Eddy, 2020-12-03 This book provides an overview of the ACCESS program a mental health program that has been developed and tested as an efficacious treatment for college students with ADHD This program is at the cutting edge of clinical research incorporating treatment strategies that allow for dissemination in real world settings in order to effectively assist college students experiencing difficulties in their academic personal social and emotional functioning As cognitive behavioral approaches have proved to be the most successful psychological treatments to date the techniques in this volume follow that model in a detailed and nuanced fashion The authors provide a week by week breakdown of the program supplemented by handouts and worksheets designed to facilitate better understanding of the areas targeted by the program Filling a notable gap in research addressing the ADHD college student population CBT for College Students with ADHD is a crucial resource for campus mental health practitioners as well as a broad range of clinicians dealing with emerging adults

The Tomorrow Code Brian Falkner, 2009-07-28 The end of the world started quietly enough for Tane Williams and Rebecca Richards Tane and Rebecca aren't sure what to make of it a sequence of 1s and 0s the message looks like nothing more than a random collection of alternating digits Working to decode it however they discover that the message contains lottery numbers lottery numbers that win the next random draw More messages follow and slowly it becomes clear the messages are being sent from Tane and Rebecca's future Something there has gone horribly wrong and it's up to them to prevent it from happening The very survival of the human race may be at stake A terrifying SF page turner Booklist A tautly constructed plot Fast paced and all too realistic This technothriller offers gearhead ecowarriors everything including a hugely satisfying ending Kirkus Reviews A Top 10 Kid's Indie Next Winter Pick A Junior Library Guild Selection

Conservation Genetics in Mammals Jorge Ortega, Jesus E. Maldonado, 2020-01-24 This book focuses on the use of molecular tools to study small populations of rare and endangered mammals and presents case studies that apply an evolutionary framework to address innovative questions in the emerging field of mammalian conservation genomics using a highly diverse set of novel molecular tools Novel and more precise

molecular technologies now allow experts in the field of mammology to interpret data in a more contextual and empirical fashion and to better describe the evolutionary and ecological processes that are responsible for the patterns they observe. The book also demonstrates how recent advances in genetic genomic technologies have been applied to assess the impact of environmental anthropogenic changes on the health of small populations of mammals. It examines a range of issues in the field of mammalian conservation genomics such as the role that the genetic diversity of the immune system plays in disease protection and local adaptation, the use of noninvasive techniques and genomic banks as a resource for monitoring and restoring populations, the structuring of population by physical barriers and genetic diversity. Further, by integrating research from a variety of areas including population genetics, molecular ecology, systematics, and evolutionary and conservation biology, it enables readers to gain a deeper understanding of the conservation biology of mammals that are at increasing risk of extinction at local, regional, and global scales. As such, it offers a unique resource for a broad readership interested in the conservation biology of mammals and conservation management strategies to better preserve biodiversity.

**The Higher Learning in America** Thorstein Veblen, 1918     Embryology of the Ovary and Testis Gertrude Van Wagenen, Miriam Elizabeth Simpson, 1965     Finding the YOU in Motherhood Planner for New Moms Alecia Wilson, 2021-08-25 I created this planner as a tool for the mom who is ready to reclaim her joy and balance in motherhood. The mental health of the mom impacts all areas of household dynamics. Our mental health can have an impact on our spouses and children. When you become a mom, there is a tendency to neglect yourself. The results of this neglect are huge on your mental health. I created this planner as a helpful part of your journey to better. This planner is helpful for the overwhelmed momma who is at her wits' end. For the frustrated momma who doesn't know what to do next, and for the momma who has lost herself and is ready to be the best version of herself, not only for herself but for her family as well. YOU have more power than you realize to impact your mental health. So let's start your journey.

Egrets and Hippos Kevin Cunningham, 2016-08-01 The Better Together series presents an introductory look at some of nature's most exciting cooperative pairs. Egrets and Hippos explores the close mutualistic relationship between the two animals. Sidebars encourage readers to engage in the material by asking deeper questions or conducting individual research. Full color photos, a glossary, and a listing of additional resources all enhance the learning experience.

**Nineteenth-Century Cities** Richard Sennett, Stephan Thernstrom, 1969-01-01 Research on the frontiers of urban studies was the subject of a conference on nineteenth century cities held in November 1968 at Yale University. These papers from the conference attempt to define what is coming to be known as the new urban history. The cities studied range from small communities such as Springfield, Massachusetts and Poughkeepsie, New York to giants like Philadelphia, Chicago, and Boston. While the majority of the contributions deal with American cities, four essays examine cities in Canada, England, France, and Colombia. The studies focus on the dimensions of mobility and stability in the social structure of nineteenth century cities. Within this general frame, the essays explore such areas as urban patterns of class stratification.

changing rates of occupational and residential mobility social origins of particular elite groups the relations between political control and social class differences in opportunities for various ethnic groups and the relationships between family structure and city life In all these fields the authors relate sociological theory to the historical materials a complex yet readable interdisciplinary portrait of the origins of modern city life is the result
