**HAUNEBU: THE SECRET FILES** David Childress,2020-01-01 David Childress popular author and star of the History Channel show Ancient Aliens brings us the incredible tale of the German flying disk known as the Haunebu Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft craft which we would classify today as UFOs or flying saucers Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate flying saucers and submarines around the world in the decades after the end of the war This activity involving a flying saucer known as the Haunebu was particularly notable in South America but it ultimately involved all the continents of the world including Antarctica Join Childress as he shows us the secret files involving the Haunebu the Vril craft the Andromeda craft and others Includes a 16 page color section Over 120 photographs and diagrams

*Vril Or Vital Magnetism* Book Tree,1999-07 Vril is another name for the life energy of the body known in other cultures worldwide as mana prana chi or vital force Most of the ancient cultures of the world were aware of this important force and worked to make use of it In today s world especially in the West we move along through life completely oblivious to this truly vital force Although this force cannot be seen it is the life force within our bodies It takes energy from food and provides muscles with energy which in turn allows us to move about in daily life as well as grow and metabolize Nourishment digestion and elimination are all driven by the life force Vril also has a connection to the mind and methods can be employed to store up its energy and use it constructively Vril is not manufactured in the human body but can be collected and used effectively This energy is present in water and especially in the air This is why breathing is so important in the practice of meditation A deeper part of us comes alive while we meditate due to increased vital energy in the body combined with the relaxation of the mind This book is by far the best guidebook known to this mysterious and powerful force The exact mechanics of how it works are detailed plus methods of gathering conserving and using its power The exercises given are powerful and they work This is really more of a self help book than a simple fact book or mystical overview Few books have packed in so much vital information in so few pages and out of all the books we have ever seen we can safely say that no other book from the West reveals anything close to the important information found here on this subject
