**Supporting Online Students** Feb 24 2021 Supporting Online Students shows how effective and efficiently delivered support services improve academic success and course retention for online learners. Drawing on a decade's worth of research, Anita Crawley describes the scope of services from admissions and registration to advising and student engagement. The book includes guidelines and standards, planning and implementation, innovative practices, and describes specialized services needed by particular online student groups. "Effective student support is the single most important factor in sustaining high-quality online learning programs. Anita Crawley presents the most effective guide to achieving that success. Her book is a blueprint for building thriving online programs through comprehensive student support." Ray Schroeder, director, Center for Online Learning, Research and Service, University of Illinois Springfield "As distance learning continues to grow, this book addresses the often neglected other side of the coin: online student services. This book provides a great introduction and overview of the research, literature, and innovative practices for planning, implementing, and evaluating support services for online learners." George Steele, director, eStudent Services, OhioLearns "Anita Crawley has crafted a splendid volume on a topic of increasing importance in contemporary higher education. Her book promises to be the foundational piece for those who work with students in an online environment. Her thinking and analysis are superb and undoubtedly will provide the basis upon which to develop online programs and

services in the future." John H. Schuh, Distinguished Professor of Educational Leadership and Policy Studies Emeritus, Iowa State University "Bringing together extensive examples of innovative practices, summaries of current research, and a wealth of experience in student services, Anita Crawley's comprehensive guide to supporting online students is a rich resource for institutions with existing, growing, or new online programs. Measurement Methodologies to Assess the Effectiveness of Global

Online Learning Sep 01 2021 While online learning was an existing practice, the COVID-19 pandemic greatly accelerated its capabilities and forced educational organizations to swiftly introduce online learning for all units. Though schools will not always be faced with forced online learning, it is apparent that there are clear advantages and disadvantages to this teaching method, with its usage in the future

cemented. As such, it is imperative that methods for measuring and assessing the effectiveness of online and blended learning are examined in order to improve outcomes and future practices. *Measurement Methodologies to Assess the Effectiveness of Global Online Learning* aims to assess the effectiveness of online teaching and learning in normal and pandemic situations by addressing challenges and opportunities of adoption of online platforms as well as effective learning strategies, investigating the best pedagogical practices in digital learning, questioning how to improve student motivation and performance, and managing and measuring academic workloads online. Covering a wide range of topics such as the future of education and digital literacy, it is ideal for teachers, instructional designers, curriculum developers, educational software developers, academics, researchers, and students.
