The Text of Chaucer's Legend of Good Women Dec 25 2021

Love by Night Jun 23 2024 Love by Night begins with anxious hesitation and nervous attraction, grows into tender affection, blossoms into passionate love, delves deep into whimsical dreams, and finally builds an image of an idyllic future together, as the reader develops along with the two characters of this poetic story. Written as a conversation between two points of view in constant change and flux

with each other, this book invites the reader into the conversation about the love that connects one person to another, but also all of us to each other. Through this written testament to the emotional journeys books can take us on, S. K. Williams breaks down stereotypes, sexism, relationship roles, and brings awareness to mental health, grief, anxiety, depression, how to move forward, how to love in a healthy way, and, most of all, how to love yourself when it feels impossible.

Reports of Cases at Law and in Equity, Argued and Determined in the Supreme Court of Alabama Feb 12 2021

Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China Nov 16 2023 Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China is the first reference to provide the results of the first part of scientific drilling project at the Songliao Basin in the Daqing oil field, the largest known oil field in China. The project has two major objectives: one is to correlate the oceanic and continental records and determine the principal drivers of climate change in order to assist in future climate change predictions and its influence on the earth's environment. The second is to further test the theory of terrestrial genesis of hydrocarbons, and to explore the formation of intra-continental sedimentary basins, as many are major hydrocarbon provinces. In addition, this project provides the scientific basis for exploration of the Daqing Oilfields, which have a yearly production of forty million tons of oil. The world is entering a new exciting era to explore in which scientific drilling will provide a quantum leap in our understanding of its deep earth and history. Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China will play an important role in promoting scientific drilling and earth system science research. Summarizes the geological background, seismic profile, and tectonic evolution of the Songliao Basin Provides detailed information on drilling technology of SK-1, which successfully obtained ~2500m core with a recovery rate of ~95% Includes detailed core information: stratigraphic charts, core photographs, and core photograph identification tables

Let Me Be Like Water Jun 30 2022 'Intimate, ruthless, tender: this book is like medicine for the soul.' —Nina George, author of *The Little Paris Bookshop* A beautifully poignant and poetic debut about love, loss, friendship, and ultimately, starting over. Twenty-something Holly has moved to Brighton to escape her grief. But now that she's here, sitting on a bench, listening to the rolling waves, how is she supposed to fill the void her boyfriend left when he died? She had thought she wanted to be on her own. But after a chance encounter with retired, part-time baker and book-club host, Frank, she is soon adopted by a new circle of friends, and the tides begin to shift. Beautifully written, *Let Me Be Like Water* is a moving and powerful debut about loneliness, friendship, the extraordinariness hiding in everyday life.

Across the Void Dec 05 2022 A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since *Hawking II* has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back

alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, Across the Void is a moving and evocative thriller that you won't be able to put down.

The Indian Decisions (New Series) May 10 2023

Thinking, Observing and Mining the Universe May 30 2022 This is a collection of review articles and more specialized papers on the main issues of early universe physics. Both theoretical and experimental fields of research are dealt with.

Reports of Cases Determined by the Supreme Court of the State of Missouri Apr 28 2022

Stars Uncharted Nov 04 2022 In this rip-roaring space opera, a ragtag band of explorers are out to make the biggest score in the galaxy. On this space jump, no one is who they seem . . . Captain Hammond Roystan is a simple cargo runner who has stumbled across the find of a lifetime: the Hassim, a disabled exploration ship--and its valuable record of unexplored worlds. His junior engineer, Josune Arriola, said her last assignment was in the uncharted rim. But she is decked out in high-level bioware that belies her humble backstory. A renowned body-modification artist, Nika Rik Terri has run afoul of clients who will not take no for an answer. She has to flee off-world, and she is dragging along a rookie modder, who seems all too experienced in weapons and war . . . Together this mismatched crew will end up on one ship, hurtling through the lawless reaches of deep space with Roystan at the helm. Trailed by nefarious company men, they will race to find the most famous lost world of all--and riches beyond their wildest dreams . . .

The Marked Ones Feb 07 2023 Mermaids have three purposes in life: to breed, to protect their environment and to keep the knowledge of

their existence limited to pages in fairytale books. Ivyanne Court is the personification of a mermaid princess and yet she hasn't known a day's happiness since she came of age and was forced to abandon the human boy she loved, Lincoln Grey. Ivyanne has always known that she was to marry one of The Marked Ones; sons of a carefully cultivated bloodline created for the sole purpose of breeding with the royal family, but when Ivyanne returns to the Seaview Resort to live and work as a human while she chooses a merman mate, she is startled to learn that her human, Lincoln, has never left the Seaview. In fact, he is now the owner, and he has been waiting a decade for her return- to tempt the most untouchable girl in the world. But he's not the only one who won't take forbidden as an answer, and so Ivyanne's peaceful escape from palace life is about to become a wonderful nightmare of oceanic proportions!

Love from A to Z Mar 20 2024 From William C. Morris Award Finalist S.K. Ali comes an unforgettable romance that is part The Sun Is Also a Star mixed with Anna and the French Kiss, following two Muslim teens who meet during a spring break trip. A marvel: something you find amazing. Even ordinary-amazing. Like potatoes—because they make French fries happen. Like the perfect fries Adam and his mom used to make together. An oddity: whatever gives you pause. Like the fact that there are hateful people in the world. Like Zayneb's teacher, who won't stop reminding the class how "bad" Muslims are. But Zayneb, the only Muslim in class, isn't bad. She's angry. When she gets suspended for confronting her teacher, and he begins investigating her activist friends, Zayneb heads to her aunt's house in Doha, Qatar, for an early start to spring break. Fueled by the guilt of getting her friends in trouble, she resolves to try out a newer, "nicer" version of herself in a place where no one knows her. Then her path crosses with Adam's. Since he got diagnosed with multiple sclerosis in November, Adam's stopped going to classes, intent, instead, on perfecting the making of things. Intent on keeping the memory of his mom alive for his little sister. Adam's also intent on keeping his diagnosis a secret from his grieving father. Alone, Adam and Zayneb are playing roles for others, keeping their real

thoughts locked away in their journals. Until a marvel and an oddity occurs... Marvel: Adam and Zayneb meeting. Oddity: Adam and Zayneb meeting.

Bulletin Aug 21 2021

Love from Mecca to Medina May 22 2024 On the trip of a lifetime, Adam and Zayneb must find their way back to each other in this surprising and romantic sequel to the “bighearted, wildly charming” (Becky Albertalli, New York Times bestselling author) Love from A to Z. Adam and Zayneb. Perfectly matched. Painfully apart. Adam is in Doha, Qatar, making a map of the Hijra, a historic migration from Mecca to Medina, and worried about where his next paycheck will come from. Zayneb is in Chicago, where school and extracurricular stresses are piling on top of a terrible frenemy situation, making her miserable. Then a marvel occurs: Adam and Zayneb get the chance to spend Thanksgiving week on the Umrah, a pilgrimage to Mecca and Medina, in Saudi Arabia. Adam is thrilled; it’s the reboot he needs and an opportunity to pray for a hijra in real life: to migrate to Zayneb in Chicago. Zayneb balks at the trip at first, having envisioned another kind of vacation, but then decides a spiritual reset is calling her name too. And they can’t wait to see each other—surely, this is just what they both need. But the trip is nothing like what they expect, from the appearance of Adam’s former love interest in their traveling group to the anxiety gripping Zayneb when she’s supposed to be “spiritual.” As one wedge after another drives them apart while they make their way through rites in the holy city, Adam and Zayneb start to wonder: was their meeting just an oddity after all? Or can their love transcend everything else like the greatest marvels of the world?

*Safe Sep 14 2023 A kidnapped girl survived twelve nightmarish years. Now she's safely back home . . . or is she? Jenny Kristal was six years old when she was snatched off the sidewalk from her quiet suburban neighborhood. Twelve years later, she's miraculously returned home after escaping her kidnappers—but as her parents and older brother welcome her back, the questions begin to mount. Where has she been all these years? Why is she back now? And is home really the safest place for her . . . or for any of them? “Fantastically good—dark yet compellingly upbeat, and insanely suspenseful . . . Even the twists have twists.”—Lee Child, #1 New York Times bestselling author “Dark, compulsive, full of OMG moments. If you think you know where it’s going . . . YOU DON’T. This is one you won’t forget in a hurry.”—Lisa Jewell, New York Times bestselling author of *Then She Was Gone**

Non-Instantaneous Impulses in Differential Equations Sep 02 2022

This monograph is the first published book devoted to the theory of differential equations with non-instantaneous impulses. It aims to equip the reader with mathematical models and theory behind real life processes in physics, biology, population dynamics, ecology and pharmacokinetics. The authors examine a wide scope of differential equations with non-instantaneous impulses through three comprehensive chapters, providing an all-rounded and unique presentation on the topic, including: - Ordinary differential equations with non-instantaneous impulses (scalar and n-dimensional case)- Fractional differential equations with non-instantaneous impulses (with Caputo fractional derivatives of order $q \in (0, 1)$)- Ordinary differential equations with non-instantaneous impulses occurring at random moments (with exponential, Erlang, or Gamma distribution) Each chapter focuses on theory, proofs and examples, and contains numerous graphs to enrich the reader's understanding. Additionally, a carefully selected bibliography is included. Graduate students at various levels as well as researchers in differential equations and related fields will find this a valuable resource of both introductory and advanced material.

Once Upon an Eid Oct 15 2023 A joyous short story collection by and about Muslims, edited by New York Times bestselling author Aisha Saeed and Morris finalist S. K. Ali Once Upon an Eid is a collection of short stories that showcases the most brilliant Muslim voices writing today, all about the most joyful holiday of the year: Eid! Eid: The short, single-syllable word conjures up a variety of feelings and memories for Muslims. Maybe it's waking up to the sound of frying samosas or the comfort of bean pie, maybe it's the pleasure of putting on a new outfit for Eid prayers, or maybe it's the gift giving and holiday parties to come that day. Whatever it may be, for those who cherish this day of celebration, the emotional responses may be summed up in another

short and sweet word: joy. The anthology will also include a poem, graphic-novel chapter, and spot illustrations. The full list of Once Upon an Eid contributors include: G. Willow Wilson (Alif the Unseen, Ms. Marvel), Hena Khan (Amina's Voice, Under My Hijab), N. H. Senzai (Shooting Kabul, Escape from Aleppo), Hanna Alkaf (The Weight of Our Sky), Rukhsana Khan (Big Red Lollipop), Randa Abdel-Fattah (Does My Head Look Big in This?), Ashley Franklin (Not Quite Snow White), Jamilah Thompkins-Bigelow (Mommy's Khimar), Candice Montgomery (Home and Away, By Any Means Necessary), Huda Al-Marashi (First Comes Marriage), Ayesha Mattu, Asmaa Hussein, and Sara Alfageeh.

Algorithms and Computation Apr 09 2023 Annotation. This book constitutes the refereed proceedings of the 13th Annual International Symposium on Algorithms and Computation, ISAAC 2002, held in Vancouver, BC, Canada in November 2002. The 54 revised full papers presented together with 3 invited contributions were carefully reviewed and selected from close to 160 submissions. The papers cover all relevant topics in algorithmics and computation, in particular computational geometry, algorithms and data structures, approximation algorithms, randomized algorithms, graph drawing and graph algorithms, combinatorial optimization, computational biology, computational finance, cryptography, and parallel and distributed algorithms.

Saints and Misfits Dec 17 2023 Fifteen-year-old Janna Yusuf, a Flannery O'Connor-obsessed book nerd and the daughter of the only divorced mother at their mosque, tries to make sense of the events that follow when her best friend's cousin--a holy star in the Muslim community--attempts to assault her at the end of sophomore year.

Journal of the Faculty of Agriculture, Kyushu University Jan 06 2023

It Ends With You Jul 20 2021 'A darkly clever teen murder mystery [...] that succeeds in undermining everything you've come to believe and trust. S K Wright pulls off a difficult trick with apparent ease' *Crime Review* If I'd told the truth, it would have been fiction. Everyone loves

Eva. Beautiful, bright, fun, generous - she's perfect. So when her body is found in a ditch in the local woods the only thing anyone wants to know is: Who could have done this? It has to be Luke, her boyfriend. He has the motive, the means, the opportunity and he's no stranger to the police. Even though the picture is incomplete, the pieces fit. But as time passes, stories change. Who could have done this? You decide. It Ends With You is clever and compulsive. It challenges preconceptions, makes you second-guess yourself with each chapter, and it holds an uncomfortable mirror up to the way societies and systems treat outsiders.
