This book will take the reader on a journey to the early 1900's when the first man, Prophet Noble Drew Ali, did bring to the so called Negro, black, and colored, the first light of our lost knowledge of the east and founded the first Islamic organization in the United States. He would reveal to us our true identity of the Moabites whom are the Heralded Moors and he would teach us that we are not Negroes, Black Folks or Colored people because these names allude to slavery as they still do today. This is the first time in history that a book was dedicated to giving a public accounting of the history of Noble Drew Ali and the Moorish Science Temple of America insofar as the origins, the efflorescence, and the schism of the movement and the state of the Moorish nation today. This book is based on the theory that the black Muslim movement was created from the knowledge of the Masonic order. In the early decades of the 20th century, noble drew ali established a political and religious organization known today as the Moorish Science Temple of America. It was this organization that exposed black to something other than the normal Christian influences of that day. Ali a high degree freemason, incorporated various Masonic teachings from an auxiliary group. Known as the AEAONMS ancient Egyptian Arabic order of noble of the mystic shrine A pseudo Islamic/Arabic oriental organization that served as a wake up call to a lost knowledge. A knowledge that was taken away from Africans during the slave trades. The theory behind this book is that the majority of the slaves that were taken from the west coast of Africa were practicing Muslims, and these Muslims were forced to convert to Christianity under the strong oppression of slavery. At one time Afro-Americans were the biggest minority in the American society. About 90% of the todays population of blacks are descendants of slaves that were brought to America for working on plantations since the 16th century. At the beginning of the 19th century most of the so-called Negroes lived in the plantation areas of the Southern States. After the Civil War and the abolition of slavery it wasnt until the early 1920s and 30s that blacks were beginning to experiment with other faiths. Of all the faiths Islam became the fastest growing religion and the most popular. This book by far is in no way a research into black history, instead it covers a more deeper aspect of history in which I call the history behind the history. It explores the true Asiatic origins of the ancient religions of Hinduism, Buddhism well as the Islamic faith. Finally It explores the Masonic symbolisms of alis Moorish science dogma digging deeper into the esoteric side of his Aquarian/Masonic teaching explaining their origins and discovering an age old wisdom that had been kept hidden from the human eye. One would think that Africans in the Americas would have rejected the religious tradition of their European oppressors taking into consideration that African religions are far older & they possess more sources of knowledge & spiritual salvation. Yet there are those who have turned away from traditional Christian dominated environments in order to find a greater understanding of themselves and the world in which they live. One alternative has been to seek knowledge in the various religious groups that arose in the 20th century. Reproduction of an original printing of the Circle 7 Koran. This 1926 edition pre-dates the incorporation of the Moorish Science Temple of the Moorish Science Temple of America. A Moorish American artifact. "Citizenship is salvation," preached Noble Drew Ali, leader of the Moorish Science Temple of America in the early twentieth century. Ali's message was an aspirational call for black Americans to undertake a struggle for recognition from the state, one that would both ensure protection for all Americans through rights guaranteed by the law and correct the unjust implementation of law that prevailed in the racially segregated United States. Ali and his followers took on this mission of citizenship as a religious calling, working to carve out a place for themselves in American democracy and to bring about a society that lived up to what they considered the sacred purpose of the law. In *The Aliites*, Spencer Dew traces the history and impact of Ali's radical fusion of law and faith. Dew uncovers the influence of Ali's teachings, including the many movements they inspired. As Dew shows, Ali's teachings demonstrate an implicit yet critical component of the American approach to law: that it should express our highest ideals for society, even if it is rarely perfect in practice. Examining this robustly creative yet largely overlooked lineage of African American religious thought, Dew provides a window onto religion, race, citizenship, and law in America. The Federal Bureau of Investigation has had a long and tortuous relationship with religion over almost the entirety of its existence. As early as 1917, the Bureau began to target religious communities and groups it believed were hotbeds of anti-American politics. Whether these religious communities were pacifist groups that opposed American wars, or religious groups that advocated for white supremacy or direct conflict with the FBI, the Bureau has infiltrated and surveilled religious communities that run the gamut of American religious life. *The FBI and Religion* recounts this fraught and fascinating history, focusing on key moments in the Bureau's history. Starting from the beginnings of the FBI before World War I, moving through the Civil Rights Movement and the Cold War, up to 9/11 and today, this book tackles questions essential to understanding not only the history of law enforcement and religion, but also the future of religious liberty in America. This pamphlet or booklet is a humble attempt by the author to shine the light of Al-Islaam, the Holy Qur'an and the language of Imaam W. Deen Mohammed on the teachings and lessons of one Noble Drew Ali. It is my sincere belief that the Holy Scriptures are interconnected and that the Holy Qur'an is the last chapter and the key to understanding all scriptures. I use the spelling Imaam for Imam, Islaam for Islam because I believe it gives the novice a better sense of how the words should be pronounced. In this booklet I use the name Sharif Abdul Ali for Noble Drew Ali in many instances Beginning with Latin America in the fifteenth century, this book, first published in 2005, is a social history of the experiences of African Muslims and their descendants throughout the Americas, including the Caribbean. The record under slavery is examined, as is the post-slavery period into the twentieth century. The experiences vary, arguably due to some extent to the Old World context. Muslim revolts in Brazil are also discussed, especially in 1835, by way of a nuanced analysis. The second part of the book looks at the emergence of Islam among the African-descended in the United States in the twentieth century, with successive chapters on Noble Drew Ali, Elijah Muhammad, and Malcolm X, with a view to explaining how orthodoxy arose from varied unorthodox roots. The just-discovered story of how two enigmatic circus performers and the cultural ferment of the Gilded Age sparked the Black Muslim movement in America. Delving into new archives and uncovering fascinating biographical narratives, secret rituals, and hidden identities, historian Jacob Dorman explains why thousands of Americans were enthralled by the Islamic Orient, and why some came to see Islam as a global antiracist movement uniquely suited to people of African descent in an era of European imperialism, Jim Crow segregation, and officially sanctioned racism. The Princess and the Prophet tells the story of the Black Broadway performer who, among the world of Arabian acrobats and equestrians, Muslim fakirs, and Wild West shows, discovered in Islam a greater measure of freedom and dignity, and a rebuttal to the racism and parochialism of white America. Overturning the received wisdom that the prophet was born on the East Coast, Dorman has discovered that Noble Drew Ali was born Walter Brister in Kentucky. With the help of his wife, a former lion tamer and "Hindoo" magician herself, Brister renamed himself Prophet Noble Drew Ali and founded the predecessor of the Nation of Islam, the Moorish Science Temple of America, in the 1920s. With an array of profitable businesses, the "Moors" built a nationwide following of thousands of dues-paying members, swung Chicago elections, and embedded themselves in Chicago's dominant Republican political machine at the height of Prohibition racketeering, only to see their sect descend into infighting in 1929 that likely claimed the prophet's life. This fascinating untold story reveals that cultures grow as much from imagination as inheritance, and that breaking down the artificial silos around various racial and religious cultures helps to understand not only America's hidden past but also its polycultural present. In 1928, Noble Drew Ali attended the Pan-American Conference in Havana, Cuba. At said conference, our Prophet received from the nations of America the mandate recognizing the Moors' claim to the Americas, and simultaneously, the expiration of the European mandate to occupy Moorish lands in the Western Hemisphere. The issuance and invocation of this Official Proclamation of Real Moorish American Nationality serves as constructive notice to the nations of the world: The Moors are back. "When Joseph Nathaniel Beckles registered for the draft in the 1942, he rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute "Ethiopian Hebrew." "God did not make us Negroes," declared religious leaders in black communities of the early twentieth-century urban North. They insisted that so-called Negroes are, in reality, Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity, and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science Temple, the Nation of Islam, Father Divine's Peace Mission Movement, and a number of congregations of Ethiopian Hebrews, Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided, but also in the novel ways they formulated a religio-racial identity. Arguing that members of these groups understood their religious and racial identities as divinely-ordained and inseparable, the book examines how this sense of self shaped their conceptions of their bodies, families, religious and social communities, space and place, and political sensibilities. Weisenfeld draws on extensive archival research and incorporates a rich array of sources to highlight the experiences of average members."--Publisher's description. Mafuz El Bey Drawing upon his teachings over the past 13 years and following up on his previous six titles, Grand Sheik Kudjo Adwo El goes in on the importance of keeping the instructions of the Noble Prophet Drew Ali in the forefront of this Divine and National Movement. Prophet Noble Drew Ali: Saviour of Humanity is the first book about the life of Noble Drew Ali written from an insider of the Moorish movement, providing documentation not yet seen by the public eye. This is arguably the greatest and most comprehensive work on the founder of the Moorish movement in America. The author meticulously and responsibly immerses the reader into the life and labor of the Moorish American Prophet, giving an accurate, detailed, and intimate view of the scope and breadth of his work. The book is a treasure for Moorish Americans and researchers alike. Peter Lamborn Wilson proposes a set of heresies, a culture of resistance, that dispels the false image of Islam as monolithic, puritan, and two-dimensional. Here is the story of the African-American noble Drew Ali, the founder of "Black Islam" in this country, and of the violent end of his struggle for "love, truth, peace, freedom, and justice." Another essay deals with Satan and "Satanism" in Esoteric Islam; and another offers a scathing critique of "Authority" and sexual misery in modern Puritanist Islam. "The Anti-caliph" evokes a hot mix of Ibn Arabi's tantric mysticism and the revolutionary teachings of the "Assassins." The title essay, "Sacred Drift," roves through the history and poetics of Sufi travel, from Ibn Khaldun to Rimbaud in Abyssinia to the Situationists. A "Romantic" view of Islam is taken to radical extremes; the exotic may not be "True," but it's certainly a relief from academic propaganda and the obscene banality of simulation. "This is my brand of Islam: insurrectionary, elegant, dangerous, suffused with light – a search for poetic facts, a donation from and to the tradition of spiritual anarchy." —Hakim Bey "Peter Lamborn Wilson, in his book Sacred Drift: Essays on the Margins of Islam, offers an interesting window into the early evolution of Islamic ideas among African Americans." —Abbas Milani, New Republic Peter Lamborn Wilson lives in New York and works for Semiotext(e) magazine, Pacifica Radio, and the Jack Kerouac School of Disembodied Poetics. A long decade in the Orient (1968-1981) inspires his writing, including The Drunken Universe: An Anthology of Persian Sufi Poetry and Scandal: Essays in Islamic Heresy. He also investigates Celtic psychoactive plants in his book Ploughing the Clouds which is also published by City Lights Publishers. This book reveals, for the first time in public in over 80 years, Noble Drew Ali's civic/political agenda; the singular mechanism he used to achieve his meteoric rise to international prominence in only three years. It is an essential, no-nonsense collection of Moorish American gems that portray the movement, as originally intended; in an insightful, intelligent way. The history, work and success of Elijah Muhammad is a classic example. Although during the great migration of blacks from the south to the north, many attempts were made to address their plight in the inner cities, the true solution went unaddressed until Master Fard Muhammad (God in person) came and raised up, then taught Elijah Muhammad how to raise the mentally dead so-called Negroes of America. The book lays out interesting arguments which enables the reader to see the clear evidence. The Fruit never falls far from the tree from whence it came.
