Spellhacker Mar 11 2022 From the author of *The Disasters*, this genre-bending YA fantasy heist story is perfect for fans of Marie Lu and Amie Kaufman. In Kyrkarta, magic—known as maz—was once a freely available natural resource. Then an earthquake released a magical plague, killing thousands and opening the door for a greedy corporation to make maz a commodity that's tightly controlled—and, of course,

outrageously expensive. Which is why Diz and her three best friends run a highly lucrative, highly illegal maz siphoning gig on the side. Their next job is supposed to be their last heist ever. But when their plan turns up a powerful new strain of maz that (literally) blows up in their faces, they're driven to unravel a conspiracy at the very center of the spellplague—and possibly save the world. No pressure.

The Other C-Word Aug 28 2023 Can she overcome her consuming desire for him? Can he make her comfortable with the other C-word...commitment? Marley Mason is dreading the arrival of the new business consultant. After all, this man will most likely outsource her job to China. The last thing she would expect is a case of mistaken identity, leading to false accusations of kidnapping when she attempts to pick up the wrong man at the airport, or worse...that she would have such a visceral reaction to the right man. Rick Randy is super sexy, scandalously flirty and perfect masturbation material, but a relationship is out of the question. Rick is contracted on a temporary basis to fix Marley's ailing company, then pull out, although as he expresses to Marley, pulling out is difficult for him, in more ways than one! Marley's feelings range from utter confusion to intense contemplation as Rick charms his way into her life. All of those C-words Marley can control, but it's the other C-word she fears-commitment.

Combinatorial Image Analysis Jan 26 2021 This book constitutes the proceedings of the 18th International Workshop on Combinatorial Image Analysis, IWCI 2017, held in Plovdiv, Bulgaria, in June 2017. The 27 revised full papers presented were carefully reviewed and selected from 47 submissions. The workshop is organized in topical sections of theoretical foundations and theory of applications, namely: discrete geometry and topology; tilings and patterns; grammars, models and other technical tools for image analysis; image segmentation, classification; reconstruction; compression; texture analysis; bioimaging.

Long Term Economic Development Apr 11 2022 The book gives an overview of important research topics recently addressed in evolutionary Neo-Schumpeterian

Economics. The list of research questions and applications of Neo-Schumpeterian reasoning impressively demonstrates the rich possibilities ranging from theoretical issues addressing human behaviour to applied areas like the emergence of biotechnology in developing countries, the role of innovation on financial markets and the R&D strategies of multinational enterprises. The chapters in this book bring together a rich set of new analytical and empirical methodologies which allow for new relevant and rigorous insights in innovation processes which are responsible for economic development and structural change.?

The One True Me and You Feb 02 2024 Most Anticipated by: BuzzFeed * Lambda Literary * LGBTQ Reads * Bustle * Book Riot * Autostraddle * The Nerd Daily * Epic Reads * Frolic “A breezy, snappy story about fandom, friendships, and being true to yourself.”—TJ Klune One small fandom convention. One teen beauty pageant. One meet cute waiting to happen. Up and coming fanfic author Kaylee Beaumont is internally screaming at the chance to finally meet her fandom friends in real life and spend a weekend at GreatCon. She also has a side quest for the weekend: · Try out they/them pronouns to see how it feels · Wear more masculine-presenting cosplay · Kiss a girl for the first time It’s...a lot, and Kay mostly wants to lie face down on the hotel floor. Especially when her hometown bully, Miss North Carolina, shows up in the very same hotel. But there’s this con-sponsored publishing contest, and the chance to meet her fandom idols...and then, there’s Teagan. Pageant queen Teagan Miller (Miss Virginia) has her eye on the much-needed prize: the \$25,000 scholarship awarded to the winner of the Miss Cosmic Teen USA pageant. She also has secrets: · She loves the dresses but hates the tiaras · She’s a giant nerd for everything GreatCon · She’s gay If Teagan can just keep herself wrapped up tight for one more weekend, she can claim the scholarship and go off to college out and proud. If she’s caught, she could lose everything she’s worked for. If her rival, Miss North Carolina, has anything to do with it, that’s exactly how it’ll go down. When Teagan and Kay bump into one another the first night, sparks fly. Their connection is intense—as is their shared enemy. If they’re spotted, the safe space of the con will be shattered, and all their secrets will follow them home. The risks are great...but could the reward of embracing their true selves be worth it? A big-hearted, joyful romance and a love letter to all things geek, Remi K. England's *The One True Me and You* is a *witness me* celebration of standing up for, and being, yourself. “A love letter to the support of online communities, to the friendships that define you, and to the ongoing, lifelong challenge to define yourself.”—Emma Lord "This geeky rom-com is fan-tastic and i-con-ic." -Buzzfeed "Wonderfully explores the alienation and confusion felt by many LGBTQ+ teens without

verging into hopelessness...heartwarming and immensely relatable." —Kirkus Reviews *It's Bigger Than Hip Hop* Sep 28 2023 In *It's Bigger Than Hip Hop*, M. K. Asante, Jr. looks at the rise of a generation that sees beyond the smoke and mirrors of corporate-manufactured hip hop and is building a movement that will change not only the face of pop culture, but the world. Asante, a young firebrand poet, professor, filmmaker, and activist who represents this movement, uses hip hop as a springboard for a larger discussion about the urgent social and political issues affecting the post-hip-hop generation, a new wave of youth searching for an understanding of itself outside the self-destructive, corporate hip-hop monopoly. Through insightful anecdotes, scholarship, personal encounters, and conversations with youth across the globe as well as icons such as Chuck D and Maya Angelou, Asante illuminates a shift that can be felt in the crowded spoken-word joints in post-Katrina New Orleans, seen in the rise of youth-led organizations committed to social justice, and heard around the world chanting "It's bigger than hip hop."

M.K. and T. Employes' Magazine Jan 01 2024

Buck May 05 2024 "A story of surviving and thriving with passion, compassion, wit, and style."—Maya Angelou "In America, we have a tradition of black writers whose autobiographies and memoirs come to define an era. . . . Buck may be this generation's story."—NPR A coming-of-age story about navigating the wilds of urban America and the shrapnel of a self-destructing family, Buck shares the story of a generation through one original and riveting voice. MK Asante was born in Zimbabwe to American parents: his mother a dancer, his father a revered professor. But as a teenager, MK was alone on the streets of North Philadelphia, swept up in a world of drugs, sex, and violence. MK's memoir is an unforgettable tale of how one precocious, confused kid educated himself through gangs, rap, mystic cults, ghetto philosophy, and, eventually, books. It is an inspiring tribute to the power of literature to heal and redeem us.

The Disasters Jun 06 2024 The Breakfast Club meets Guardians of the Galaxy in this YA sci-fi adventure by debut author M. K. England. Hotshot pilot Nax Hall has a history of making poor life choices. So it's not exactly a surprise when he's kicked out of the elite Ellis Station Academy in less than twenty-four hours. But Nax's one-way trip back to Earth is cut short when a terrorist group attacks the Academy. Nax and three other washouts escape—barely—but they're also the sole witnesses to the biggest crime in the history of space colonization. And the perfect scapegoats. On the run, Nax and his fellow failures plan to pull off a dangerous heist to spread the truth. Because they may not be "Academy material," and they may not even get along, but they're the only ones left to step up and fight. Full of high-stakes action, subversive humor, and underdogs becoming heroes, this YA sci-fi adventure is perfect for fans of *Illuminae*, *Heart of Iron*, or the cult classic TV show *Firefly* and is also a page-turning thrill ride that anyone—not just space nerds—can enjoy.

Studies in the Synoptic Problem Jul 27 2023

Valuing Chaparral Oct 30 2023 Chaparral shrubland ecosystems are an iconic feature of the California landscape, and a highly biodiverse yet highly flammable backdrop to some of the fastest growing urban areas in the United States. Chaparral-type ecosystems are a common element of all of the world's Mediterranean-type climate regions – of which California is one – yet there is little public appreciation of the intrinsic value and the ecosystem services that these landscapes provide. *Valuing Chaparral* is a compendium of contributions from experts in chaparral ecology and management, with a focus on the human relationship with chaparral ecosystems. Chapters cover a wide variety of subjects, ranging from biodiversity to ecosystem services like water provision, erosion control, carbon sequestration and recreation; from the history of human interactions with chaparral to current education and conservation efforts; and from chaparral restoration and management to scenarios of the future under changing climate, land use, and human population. *Valuing Chaparral* will be of interest to resource managers, the research community, policy makers, and the public who live and work in the chaparral dominated landscapes of California and other Mediterranean-type climate regions.

Brain Receptor Methodologies Apr 23 2023 *Brain Receptor Methodologies: Part B Amino Acids. Peptides. Psychoactive Drugs* is the second of the two-part first volume of the *Neurobiological Research* series, which provides a comprehensive view of various subdisciplines within neurobiology. The first volume (Parts A and B) deals with the area of neurotransmitter and neuromodulator receptors in brain; future volumes will cover the subdisciplines of neuroanatomy, neurophysiology, brain-specific macromolecules, neurochemistry, and behavioral neurobiology. It is hoped that the series will be of equal value for both basic as well as clinical scientists Part B continues from Part A with the remainder of Section II, specific receptor binding methodologies. Subsection II,B deals with receptors for amino acids and neuropeptides and covers areas including GABA, glycine, carnosine, opiates, bombesin, CCK, TRH, and substance P. Amino acids probably represent the majority of brain neurotransmitter substances, at least relative to the amines and acetylcholine, although with the exception of GABA, the amino acids remain relatively uncharacterized in brain. Their further study should receive high priority.

Non-Homogeneous Boundary Value Problems and Applications Sep 16 2022 1. Our essential objective is the study of the linear, non-homogeneous problems: (1) $Pu = l$ in CD , an open set in \mathbb{R}^N , (2) $fQjtl = gj$ on am (boundary of m), lor on a subset of the boundm"J am 1

The Redwood Palace Feb 27 2021 Seventeen-year-old Plum is a young chef with high prospects -- until she gives up her career to cover for her runaway sister. Lying for

family leaves her tangled up in intrigue, and accused of poisoning the king's sister. To clear her name, Plum has to figure out who's really behind the attack. Her best hope is to make an alliance with the Hungry Ghost who haunts the palace kitchens. He'll spy for her, if she whips him up an exorcism. But researching exorcism recipes and delving into the identity of the true poisoner unearths darker plots. If Plum wants to save herself, her family, and her nation, she's going to have to cook the dish.
