The Creation of Sustainable Value Guy McManus, Marcus Powe, 2009 To most people the term value only relates to money Value is much more than this and often occurs at three different levels the individual the organisation and the community Creating sustainable value is the process of linking these three levels The glue that holds them together comprises the creative mindset and the tools of innovation and when linked they can create enduring sustainable value P 4

Transparency, Accountability & Corruption in Botswana Zibani Maundeni, 2008 Corporate Practices and Conduct, 1991 Booklet outlining the duties of company directors and their ethical and legal responsibilities Produced by eight business organisations concerned about recent corporate practices with a working group chaired by Henry Bosch former head of the National Companies and Securities Commission *A Time Traveller's Guide to Our Next Ten Years* Frans Cronje, 2014-04-01 Picture South Africa ten years from now are the angry poor rising up and seizing land and businesses Or has economic reform created jobs and growth Is an increasingly desperate government clamping down on freedoms Or do the middle class still braai in suburban bliss South Africa is at a tipping point and small shifts in political and economic conditions can bring about dramatic changes Unemployment slow growth threats to freedom of speech and poor education can send the country in any direction Leading scenario planner Frans Cronje identifies the key trends that will shape our future Will South Africa follow the Narrow Road the Wide Road the Rocky Road or the Toll Road Back cover *Small-scale Brickmaking*, 1984 Handbook to the Iron Age Thomas N. Huffman, 2007 This detailed handbook to the Iron Age covers the last 2 000 years in Southern Africa The first part of the book outlines essential topics such as settlement organization stonewalled patterns ritual residues long distance trade and ancient mining Part two presents a comprehensive culture history sequence through ceramic analyses showing distributions stylistic types and characteristic pieces The final section reviews and updates the main debates about black prehistory including migration vs diffusion the role of cattle the origins of Mapungubwe the rise and fall of Great Zimbabwe as well as the archaeology of the Venda the Sotho Tswana and the Nguni speakers Handbook to the Iron Age is an abundantly illustrated study that is accessible to a wide range of people interested in African prehistory Public Private Partnerships in Nigeria George Nwangwu, 2016-05-03 This first major book on Public Private Partnerships PPP in Nigeria explores the legal policy and strategic issues involved in the structuring and execution of PPP projects in Nigeria The book goes beyond the toolkit approach of other available resources to blend the theoretical analysis of concepts with practical step by step guides for consummating projects The book adopts a multidisciplinary approach by integrating law economics finance and project management literature relying on the author's extensive experience in the field to give clear insights on the PPP concept The case study methodology employed in the book produces rich and compelling empirical results This book is suitable for beginners wishing to develop an understanding of the concept

as well as practitioners advising on PPPs Students and academics wishing to carry out further research on PPPs will also benefit from the book Amendments to IAS 32 Financial Instruments, Presentation, and IAS 1 Presentation of Financial Statements International Accounting Standards Board,2008 The Graduate School of Business Administration Harvard University. Graduate School of Business Administration,1908 **A Joy in the Cradle** Maimuna M. Bala,2008 *Mining Royalties* James Otto,2006 This book discusses the history of royalties and the types currently in use covering issues such as tax administration revenue distribution and reporting It identifies the strengths and weaknesses of various royalty approaches and their impact on production decisions and mine economics A section on governance looks at the management of mining revenue by governments and the need for transparency There is an attached CD with examples of royalty legislation from over 40 countries Indian Cotton Textiles in West Africa Kazuo Kobayashi,2019-06-10 This book focuses on the significant role of West African consumers in the development of the global economy It explores their demand for Indian cotton textiles and how their consumption shaped patterns of global trade influencing economies and businesses from Western Europe to South Asia In turn the book examines how cotton textile production in southern India responded to this demand Through this perspective of a south south economic history the study foregrounds African agency and considers the lasting impact on production and exports in South Asia It also considers how European commercial and imperial expansion provided a complex web of networks linking West African consumers and Indian weavers Crucially it demonstrates the emergence of the modern global economy *Gender, Law and Justice* Elsje Bonthuys,Cathi Albertyn,2007 Feminist lawyers have long been engaged in critiquing the gendered nature of South African law This project has increased in importance and scope as a result of the centrality of gender equality as a value and a substantive right in the South African Constitution Gender Law and Justice provides both theoretical and practical tools to enable academic and practising lawyers to apply concepts of gender equality to the law It introduces readers to basic feminist concepts and arguments and to a wealth of local comparative and international material on gender and the law It also illustrates how the law may be shaped to transform the social cultural and economic conditions of women s lives in South Africa at the same time as it acknowledges the limits of legal strategies for change This book has three main objectives The first is to identify the different positions of women in South Africa and to examine the disparate impact of the legal system on their lives Secondly it aims to expose the gender bias in legal concepts and in the content and application of legal rules Thirdly it suggests changes to the law and evaluates those changes that have already occurred with a view to developing the law so that it is better able to ensure justice and meet the diverse needs of women in South Africa Mpumalanga Peter Delius,2007 Mpumalanga is known for its spectacular landscapes and its teeming game reserves It also has an extraordinarily rich and vivid history which has not been previously recognized The South African province s valued heritage and its contribution to tourism education and economic development remain undeveloped This ground breaking study ensures that this province s compelling past lives on

in the present Written by some of South Africa's foremost researchers and richly illustrated with historical and contemporary photographs the book tells a story that begins with the geological records of the first emergence of life on earth three to five billion years ago and concludes with the dawn of an inclusive democracy in South Africa Areas covered include geology archaeology rock art traditions of early settlements frontier conflicts the South African War conservation economic development the contemporary political struggles in the 20th century and the significance of all of this in the light of contemporary debates over heritage *In Township Tonight!* David Bellin Coplan,2008 David B Coplan's pioneering social history of black South Africa's urban music dance and theatre established itself as a classic soon after its publication in 1985 Now completely revised expanded and updated this new edition takes account of developments over the last thirty years while reflecting on the massive changes in South African politics and society since the end of the apartheid era In vivid detail Coplan comprehensively explores more than three centuries of the diverse history of South Africa's black popular culture taking readers from indigenous musical traditions into the world of slave orchestras pennywhistlers clergyman composers the gumboot dances of mineworkers and touring minstrelsy and vaudeville acts *War Against Ourselves* Jacklyn Cock,2007 The War Against Ourselves compels us to re-examine our relationship with nature to change our practices and dissolve present binary divisions such as people vs animals economic growth vs environmental protection nature vs culture

Training Engineers for Innovation Denis Lemaître,2018-10-25 Throughout history engineers have been defined as those who bring technological innovation to society However the concept of innovation and the role of the engineer are now changing as a result of globalization the digital revolution growing inequalities and environmental concerns Training Engineers for Innovation therefore analyzes the ways in which the educational systems for engineers are adapting to these new demands as well as the conditions in which this training has developed This book brings together the works of a consortium of researchers dedicated to the subject area as part of the Innov Ing 2020 project Its contributors present various means to devise effective pedagogies adapted to a holistic approach to innovation which incorporates the technical economic social ethical and environmental dimensions of engineering **Lifelong Learning for Engineers and Scientists in the Information Age** Ashok Naimpally,Hema Ramachandran,Caroline Smith,2011-12-06 The book provides a comprehensive review of lifelong learning information literacy and internships including assessment techniques for lifelong learning teamwork and information literacy as defined by the ABET criteria It also discusses critical thinking skills for scientists and engineers and their role in lifelong learning in the information age It will be invaluable for Engineering educators including librarians interested in developing programs to satisfy the ABET criteria for lifelong learning and teamwork Engineering librarians developing programs and assessment tools for information literacy using online databases and the Internet Engineering educators and career advisors interested in developing internship programs in engineering An internship is defined as work performed in an industrial setting that provides practical experience and adds value to the classroom and

research learning processes This book will cover all aspects involved in administering internship and cooperative education programs Employers of interns will find useful information on needs assessment program development evaluation and the importance of lifelong learning and Science and engineering educators interested in developing critical thinking skills in their students as an aid to developing lifelong learning skills especially given the challenges in the digital age Provides information on how to develop programs and assessment tools for information literacy Describes how to set up an internship program Develops critical thinking skills Lifelong Learning Imperative in Engineering University of Illinois at Urbana-Champaign, National Academy of Engineering, James B. Porter, Jr., Lalit Patil, Debasish Dutta, 2012-09-28 The Lifelong Learning Imperative LLI project was initiated to assess current practices in lifelong learning for engineering professionals reexamine the underlying assumptions behind those practices and outline strategies for addressing unmet needs The LLI project brought together leaders of U S industry academia government and professional societies to assess the current state of lifelong learning of engineers to examine the need for and nature of lifelong learning going forward and to explore the responsibilities and potential actions for the primary stakeholders The United States is facing a crisis in its engineering workforce just as global competition is becoming very intense During the next several years there will be massive retirements of skilled and experienced engineers and the United States has one of the lowest rates of graduation of bachelor level engineers in the world only 4 5 percent of our university graduates are engineers The issue is especially acute in the national security industry because of citizenship requirements Perhaps even more critical the pace of technological change continues to accelerate making the specifics of engineering education and skill development obsolete in short order A critical part of our corporate and national strategy to address this looming crisis should be to ramp up the quality of engineers professional life improve their capacity to innovate and widen their fields of opportunity A project framing workshop was organized by the University of Illinois at Urbana Champaign UIUC in partnership with the National Academy of Engineering in June 2009 to examine the issues relevant to lifelong learning in engineering A UIUC research team then conducted a survey based assessment of the issues identified in the 2009 workshop Preliminary findings from the UIUC study were examined more fully Lifelong Learning Imperative in Engineering reflects the opinions of the authors based on the UIUC team s survey analysis and learning from the discussions at the 2011 workshop *The Training of Engineering Craftsmen* Engineering Industry Training Board, 1981
