behind the Alberta Advantage and the redistribution of the Canadian population

*Canadian Society* Harry H. Hiller, 2000

**Urban Canada** Harry H. Hiller, 2009 Urbanization is a fact of Canadian life With approximately 80 per cent of Canadians residing in cities it is imperative that students understand the issues associated with urban living Urban Canada approaches the study of city life in two ways A demographic approach examines the movements of people to cities while a socio cultural one emphasizes the pervasiveness of urban oriented thinking culture and organization within society Urban Canada provides a succinct discussion of urban issues from a uniquely Canadian perspective

**Second Promised Land** Harry H. Hiller, 2009-05-01 Combining statistical analysis and ethnographic study Harry Hiller uncovers two waves of immigration to Alberta His innovative approach begins with the individual migrant and analyzes the relocation experience from origin to destination Through interviews with hundreds of migrants Hiller shows that migration is complex and dynamic shaped not just by what Alberta offers but also prompted by a process that begins in the region of origin which makes migration possible and helps determine whether migrants stay or return home By combining a social psychological approach with structural factors such as Alberta's transition from a regional hinterland province to its emerging role in the global system discussions of gender the internet and folk culture

**Second Promised Land** provides a multi dimensional and deeply human account of a contemporary Canadian phenomenon

**Host Cities and the Olympics** Harry H. Hiller, 2014 Rather than interpreting the Olympics as primarily a sporting event of international or national significance this book understands the Games as a civic project for the host city that serves as a catalyst for a variety of urban interests over a period of many years from the bidding phase through the event itself Traditional Olympic studies have tended to examine the Games from an outsider's perspective or as something experienced through the print media or television In contrast the focus presented here is on the dynamics within the host city understood as a community of interacting

individuals who encounter the Games in a variety of ways through support opposition or even indifference but who have a profound influence on the outcome of the Games as actors and players in the Olympics as a drama Adopting a symbolic interactionist approach the book offers a new interpretive model through which to understand the Olympic Games by exploring the relationship between the Games and residents of the host city Key analytical concepts such as framing dramaturgy the public realm and the symbolic field are introduced and illustrated through empirical research from the Vancouver 2010 Winter Games and it is shown how the social media and shifts in public opinion reflected interaction effects within the city By filling a clear lacuna in the Olympic Studies canon this book is important reading for anybody with an interest in the sociology of sport urban studies event studies or urban sociology *Canadian Society* Harry H. Hiller,1976

museum architecture and design for professionals students and museum lovers alike      **Urban Sociology** William G. Flanagan, 2010-01-16 The fifth edition of this text presents a balanced review of the ecological arguments that the urban arena produces unique experiential and urban based cultural effects while exploring the broader political and economic contexts that produce and modify the urban environment In addition to examining the urban dimensions of such topics as community formation and continuity minority and majority dynamics ethnic experience poverty power and crime it provides an analysis of the spatial distribution of population and resources with regard to the metropolitanization of the urban form and the interaction between urban concentration and development and underdevelopment From a first chapter that begins with a discussion of some of the more micrological features of the urban experience the text focuses on the significance of the more macrological cultural social organizational and political dimensions of urban change in an historical span that includes the first cities and concludes with an exploration of the implications of cyberspace transnationalism and global terrorism for the future of urban sociology While the work focuses primarily on the North American case its analytical and integrated discussion makes it applicable to urban societies in general      **Changing Neighbourhoods** Jill Grant, Alan Walks, Howard Ramos, 2020-03-15 Canadians have a right to live in cities that meet their basic needs in a dignified way but in recent decades increased inequality and polarization have been reshaping the social landscape of Canada s urban areas This book examines the dimensions and impacts of increased economic inequality and urban socio spatial polarization since the 1980s Based on the work of the Neighbourhood Change Research Partnership an innovative national comparative study of seven major cities the authors reveal the dynamics of neighbourhood change across the Canadian urban system While the heart of the book lies in the project s findings from each city other chapters provide important context Taken together they offer important understandings of the depth and the breadth of the problem at hand and signal the urgency for concerted policy responses in the decades to come      Urban Neighborhoods in a New Era Clarence N. Stone, Robert P. Stoker, 2015-09-18 For decades North American cities racked by deindustrialization and population loss have followed one primary path in their attempts at revitalization a focus on economic growth in downtown and business areas Neighborhoods meanwhile have often been left severely underserved There are however signs of change This collection of studies by a distinguished group of political scientists and urban planning scholars offers a rich analysis of the scope potential and ramifications of a shift still in progress Focusing on neighborhoods in six cities Baltimore Chicago Denver Los Angeles Phoenix and Toronto the authors show how key players including politicians and philanthropic organizations are beginning to see economic growth and neighborhood improvement as complementary goals The heads of universities and hospitals in central locations also find themselves facing newly defined realities adding to the fluidity of a new political landscape even as structural inequalities exert a continuing influence While not denying the hurdles that community revitalization still faces the contributors ultimately put forth a strong case that a more hospitable local milieu can be created for making neighborhood

policy In examining the course of experiences from an earlier period of redevelopment to the present postindustrial city this book opens a window on a complex process of political change and possibility for reform     **Home Informatics and Telematics: ICT for the Next Billion** Alladi Venkatesh, Timothy Gonzalves, Andrew Monk, Kathy Buckner, 2007-11-15 This volume represents the papers reviewed and accepted for the HOIT2007 conference held at the Indian Institute of Technology Madras in the city of Chennai India in August 2007 This volume addresses many of the major themes of current interest in the field with a particular focus on community based technologies This comprehensive book is divided into five different sections reflecting the most up to date research on computers and society     **Sociological Bulletin** Indian Sociological Society, 2007     **From Chicago to L.A.** Michael Dear, 2001-08-09 From Chicago to L A begins the task of defining an alternative agenda for urban studies and examines the case for shifting the focus of urban studies from Chicago to Los Angeles The authors experienced scholars from a variety of disciplines examine The concepts that have blocked our understanding of Southern California cities The imaginative structures that people have been using to understand and explain Los Angeles The utility of the Los Angeles School of urbanism     *From Treaty Peoples to Treaty Nation* Greg Poelzer, Ken S. Coates, 2015-07-28 Canada is a country founded on relationships and agreements between Indigenous peoples and newcomers Although recent court cases have upheld Aboriginal title rights the cooperative spirit of the treaties is being lost as Canadians engage in endless arguments about First Nations issues Each new court decision adds fuel to the debate raging between those who want to see an end to special Aboriginal rights and those who demand a return to Aboriginal sovereignty Greg Poelzer and Ken Coates breathe new life into these debates by looking at approaches that have failed and succeeded in the past and offering all Canadians from policy makers to concerned citizens realistic steps forward Rather than getting bogged down in debates on Aboriginal rights they highlight Aboriginal success stories and redirect the conversation to a place of common ground Upholding equality of economic opportunity as a guiding principle they argue that the road ahead is clear if all Canadians take up their responsibilities as treaty peoples Canada will become a leader among treaty nations     *View from the Urban Loft* Sean Benesh, 2011-10-12 As the world hurtles towards urbanization at an ever increasing pace there arises the need for further theological reflection on the city Globalization international immigration and densification in cities are having a transformative impact on the urban landscape Urban mission is at the forefront of many denominations church planting networks ministries and mission organizations yearning for citywide transformation How are we to think biblically and theologically about the city View from the Urban Loft will take readers through the development of cities throughout history act as a guide to navigating the current forces shaping urban environments and seek to uncover a theology of the city that gives Christians a rationale and a biblical understanding of the meaning and purposes of the city and then how to live in it for the glory of God     **Making Knowledge Count** Peter Harries-Jones, 1991 Largely due to the impact of human rights legislation especially in Canada the radical dissent of the 1960s has been replaced

by the more co operative framework of social advocacy Political activity is no longer necessarily radical or rooted in social class but instead expresses broad themes of cultural aspiration Consequently social activists and social scientists need a new understanding of the role of dissent in society Peter Harries Jones and the contributing authors provide that understanding in Making Knowledge Count
