The Witness of the Stars Ethelbert William Bullinger, 2020-09-28 Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston of Keswick and to carry on a correspondence with her with respect to her work Mazzaroth or the Constellations She was the first to create an interest in this important subject Since then Dr Seiss of Philadelphia has endeavoured to popularize her work on the other side of the Atlantic and brief references have been made to the subject in such books as Moses and Geology by Dr Kinns and in Primeval Man but it was felt for many reasons that it was desirable to make another effort to set forth in a more complete form the witness of the stars to prophetic truth so necessary in these last days To the late Miss Rolleston however belongs the honour of collecting a mass of information bearing on this subject but published as it was chiefly in the form of notes unarranged and unindexed it was suited only for but was most valuable to the student She it was who performed the drudgery of collecting the facts presented by Albumazer the Arab astronomer to the Caliphs of Grenada 850 a d and the Tables drawn up by Ulugh Beigh the Tartar prince and astronomer about 1650 a d who gives the Arabian Astronomy as it had come down from the earliest times Modern astronomers have preserved and still have in common use the ancient names of over a hundred of the principal stars which have been handed down but now these names are used merely as a convenience and without any reference to their significance This work is an attempt to popularize this ancient information and to use it in the interests of truth For the ancient astronomical facts and the names with their signification I am from the very nature of the case indebted of course to all who have preserved collected and handed them down but for their interpretation I am alone responsible It is for the readers to judge how far my conclusions are borne out by the evidence and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven as well as in the Scriptures of truth

Emergence in Interactive Art Jennifer Seevinck,2017-03-28 This book is concerned with emergence interaction art and computing It introduces a new focus for emergence in interactive art the emergent experience Emergence literature is discussed and an organising framework the Taxonomy of Emergence in Interactive Art TEIA is provided together with case studies of digital interactive art systems that facilitate emergence Evidence from evaluations of people interacting with the works is analysed using the TEIA Artworks from across the world are also reviewed to further illustrate the potential for emergence Interactive art is itself still a young domain where audience influence or interaction with the work is a defining aspect Emergence in Interactive Art explores the rich opportunities for interactive experiences of digital art systems that are provided by looking through a lens of emergence And what better way to explore these potentials than through the open ended domain of emergence with its inherent affinity to the natural world Through an integrated approach of practice research and theory this book reveals design and analytical insights relating to emergence interaction and interactive art to benefit artists researchers and designers alike

Darwin-Inspired Learning Carolyn J. Boulter,Michael J. Reiss,Dawn L. Sanders,2015-01-19 Charles Darwin has been extensively analysed and written about as a scientist Victorian father and husband However this is the first book to present a carefully thought out pedagogical approach to learning that is centered on Darwin s life and scientific practice The ways in which Darwin developed his scientific ideas and their far reaching effects continue to challenge and provoke contemporary teachers and learners inspiring them to consider both how scientists work and how individual humans read nature Darwin inspired learning as proposed in this international collection of essays is an enquiry based pedagogy that takes the professional practice of Charles Darwin as its source Without seeking to idealise the man Darwin inspired learning places importance on active learning hands on enquiry critical thinking creativity argumentation interdisciplinarity In an increasingly urbanised world first hand observations of living plants and animals are becoming rarer Indeed some commentators suggest that such encounters are under threat and children are living in a time of nature deficit Darwin inspired learning with its focus on close observation and hands on enquiry seeks to re engage children and young people with the living world through critical and creative thinking modeled on Darwin s life and science
