**In Their Own Voices** Rita James Simon, Rhonda M. Roorda, 2000 Nearly forty years after researchers first sought to determine the effects if any on children adopted by families whose racial or ethnic background differed from their own the debate over transracial adoption continues In this collection of interviews conducted with black and biracial young adults who were adopted by white parents the authors present the personal stories of two dozen individuals who hail from a wide range of religious economic political and professional backgrounds How does the experience affect their racial and social identities their choice of friends and marital partners and their lifestyles In addition to interviews the book includes overviews of both the history and current legal status of transracial adoption *In Their Parents' Voices* Rita J. Simon, Rhonda M. Roorda, 2007-10-06 Rita J Simon and Rhonda M Roorda s *In Their Own Voices Transracial Adoptees Tell Their Stories* shared the experiences of twenty four black and biracial children who had been adopted into white families The book has since become a standard resource for families and practitioners Now in this sequel we hear from the parents of these remarkable families and learn what it was like for them to raise children across racial and cultural lines Simon and Roorda s candid interviews shed light on the issues these parents encountered while raising their children and reveal whether they received adequate preparation and training from social work professionals and adoption agencies The authors explore what role race played during thirty plus years of parenting what lessons these parents learned about themselves and whether they would recommend transracial adoption to others Combining trenchant historical and political data with absorbing firsthand narratives Simon and Roorda once more bring a unique scholarly and human dimension to the literature on transracial adoption

**In Their Siblings' Voices** Rita J. Simon, Rhonda M. Roorda, 2009-05-20 *In Their Siblings' Voices* shares the stories of twenty white non adopted siblings who grew up with black or biracial brothers and sisters in the late 1960s and 1970s Belonging to the same families profiled in Rita J Simon and Rhonda M Roorda s *In Their Own Voices Transracial Adoptees Tell Their Stories* and *In Their Parents' Voices Reflections on Raising Transracial Adoptees* these siblings offer their perspectives on the multiracial adoption experience which for them played out against the backdrop of two tumultuous politically charged decades Simon and Roorda question whether professionals and adoption agencies adequately trained these children in the challenges presented by blended families and they ask if after more than thirty years race still matters Few books cover both the academic and the human dimensions of this issue *In Their Siblings' Voices* helps readers fully grasp the dynamic of living in a multiracial household and its effect on friends school and community

**Intercountry Adoptees Tell Their Stories** Heather Ahn-Redding, Rita James Simon, 2007 *Intercountry Adoptees Tell Their Stories* reflects the thoughts and experiences of adult transracial adoptees The authors conducted in depth interviews in order to understand and examine the adoptees The men and women interviewed in this study offer the readers a detailed

and personal glimpse into their worlds They represent a range of positive and negative adoption stories and describe the complexities of ethnic identity formation *In Their Voices* Rhonda M. Roorda, 2015-11-03 While many proponents of transracial adoption claim that American society is increasingly becoming color blind a growing body of research reveals that for transracial adoptees of all backgrounds racial identity does matter Rhonda M Roorda elaborates significantly on that finding specifically studying the effects of the adoption of black and biracial children by white parents She incorporates diverse perspectives on transracial adoption by concerned black Americans of various ages including those who lived through Jim Crow and the Civil Rights era All her interviewees have been involved either personally or professionally in the lives of transracial adoptees and they offer strategies for navigating systemic racial inequalities while affirming the importance of black communities in the lives of transracial adoptive families *In Their Voices* is for parents child welfare providers social workers psychologists educators therapists and adoptees from all backgrounds who seek clarity about this phenomenon The author examines how social attitudes and federal policies concerning transracial adoption have changed over the last several decades She also includes suggestions on how to revise transracial adoption policy to better reflect the needs of transracial adoptive families Perhaps most important *In Their Voices* is packed with advice for parents who are invested in nurturing a positive self image in their adopted children of color and the crucial perspectives those parents should consider when raising their children It offers adoptees of color encouragement in overcoming discrimination and explains why a race neutral environment maintained by so many white parents is not ideal for adoptees or their families

**Adoption Matters** Sally Anne Haslanger, Charlotte Witt, 2005 As a social and legal institution of family formation and as a personal experience of members of the adoption triad adoption provides a fresh vantage point on an important set of philosophical and feminist issues The family is often thought to be the basic and natural form of social life for human beings adoption however highlights the powerful role that law and politics play in shaping families and our ideas about families As a result attention to the practices of adoption sheds light upon deeply held but often tacit assumptions about what is natural and what is social in human life from the Introduction The institution of adoption has come under increasing scrutiny in recent years as the adoption world has undergone seismic shifts the rise in international and transracial adoptions and the effects of global economics adoption by gays and lesbians increasing openness in the adoption process and changes in domestic welfare policy on adoption *Adoption Matters* adds to our understanding of reproduction parenting familial bonds personal identity self knowledge and contemporary social policy The contributors to *Adoption Matters* explore a range of related topics such as the manner in which interracial or international adoption affects the way we perceive the relationships among race ethnicity and culture and how class affects one's life prospects and choices In this distinctive collection of essays the authors illuminate adoption by bringing feminist theory to bear on it and they expand and enrich feminist theory by making it respond to their own personal experience as adoptive parents or as adoptees Joan Heifetz Hollinger Boalt Hall School of Law University of

California Berkeley editor of *Adoption Law and Practice* and coeditor of *Families by Law: An Adoption Reader*. *Adoption Matters* courageously examines how adoption influences and challenges our society's understanding of the intersection of family and identity, an intersection that is both deeply personal and highly political. Abigail Garner, author of *Families Like Mine: Children of Gay Parents Tell It Like It Is*. **In Their Siblings' Voices** Rita James Simon, Rhonda M. Roorda, 2009. This book provides a gateway to understanding the emotional and social adjustments that siblings of transracially adopted children make in blended families. An indispensable resource for parents who are considering or have adopted transracially for professionals who advise adoptive parents and for teachers of children in families formed through transracial adoption.

*Goethe-Wörterbuch* Rita James Simon, Rhonda M. Roorda, 2007. Rita J. Simon and Rhonda M. Roorda's *In Their Own Voices: Transracial Adoptees Tell Their Stories* shared the experiences of twenty-four black and biracial children who had been adopted into white families. The book has since become a standard resource for families and practitioners. Now in this sequel we hear from the parents of these remarkable families and learn what it was like for them to raise children across racial and cultural lines. Simon and Roorda's candid interviews shed light on the issues these parents encountered while raising their children and reveal whether they received adequate preparation and training from social work professionals and adoption agencies. The authors explore what role race played during thirty-plus years of parenting, what lessons these parents learned about themselves, and whether they would recommend transracial adoption to others. Combining trenchant historical and political data with absorbing firsthand narratives, Simon and Roorda once more bring a unique scholarly and human

dimension to the literature on transracial adoption. *Native American Transracial Adoptees Tell Their Stories* Rita James Simon, Sarah Hernandez, 2008. This study focuses on the lives of Native American transracial adoptees and their struggle to establish a healthy sense of cultural identity while being raised in non-Native homes. The twenty participants in this study focus on what methods their adoptive parents used or, in some cases, did not use to help them establish their own sense of cultural identity. In the end, most participants agreed that adoptive parents can help their adoptive child establish a healthy sense of cultural identity by nurturing a connection between their child and their child's tribal community. **Resisting**

**Reality** Sally Anne Haslanger, 2012-10-25. In this collection of previously published essays, Sally Haslanger draws on insights from feminist and critical race theory and on the resources of contemporary analytic philosophy to develop the idea that gender and race are positions within a structure of social relations. Explicating the workings of these interlocking structures provides tools for understanding and combatting social injustice. *Encouraging and Supporting Student Inquiry* Harriet S. Selverstone, 2007-09-30. Assignments that engage students in inquiry topics of their own choosing contribute to motivation and thus to learning. Very often the topics chosen, particularly by high school students, are considered controversial by school administration, parents, community organizations, and others. This practical book discusses the processes, actions, and policies needed to support and encourage high school students in that type of inquiry. Building trusting relationships over time with

administration and the school community will be stressed as a way to build a community of true inquiry in your school and library Classroom teachers and high school librarians will value the advice and scaffolding techniques presented that will enable their school and high school library to become a safe place for student inquiry into issues of their own choosing controversial or not The author draws on her 30 plus years as a high school librarian deeply concerned with the intellectual freedom of the researchers in her library media center and with offering help and reassurance to those trying to implement school library programs that allow all voices to be heard Grades 9 12

Blue-Ribbon Babies and Labors of Love Christine Ward Gailey,2010-02-01 Most Americans assume that shared genes or blood relationships provide the strongest basis for family What can adoption tell us about this widespread belief and American kinship in general Blue Ribbon Babies and Labors of Love examines the ways class gender and race shape public and private adoption in the United States Christine Ward Gailey analyzes the controversies surrounding international public and transracial adoption and how the political and economic dynamics that shape adoption policies and practices affect the lives of people in the adoption nexus adopters adoptees birth parents and agents within and across borders Interviews with white and African American adopters adoption social workers and adoption lawyers combined with her long term participant observation in adoptive communities inform her analysis of how adopters beliefs parallel or diverge from the dominant assumptions about kinship and family Gailey demonstrates that the ways adoptive parents speak about their children vary across hierarchies of race class and gender She shows that adopters notions about their children s backgrounds and early experiences as well as their own family values influence child rearing practices Her extensive interviews with 131 adopters reveal profoundly different practices of kinship in the United States today Moving beyond the ideology of blood is thicker than water Gailey presents a new way of viewing kinship and family formation suitable to times of rapid social and cultural change

**Multiracial Families** Julianna Fields, 2015-02-03 What kind of challenges do multiracial families face What issues do families deal with when the mother and father are of different races and the children are a mixture of the two What about when the parents are of one race but have adopted children of another Some of their challenges are the same as those facing families who are the same race of course but there are others that

arise because of the families multiracial nature Do family members have trouble understanding what each other are going through because they do not share racial background What about culture should they celebrate their different races holidays separately or blend them together to create new traditions These are the kinds of questions the families in this book frequently face What they have learned from their experiences can help us as well as we relate to people of different cultures

Weaving a Family Barbara Katz Rothman,2006-05-01 Weaving together the sociological the historical and the personal Barbara Katz Rothman looks at the contemporary American family through the lens of race race through the lens of adoption and all race family and adoption within the context of the changing meanings of motherhood Multiracial America Karen E. Downing,Darlene P. Nichols,Kelly Webster,2005 Multiracial America addresses a growing interest in interracial people and relationships in America Over the past decade there have been numerous books and articles written on interracial issues Despite the rampant growth in publishing locating these often scattered and inaccessible materials remains a challenge This resource guide provides easy access to the available literature Topical chapters on the most often researched themes are included such as core historical literature books for children and young adults hot button issues passing identification appearance fitting in and blood quantification interracial dating and marriage families adoption and issues pertaining to race and queer sexuality Each chapter includes a brief discussion of the literature on the topic including historical context and comments on the breadth and depth of the available literature and followed by annotations of books popular and scholarly journals magazines and newspaper articles videos films and websites Other useful sections include a chapter on the depiction of interracial relationships in film teaching an interracial issues course and how to search for materials given changing terminology and classification issues Indexes by race and non print media are included Helping Those Experiencing Loss Robert J. Grover Professor Emeritus,Susan G. Fowler,2011-07-13 This book provides a guide for grieving youth and adults as well as extensive descriptive lists of recommended professional literature resources Grief caused by loss is both a very common human experience and a highly individualized one For example children experience a number of losses that are unique to their young age such as sibling and parent death adoption or divorce and should be given special consideration by professionals and parents helping them in these situations For gay lesbian or cohabiting heterosexual couples that suffer the loss of a partner societal standards often deny the survivors in these relationships the right to grieve Helping Those Experiencing Loss A Guide to Grieving Resources is a book like no other supplying compassionate information for navigating the emotional distress that every man and woman will experience in their lifetime as well as a comprehensive guide to the literature of bereavement and grieving It explains the grieving process interpreting the results of research on the topic in plain language and addressing specific groups children young adults parents who have lost a child adults who have lost spouses and the aging population *The Family in America [2 volumes]* Joseph M. Hawes,Elizabeth F. Shores,2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and

researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change **Journeys After Adoption** Jayne E. Schooler, Betsie L. Norris, 2002-07-30 The authors offer insight into the concerns issues joys and pain experienced by those who lives are framed by adoption
