Looking for a way to reduce your environmental impact? Find your route to a more sustainable lifestyle with Dick Strawbridge and his son James. We can all take steps to reduce our carbon footprint and be more self-sufficient. For some, that might mean heading to the countryside to live off the land. For the rest of us, the reality might involve smaller, but no less important, lifestyle changes: cutting back on plastic or food waste, growing vegetables, preserving meat and fish, preparing jams and chutneys, baking sourdough bread, making your own plant-based milks, or keeping a chicken or two. Dick and James Strawbridge know what it's like to make these changes. Between them, they've lived on a smallholding, in a terraced house, and even a chateau. In this updated book, they share everything they've learned and give you the tools you need for a more rewarding and environmentally-conscious life. Whether you want to completely revamp your lifestyle or just make everyday changes that will make an impact, Self-Sufficiency for the 21st Century is the perfect place to start. Balakrishnan's Managerial Accounting 1st edition presents accounting information in the context of business decision making. It combines the traditional topics of managerial accounting with a strategic framework that shows students how to construct decision models and measure information. By linking business decisions with accounting information students will be motivated to learn and make more informed decisions.
