Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature, and product innovation, has become the gold standard against which all other outdoor industry awards are measured.

Practical Watch Repairing Donald De Carle, 2020-02-07. Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail, a thing which has never been done so completely before in the many books on the same subject. As a text book, it is a revelation. Taking nothing for granted, except the ability to read and comprehend, a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing, and to deal with them thoroughly is quite a programme. It takes 300 pages, containing 24 chapters, two appendices, and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.
