

Doctor's Questions and Answers to Patient

What's the matter? Where's the pain? What do you complain of?

Have you taken your temperature?

For how long have you been feeling ill?

I'll measure your blood pressure.

Can I have a look? Where does it hurt?

Does it hurt here? Breath out slowly.

Show me your tongue. Poke out your tongue.

Have you got any other symptoms?

What infectious diseases have you had?

What have you eaten, drunk?

Have you been injured?

Don't worry. There's no serious problem.

I don't think it's too serious.

You've got to be vaccinated against tetanus.

I'll dress the wound and put a plaster on your arm.

You must follow a diet, you need to rest and you shouldn't worry.

Your test results have come in. The blood test came back negative.

Your blood pressure is rather high. Your blood pressure is too low.

Let me sound your back. Take a deep breath. I'll check your lungs.

Take your clothes off. I'll examine you. Let me take your pulse.

You must stay in bed and take this medicine three times a day, after meals.

Differential Diagnosis in Internal Medicine Walter Siegenthaler, 2011-01-01 Proven quality right up to date A pragmatic approach to differential diagnosis gives rapid reliable answers to these questions Which diseases are likely What causes them What are the typical characteristics of these disorders Do they correspond with the symptoms in question How can the preliminary diagnosis be confirmed Siegenthaler's new *Differential Diagnosis in Internal Medicine* guides the reader through the challenges of differential diagnosis across the spectrum of internal medicine Practice orientated learning Identify and understand key symptoms Consider the whole patient in selecting possible diseases Evaluate exclude or confirm possible diagnoses Make the correct diagnosis using an appropriate diagnostic procedure In experienced hands Professor Walter Siegenthaler brings decades of international experience in clinical practice teaching and writing on internal medicine to this new book The book also benefits from close cooperation with the leaders of the specialist internal medicine departments at the University Hospital Zurich and of other institutions and disciplines The generalist and specialist aspects of internal medicine are thereby brought together to enhance the approach to the patient Your guide to successful diagnosis The book is directed at medical students residents in most areas of medicine practitioners of internal medicine general practitioners

dermatologists neurologists and rheumatologists and those involved with the basic subjects in medicine who wish to gain competence and knowledge in internal medicine

From Symptom to Diagnosis Organized by functional system and symptom constellations Covers all fields of internal medicine plus special treatment of subjects dermatology neurology and rheumatology Typical findings and signs for differentiation of all common rare and even exotic diseases with pathophysiological background information Nearly 1000 stunning figures and many instructive table format overviews and differential diagnostic algorithms Differential diagnostic evaluation of common laboratory test results including step by step plans for further diagnosis Learn by tracing the path from symptom to diagnosis just as the physician encounters the situation in practice

The Medical Interview Mack Jr. Lipkin, J.G. Carroll, R.M. Frankel, Samuel M. Putnam, Aaron Lazare, A. Keller, T. Klein, P.K. Williams, 2012-12-06 Primary care medicine is the new frontier in medicine Every nation in the world has recognized the necessity to deliver personal and primary care to its people This includes first contact care care based in a positive and caring personal relationship care by a single healthcare provider for the majority of the patient's problems coordination of all care by the patient's personal provider advocacy for the patient by the provider the provision of preventive care and psychosocial care as well as care for episodes of acute and chronic illness These facets of care work most effectively when they are embedded in a coherent integrated approach The support for primary care derives from several significant trends First technologically based care costs have rocketed beyond reason or availability occurring in the face of exploding populations and diminishing real resources in many parts of the world even in the wealthier nations Simultaneously the primary care disciplines general internal medicine and pediatrics and family medicine have matured significantly

Unusual Diseases with Common Symptoms Anthony M. Szema, 2023-10-20 This book presents detailed case reports of unusual diseases with common symptoms many of which have emerged in the past decade because of nature advances in medical treatment and increasing recognition of specific underpinnings of human biology and immunology These rare diseases must now be considered when the usually considered diagnoses do not exactly fit the patient's clinical history or treatment fails The second edition of this text includes eighteen completely new chapters and cases Some of the diseases discussed include galactose alpha 1 3 galactose IgE meat allergy candymaker's bronchiolitis obliterans from diacetyl and Balsam of Peru contact allergic reaction from orange soda Chapters provide in depth clinical examples of a wide range of diseases affecting multiple organ systems Each case is structured by a vignette of the case background salient features of the case diagnosis treatment key points and questions answers to aid in critical thinking

Unusual Diseases with Common Symptoms A Clinical Casebook 2nd Edition follows the widely popular first edition which has over 20 000 downloads worldwide It is of great interest to practicing health care professionals as well as students and residents who will one day encounter conditions more complex than they initially appear
