Since the internet speeds went above the 500kbps mark, the number of things people can do with their interconnected devices skyrocketed. Automated homes, connected cars, and internet enabled TVs. The latter is what threatens to revolutionize the entertainment world as we know it, do away with cable TV and abolish the need for expensive blue-ray players. Even though smart TVs are so lucrative, most people find them either too costly, or limiting. The alternative would be going for a TV with an HDMI port, a USB port and purchasing a dongle to bring in the power of internet TV. Chromecast is one of the best and cheapest such tools in the market. In 2016, Americans fed up with the political process vented that frustration with their votes. Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade. Democrats nearly selected a self-described socialist who ran on a populist platform against the influence of big money in politics. While it

is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual, the truth is that we don't have to pin our hopes for greater participation on any one candidate. All of us have a say—if we learn, master and practice the skills of effective citizenship. One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America -- and will be ready to make governments work for you, not the other way around.

How do you fix your troubled adolescent? After years of working as an in-home therapist and probation officer, author William Glover grew frustrated with the conventional wisdom that said medication and/or therapy offered the only hope for angry, defiant,

unmotivated, ADHD, ADD, oppositional, defiant, drug involved, juvenile court involved, and behaviorally handicapped kids. Based on his work with adolescents and their parents, he became convinced that the solution for the majority of troubled kids resided not with the professionals, but with the parents of these children. With this as a starting point, Glover began developing "The Adolescent Owner's Manual," a unique and effective resource designed to provide parents with the practical, common-sense tools and skills essential to parenting troubled adolescents.
