Let's Stop Teaching and Start Designing Learning Jun 15 2024 How can you shift from a focus on

content to the creation of active learning experiences? In this practical resource, author Jason Kennedy provides a blueprint to help you stop "teaching" and start designing learning, so you can improve students' critical thinking, decision making, problem solving, and collaboration with others, preparing them for their futures beyond school doors. The framework for learning design covers components of planning (learning targets), of instruction (the opening, learning task, skills, tools, and success criteria), and of the work session (choices, pathways, feedback, and assessment). Appropriate for teachers of any subject area, the book also offers wide variety of tools to help you implement the ideas in your own setting.

Uncommon Sense Teaching Dec 09 2023 Top 10 Pick for Learning Ladders' Best Books for Educators Summer 2021 A groundbreaking guide to improve teaching based on the latest research in neuroscience, from the bestselling author of A Mind for Numbers. Neuroscientists and cognitive scientists have made enormous strides in understanding the brain and how we learn, but little of that insight has filtered down to the way teachers teach. Uncommon Sense Teaching applies this research to the classroom for teachers, parents, and anyone interested in improving education. Topics include: • keeping students motivated and engaged, especially with online learning • helping students remember information long-term, so it isn't immediately forgotten after a test • how to

teach inclusively in a diverse classroom where students have a wide range of abilities Drawing on research findings as well as the authors' combined decades of experience in the classroom, Uncommon Sense Teaching equips readers with the tools to enhance their teaching, whether they're seasoned professionals or parents trying to offer extra support for their children's education.
