***Unearthing the Nation* Nov 19 2021 Questions of national identity have long dominated China's political, social, and cultural horizons. So in the early 1900s, when diverse groups in China began to covet foreign science in the name of new technology and modernization, questions of nationhood came to the fore. In *Unearthing the Nation*, Grace Yen Shen uses the development of modern geology to explore this complex relationship between science and nationalism in Republican China. Shen shows that Chinese geologists—in battling growing Western and Japanese encroachment of Chinese sovereignty—faced two ongoing challenges: how to develop objective, internationally recognized scientific authority without effacing native identity, and how to serve China when China was still searching for a stable national form. Shen argues that Chinese geologists overcame these obstacles by experimenting with different ways to associate the subjects of their scientific study, the land and its features, with the object of their political and cultural loyalties. This, in turn, led them to link national survival with the establishment of scientific authority in Chinese society. The first major history of modern**

***Kosher Nation* Apr 17 2024 Kosher? That means the rabbi blessed it, right? Not exactly. In this captivating account of a Bible-based practice that has grown into a multibillions-dollar industry, journalist Sue Fishkoff travels throughout America and to Shanghai, China, to find out who eats kosher food, who produces it, who is responsible for its certification, and how this fascinating world continues to evolve. She explains why 86 percent of the 11.2 million Americans who regularly buy kosher food are not observant Jews—they are Muslims, Seventh-day Adventists, vegetarians, people with food allergies, and consumers who pay top dollar for food they believe “answers to a higher authority.” Fishkoff interviews food manufacturers, rabbinic supervisors, and ritual slaughterers; meets with eco-kosher adherents who go beyond traditional requirements to produce organic chicken and pasture-raised beef; sips boutique kosher wine in Napa Valley; talks to shoppers at an upscale kosher supermarket in Brooklyn; and marches with unemployed workers at the nation’s largest kosher meatpacking plant. She talks to Reform Jews who are rediscovering the spiritual benefits of kashrut, and to Conservative and Orthodox Jews who are demanding that kosher food production adhere to ethical and environmental values. And she chronicles the corruption, price-fixing, and strong arm tactics of early-twentieth-**

**Fat Nation Dec 13 2023 The diet and weight-loss industry is worth \$66 billion - billion!! The estimated annual health care costs of obesity-related illness are 190 billion or nearly 21% of annual medical spending in the United States. But how did we get here? Is this a battle we can't win? What changes need to be made in order to scale back the incidence of obesity in the US, and, indeed, around the world? Here, Jonathan Engel reviews the sources of the problem and offers the science behind our modern propensity toward obesity. He offers a plan for helping address the problem, but admits that it is, indeed, an uphill battle. Nevertheless, given the magnitude of the costs in years of life and vigor lost, it is a battle worth fighting. Fat Nation is a social history of obesity in the United States since the second World War. In confronting this familiar topic from a historical perspective, Jonathan Engel attempts to show that obesity is a symptom of complex changes that have transpired over the past half century to our food,**

**our living habits, our life patterns, our built environments, and our social interactions. He offers readers solid grounding in the known science underlying obesity (genetic set points, complex endocrine feedback loops, neurochemical messengering) but then makes the novel argument that obesity is a result of the interaction of our genes with our environment. That is, our bodies have always been programmed to become obese, but until recently never had the opportunity to do so. Now, with cheap calories ubiquitous (particularly in the form of sucrose), unwalkable physical spaces, deteriorating rituals and norms surrounding eating, and the withering of cooking skills, nearly every American daily confronts the challenge of not putting on weight. Given the outcomes, though, for those who are obese, Engel encourages us to address the problems and offers suggestions to help remedy the problem.**

**The Shame of the Nation Jul 28 2022 Since the early 1980s, when the federal courts began dismantling the landmark ruling in Brown v. Board of Education, segregation of black children has reverted to its highest level since 1968. In many inner-city schools, a stick-and-carrot method of behavioral control traditionally used in prisons is now used with students. Meanwhile, as high-stakes testing takes on pathological and punitive dimensions, liberal education has been increasingly replaced by culturally barren and robotic methods of instruction that would be rejected out of hand by schools that serve the mainstream of society. Filled with the passionate voices of children, principals, and teachers, and some of the most revered leaders in the black community, The Shame of the Nation pays tribute to those undefeated educators who persist against the odds, but directly challenges the chilling practices now being forced upon our urban systems. In their place, Kozol offers a humane, dramatic challenge to our nation to fulfill at last the promise made some 50 years ago to all our youngest citizens.**

**Dread Nation Jun 26 2022 New York Times bestseller; 6 starred reviews! At once provocative, terrifying, and darkly subversive, Dread Nation is Justina Ireland's stunning vision of an America both foreign and familiar—a country on the brink, at the explosive crossroads where race, humanity, and survival meet. Jane McKeene was born two days before the dead began to walk the battlefields of Gettysburg, Pennsylvania—derailing the War Between the States and changing the nation forever. In this new America, safety for all depends on the work of a few, and laws like the Native and Negro Education Act require certain children attend combat schools to learn to put down the dead. But there are also opportunities—and Jane is studying to become an Attendant, trained in both weaponry and etiquette to protect the well-to-do. It's a chance for a better life for Negro girls like Jane. After all, not even being the daughter of a wealthy white Southern woman could save her from society’s expectations. But that’s not a life Jane wants. Almost finished with her education at Miss Preston's School of Combat in Baltimore,**

**Jane is set on returning to her Kentucky home and doesn't pay much mind to the politics of the eastern cities, with their talk of returning America to the glory of its days before the dead rose. But when families around Baltimore County begin to go missing, Jane is caught in the middle of a conspiracy, one that finds her in a desperate fight for her life against some powerful enemies. And the restless dead, it would seem, are the least of her problems. "Abundant action, thoughtful worldbuilding, and a brave, smart, and skillfully drawn cast entertain as Ireland illustrates the ignorance and immorality of racial discrimination and examines the relationship between equality and freedom." (Publishers Weekly, "An Anti-Racist Children's and YA Reading List")**

Ancient Sites Feb 20 2022** Otto D. Batty received most of his education from parochial schools. His first nine years were at Bethlehem Christian School in Kennewick, Washington, graduated from Concordia College-High School in Portland, Oregon in 1956. He received his A.A. degree from Columbia Basin College in Pasco, Washington in 1969, and B.A. degree in Education from Pacific Lutheran University in Tacoma, Washington in 1976. Otto majored in Social Studies with a strong emphasis in History. In 1961 while in Wyoming, Otto developed a great love for the

**Scripture. Over the years, he read 23 different translations and paraphrases of the Bible. He even read the Bible backwards from Revelation to Genesis. When asked why, he simply replied, "Just for fun." However, he wouldn't do it again or recommend it, saying "It was chronologically distracting." Otto has taught many Sunday School classes to both teenagers and adults. This work emerged out of those life experiences. The more Otto read the scripture the more he became excited about what he "discovered." It was quite a surprise to him to learn so many believers had never read the whole Bible through once. Filled with a hunger to encourage others to read and find the "gems" he found in the Scripture, in 1985 he wrote and taught this Bible Study with a twist. The emphasis is on "discovering the gems," not theology or doctrine. It is fast paced, fun, and simple. Its primary purpose; to encourage believers to apply Romans 10:17, "faith comes by hearing and hearing by the Word of God."**

***Beyond the Nation-State* Mar 12 2021 A revisionist account of Zionist history, challenging the inevitability of a one-state solution, from a bold, path-breaking young scholar The Jewish nation-state has often been thought of as Zionism's end goal. In this bracing history of the idea of the Jewish state in modern Zionism, from its beginnings in the late nineteenth century until the establishment of the state of Israel, Dmitry Shumsky challenges this deeply rooted assumption. In doing so, he complicates the narrative of the Zionist quest for full sovereignty, provocatively showing how and why the leaders of the pre-state Zionist movement imagined, articulated and promoted theories of self-determination in Palestine either as part of a multinational Ottoman state (1882-1917), or in the framework of multinational democracy.
