Conflict Resolution Richard Keeble, John Tulloch, Florian Zollman, 2010 Peace Journalism War and Conflict Resolution draws together the work of over twenty leading international writers, journalists, theorists, and campaigners in the field of peace journalism. Mainstream media tend to promote the interests of the military and governments in their coverage of warfare. This major new text aims to provide a definitive, up-to-date, critical, engaging, and accessible overview exploring the role of the media in conflict resolution. Sections focus in detail on theory, international practice, and critiques of mainstream media performance from a peace perspective. Countries discussed include the U.S., U.K., Germany, Cyprus, Sweden, Canada, India, Pakistan, Papua New Guinea, and the Philippines. Chapters examine a wide variety of issues, including mainstream newspapers, indigenous media, blogs, and radical alternative websites. The book includes a foreword by award-winning investigative journalist John Pilger and a critical afterword by cultural commentator Jeffery Klaehn.

Contemporary Trends in Conflict and Communication Jessica Katz Jameson, Missy F. Hannah, 2022-07-18 Contemporary Trends in Conflict and Communication Technology and Social Media examines the myriad ways conflict communication occurs in mediated spaces, whether through social media platforms such as Twitter, Facebook, and Instagram, on private social enterprise spaces, or through formal online dispute resolution (ODR) technologies. We were experiencing the increase of conflict communication in hybrid spaces prior to the COVID-19 pandemic, yet the global lockdown that shifted everyone to remote teaching, learning, and working heightened our attention to the impact of technology and social media on conflict dynamics. While social media is often implicated in the spread of alternative facts, false news, and intimidation, technology and new media also have the capacity to enhance and transform conflict communication in education, workplace, and socio-political settings. The contributors to this volume showcase cutting-edge research that helps us make sense of the times we are living in and is organized in three sections: 1. Using technology to promote dialogue and collaboration; 2. Conflict communication on social media; 3. Online conflict management in education, training, and practice. This collection is relevant to scholars of conflict studies as it highlights key trends and areas for future research to improve conflict communication, dialogue, and collaboration, and proposes ideas for using technology and social media to transform and connect rather than polarize and divide.

From Conflict Resolution to Peacebuilding Charles Hauss, 2019-11-05

From Conflict Resolution to Peacebuilding is designed to introduce students to the key concepts of conflict resolution from a real world perspective. Covering both micro and macro sites of conflict, it offers ways to resolve conflicts at all levels, from the interpersonal to the international. Starting with the notion that conflict is a fact of life, but peacebuilding is not, this text analyzes protracted conflicts and wicked problems and also tackles the harder task of how to resolve conflict and build peace. Hauss' approach to peace and conflict studies is deeply personal and richly informed. Based on a strong research base and decades of experience in the field, the book offers new paradigms for considering the intractable conflicts in our world. Each chapter provides real world examples, stories, and cases that illustrate practical work at both the grass roots and elite levels. The News Media In National And International Conflict Andrew Arno, Wimal Dissanayake, 2019-07-11

Ironically, as telecommunications technology, the embodiment of modernity, advances, bringing people in different nations into more direct contact during conflict situations, traditional cultural factors become increasingly important as differing ways of thinking and acting collide. The mass media can be seen as a factor in the creation of international conflict; they also claim many scholars are the key to control and resolution of those problems. Whichever side of the coin one chooses to look at, mass communication as cause or cure of conflict, there is no doubt that the news media are no longer peripheral players on the global scene; they are important participants whose organizational patterns of behavior, values, and motivations must be taken into account in understanding national and international conflict. In this volume, a distinguished group of authors explores the variety of ways the news media, newspapers, radio, and television are involved in conflict situations. Conflicts between the United States and Iran, India and Pakistan, and the United States and China are examined, and national level studies in Sri Lanka, Iran, Hong Kong, and the United States provide varied contexts in which the authors look at the complex

The Dynamics of Conflict Bernard S. Mayer,2012-01-20 The Dynamics of Conflict When it was published in 2000 Bernie Mayer s The Dynamics of Conflict Resolution quickly became one of the seminal works in the conflict resolution field The book bridged the gap between abstract theoretical approaches and practical handbooks and became an immensely valuable and accessible resource for experienced and novice practitioners as well as for professors and students of conflict management who needed a deep yet practical view of conflict and methods for dealing with it The Dynamics of Conflict is the second edition of Mayer s classic book While building on the strengths of the first edition this thoroughly revised and updated book keeps pace with the most current trends and research in the field and explores four key concepts interactional dynamics system dynamics culture and conflict and conflict engagement Like the first edition the focus of the new edition is on the ways we can productively think about conflict and conflict intervention rather than on specific techniques and processes Mayer presents ideas about conflict as a set of conceptual tools that build on one another and contribute to a multifaceted view of conflict and conflict intervention but that also stand on their own Filled with illustrative examples the book draws from the author s thirty years of experience with interpersonal family community organizational labor management environmental public policy and international disputes and includes instances of conflicts that have been in the news In addition this vital resource contains information on the most important work that has been done in the past decade on culture systems and conflict engagement and shows how conflict concepts apply to new technologies such as online communication and conflict resolution efforts on the Web In the concluding chapter Mayer explores how conflict intervention efforts fit into more general values about peace democracy and social justice and the personal impact that conflict work as a field has on conflict specialists

Challenges to Values-based Military Intervention Les Aspin, 1995

Europe and the MENA Region Moosa Elayah, 2022-04-25 This book provides an overview of the National Dialogue design process in fragile settings at the national regional and international levels in the MENA region It provides a comparative analysis at the international level by examining the Yemeni NDC 2013 with those of Afghanistan and Ethiopia and at the regional level focusing on Iraq and Tunisia It also goes beyond

the traditional exploration of political and social conflicts by adding a rich theoretical layer of analysis of Humanitarian Aid and its contribution to war economies in the Arab region Finally it examines the news frames used in the coverage of the conflicts in the Middle East and North Africa and takes one step further to integrate a media lens by analysing the extent of the media coverage devoted to the Yemeni and Syrian wars by four prestigious European online news platforms This incisive book presents a radical contrast between the on ground reality of the conflicts in the region distinguished by various social political economic geographic and humanitarian challenges and its discordant abstract portrayal in European online media
