Lanahan readings in the American polity Ann G. Serow, 2016

**The Lanahan Readings in the American Polity** Ann Gostyn Serow, Everett Carll Ladd, 2003 COLLECTION OF 98 ESSAYS ON AMERICAN GOVERNMENT FOR THE COLLEGE UNDERGRADUATE COURSE MARKET

**Lanahan Readings in the American Polity** Ann G./ Ladd Serow (Everett C.), 2016-04-25

**Lanahan Readings in the American Polity** Ann Serow, Everett Ladd, 2023-05-15 This is a 700 page collection of essays designed for the introductory college course on American government

*The American Senate* Neil MacNeil, Richard A. Baker, 2013-05-31 Winner of the Society for History in the Federal Government's George Pendleton Prize for 2013 The United States Senate has fallen on hard times Once known as the greatest deliberative body in the world it now has a reputation as a partisan dysfunctional chamber What happened to the house that forged American history's great compromises In this groundbreaking work a distinguished journalist and an eminent historian provide an insider's history of the United States Senate Richard A Baker historian emeritus of the Senate and Neil MacNeil former chief congressional correspondent for Time magazine integrate nearly a century of combined experience on Capitol Hill with deep research and state of the art scholarship They explore the Senate's historical evolution with one eye on persistent structural pressures and the other on recent transformations Here for example are the Senate's struggles with the presidency from George Washington's first disastrous visit to the chamber on August 22 1789 through now forgotten conflicts with Presidents Garfield and Cleveland to current war powers disputes The authors also explore the Senate's potent investigative power and show how it began with an inquiry into John Brown's raid on Harpers Ferry in 1859 It took flight with committees on the conduct of the Civil War Reconstruction and World War II and it gained a high profile with Joseph McCarthy's rampage against communism Estes Kefauver's organized crime hearings the first to be broadcast and its Watergate investigation Within the book are surprises as well For example the office of majority leader first acquired real power in 1952 not with Lyndon Johnson but with Republican Robert Taft Johnson accelerated the trend tampering with the sacred principle of seniority in order to control issues such as committee assignments Rampant filibustering the authors find was the ironic result of the passage of 1960s civil rights legislation No longer stigmatized as a white supremacist tool its use became routine especially as the Senate became more partisan in the 1970s Thoughtful and incisive *The American Senate An Insider's History* transforms our understanding of Congress's upper house

**Honoring God in Red or Blue** Dr. Amy E. Black, 2012-05-25 Politics isn't a four letter word Everyone's been at that dinner party The conversation takes a political turn The arguments start the atmosphere grows tense and all that remains is a hopeless stalemate and an awkward silence Makes you wonder is thoughtful and productive dialogue about politics even possible In **Honoring God in the Red or Blue** Dr Amy Black addresses the debaters as well as those intimidated or annoyed by the debaters political junkies and the contented uninformed She explains the purposes and limitations of our system and helps readers create realistic expectations for government While God's truth is perfect human application of it is not a reality that shouldn't deter us from engaging in debate and staying informed Rather it should challenge us to raise our standards for how we speak about the issues and those in office It's time to approach political divides with an extra measure of grace Success begins with seeking God's honor first and foremost regardless of where we fall on the political spectrum Don't limit yourself to chatting about the weather

**The Phantom Public** Walter Lippmann, 1925

**Cormac McCarthy's Philosophy** Ty Hawkins, 2017-07-10 This study contends that American writer Cormac McCarthy not only is philosophical or a writer of ideas but rather that he has a philosophy Devoting one main chapter to each facet of McCarthy's thought his metaphysics epistemology and ethics respectively the study engages in focused readings of all of McCarthy's major works Along the way the study brings McCarthy's ideas into conversation with a host of philosophers who range from Plato to Alain Badiou with figures such as William James Martin Heidegger Hannah Arendt and Slavoj Žižek featured prominently Situated at the crossroads of literary studies literary theory cultural studies continental philosophy and theology the appeal of Cormac McCarthy's Philosophy is widespread and deeply interdisciplinary

**A Short History of the United States** Robert V. Remini, 2008-09-24 From a National Book Award winner A Short History of the United States may be brief but it is wise eloquent and authoritative Jon Meacham Pulitzer Prize winner and New York Times bestselling author of *And There Was Light* Abraham Lincoln and the American Struggle Readers of all political stripes will appreciate this concise history of the United States Publishers Weekly an accessible and lively volume containing the essential facts about the discovery settlement growth and development of the American nation and its institutions including the arrival and migration of Native Americans the founding of a republic under the Constitution the emergence of the United States as a world power the outbreak of terrorism here and abroad the Obama presidency and everything in between Masterful a perfect history for our times Robert Dallek Pulitzer Prize finalist and author of *Nixon and Kissinger* Everything a casual or bewildered reader needs to know An objective narrative of this nation's history Publishers Weekly

**Modern Bodies** Julia L. Foulkes, 2003-11-03 In 1930 dancer and choreographer Martha Graham proclaimed the arrival of dance as an art of and from America Dancers such as Doris Humphrey Ted Shawn Katherine Dunham and Helen Tamiris joined Graham in creating a new form of dance and like other modernists they experimented with and argued over their aesthetic innovations to which they assigned great meaning Their innovations however went beyond aesthetics While modern dancers devised new ways of moving bodies in accordance with many modernist principles their artistry was indelibly shaped by their place in society Modern dance was distinct from other artistic genres in terms of the people it attracted white women many of whom were Jewish gay men and African American men and women Women held leading roles in the development of modern dance on stage and off gay men recast the effeminacy often associated with dance into a hardened heroic American athleticism and African Americans contributed elements of social African and Caribbean dance even as their undervalued role defined the limits of modern dancers communal visions Through their art modern dancers challenged conventional roles and images of gender sexuality race class and regionalism with a view of American democracy that was confrontational and participatory authorial and populist *Modern Bodies* exposes the social dynamics that shaped American modernism and moved modern dance to the edges of society a place both provocative and perilous

Enchanted America J. Eric Oliver, Thomas J. Wood, 2018-09-18 America is in civic chaos its politics rife with conspiracy theories and false information Nationalism and authoritarianism are on the rise while scientists universities and news organizations are viewed with increasing mistrust Its citizens reject scientific evidence on climate change and vaccinations while embracing myths of impending apocalypse And then there is Donald Trump a presidential candidate who won the support of millions of conservative Christians despite having no moral or political convictions What is going on The answer according to J Eric Oliver and Thomas J Wood can be found in the most important force shaping American politics today human intuition Much of what seems to be irrational in American politics arises from the growing divide in how its citizens make sense of the world On one side are rationalists They use science and reason to understand reality On the other side are intuitionists They rely on gut feelings and instincts as their guide to the world Intuitionists believe in ghosts and End Times prophecies They embrace conspiracy theories disbelieve experts and distrust the media They are stridently nationalistic and deeply authoritarian in their outlook And they are the most enthusiastic supporters of Donald Trump The primary reason why Trump captured the presidency was that he spoke about politics in a way that resonated with how Intuitionists perceive the world The Intuitionist divide has also become a threat to the American way of life A generation ago intuitionists were dispersed across the political spectrum when most Americans believed in both God and science Today intuitionism is ideologically tilted toward the political right Modern conservatism has become an Intuitionist movement defined by conspiracy theories strident nationalism and hostility to basic civic norms *Enchanted America* is a clarion call to rationalists of all political persuasions to reach beyond the minority and speak to intuitionists in a way they understand The values and principles that define American democracy are at stake

**When Bad Things Happen to Privileged People** Dara Z. Strolovitch, 2023-07-05 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In *When Bad Things Happen to Privileged People* Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century

**The Multiple Worlds of Pynchon's *Mason & Dixon*** Elizabeth Jane Wall Hinds, 2009 New essays examining the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past Thomas Pynchon's 1997 novel *Mason Dixon* went further using the same style wit and erudition to re create an 18th century when America was being formed as both place and idea Pynchon's focus on the creation of the Mason Dixon Line and the governmental and scientific entities responsible for it makes a clearer statement than any of his previous novels about the slavery and imperialism at the heart of the Enlightenment as he levels a dark and hilarious critique at this America This volume of new essays studies the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past It offers fresh thinking about Pynchon's work as the contributors take up the linkages between the 18th and 20th centuries in studies that are as concerned with culture as with the literary text itself Contributors Mitchum Huehls Brian Thill Colin Clarke Pedro Garcia Caro Dennis Lensing Justin M Scott Coe Ian Copestake Frank Palmeri Elizabeth Jane Wall Hinds is Professor and Chair of the English Department at SUNY Brockport

*Plunkitt of Tammany Hall* William L. Riordan, 1995-11-01 *Plunkitt of Tammany Hall* A Series of Very Plain Talks on Very Practical Politics William L Riordan Nobody thinks of drawing the distinction between honest graft and dishonest graft This classic work offers the unblinking unvarnished wit and wisdom of one of the most fascinating figures ever to play the American political game and win George Washington Plunkitt rose from impoverished beginnings to become ward boss of the Fifteenth Assembly District in New York a key player in the powerhouse political team of Tammany Hall and not incidentally a millionaire In a series of utterly frank talks given at his headquarters Graziano's bootblack stand outside the New York County Court House he revealed to a sharp eared and sympathetic reporter named William L Riordan the secrets of political success as practiced and perfected by him and fellow Tammany Hall titans The result is not only a volume that reveals more about our political system than does a shelfful of civics textbooks but also an irresistible portrait of a man who would feel happily at home playing ball with today's lobbyists and king makers trading votes for political and financial favors Doing for twentieth century America what Machiavelli did for Renaissance Italy and as entertaining as it is instructive *Plunkitt of Tammany Hall* is essential reading for those who prefer twenty twenty vision to rose colored glasses in viewing how our government works and why With an Introduction by Peter Quinn and a New Afterword

*Obama and America's Political Future* Theda Skocpol, 2012-09-04 Barack Obama's galvanizing victory in 2008 coming amid the greatest economic crisis since the 1930s opened the door to major reforms. But the president quickly faced skepticism from supporters and fierce opposition from Republicans who scored sweeping wins in the 2010 midterm election. Here noted political scientist Theda Skocpol surveys the political landscape and explores its most consequential questions: What happened to Obama's new New Deal? Why have his achievements enraged opponents more than they have satisfied supporters? How has the Tea Party's ascendance reshaped American politics? Skocpol's compelling account rises above conventional wisdom and overwrought rhetoric. The Obama administration's response to the recession produced bold initiatives: health care reform, changes in college loans, financial regulation that promise security and opportunity. But these reforms are complex and will take years to implement. Potential beneficiaries do not readily understand them, yet the reforms alarm powerful interests and political enemies, creating the volatile mix of confusion and fear from which Tea Party forces erupted. Skocpol dissects the popular and elite components of the Tea Party reaction that has boosted the Republican Party while pushing it far to the right at a critical juncture for U.S. politics and governance. Skocpol's analysis is accompanied by contributions from two fellow scholars and a former congressman. At this moment of economic uncertainty and extreme polarization as voters prepare to render another verdict on Obama's historic presidency, Skocpol and her respondents help us to understand its triumphs and setbacks and see where we might be headed next.

**The Anthropology of Donald Trump** Jack David Eller, 2021-11-29 *The Anthropology of Donald Trump* is an edited volume of original anthropological essays composed by some of the leading figures in the discipline. It applies their concepts, perspectives, and methods to a sustained and diverse understanding of Trump's supporters, policies, and performance in office. The volume includes ethnographic case studies of Trump country, examines Trump's actions in office, and moves beyond Trump as an individual political figure to consider larger structural and institutional issues. Providing a unique and valuable perspective on the Trump phenomenon, it will be of interest to anthropologists and other social scientists concerned with contemporary American society and politics, as well as suitable reading for courses on political anthropology and U.S. culture.

**Democracy in America (Complete)** Alexis de Tocqueville, 2020-09-28 Amongst the novel objects that attracted my attention during my stay in the United States nothing struck me more forcibly than the general equality of conditions I readily discovered the prodigious influence which this primary fact exercises on the whole course of society by giving a certain direction to public opinion and a certain tenor to the laws by imparting new maxims to the governing powers and peculiar habits to the governed I speedily perceived that the influence of this fact extends far beyond the political character and the laws of the country and that it has no less empire over civil society than over the Government it creates opinions engenders sentiments suggests the ordinary practices of life and modifies whatever it does not produce The more I advanced in the study of American society the more I perceived that the equality of conditions is the fundamental fact from which all others seem to be derived and the central point at which all my observations constantly terminated I then turned my thoughts to our own hemisphere where I imagined that I discerned something analogous to the spectacle which the New World presented to me I observed that the equality of conditions is daily progressing towards those extreme limits which it seems to have reached in the United States and that the democracy which governs the American communities appears to be rapidly rising into power in Europe I hence conceived the idea of the book which is now before the reader It is evident to all alike that a great democratic revolution is going on amongst us but there are two opinions as to its nature and consequences To some it appears to be a novel accident which as such may still be checked to others it seems irresistible because it is the most uniform the most ancient and the most permanent tendency which is to be found in history Let us recollect the situation of France seven hundred years ago when the territory was divided amongst a small number of families who were the owners of the soil and the rulers of the inhabitants the right of governing descended with the family inheritance from generation to generation force was the only means by which man could act on man and landed property was the sole source of power Soon however the political power of the clergy was founded and began to exert itself the clergy opened its ranks to all classes to the poor and the rich the villein and the lord equality penetrated into the Government through the Church and the being who as a serf must have vegetated in perpetual bondage took his place as a priest in the midst of nobles and not infrequently above the heads of kings The different relations of men became more complicated and more numerous as society gradually became more stable and more civilized Thence the want of civil laws was felt and the order of legal functionaries soon rose from the obscurity of the tribunals and their dusty chambers to appear at the court of the monarch by the side of the feudal barons in their ermine and their mail Whilst the kings were ruining themselves by their great enterprises and the nobles exhausting their resources by private wars the lower orders were enriching themselves by commerce The influence of money began to be perceptible in State affairs The transactions of business opened a new road to power and the financier rose to a station of political influence in which he was at once flattered and despised Gradually the spread of mental acquirements and the increasing taste for literature and art opened chances of success to talent science became a means of government intelligence led to social power and the man of letters took a part in the affairs of the State The value attached to the privileges of birth decreased in the exact proportion in which new paths were struck out to advancement In the eleventh century nobility was beyond all price in the thirteenth it might be purchased it was conferred for the first time in 1270 and equality was thus introduced into the Government by the aristocracy itself

Growing Up America Susan Eckelmann Berghel, Sara Fieldston, Paul M. Renfro, 2019 Growing Up America brings together new scholarship that considers the role of children and teenagers in shaping American political life during the decades following the Second World War Growing Up America places young people and their representations at the center of key political trends illuminating the dynamic and complex roles played by youth in the midcentury rights revolutions in constructing and challenging cultural norms and in navigating the vicissitudes of American foreign policy and diplomatic relations The authors featured here reveal how young people have served as both political actors and subjects from the early Cold War through the late twentieth century Age of Fracture At the same time Growing Up America contends that the politics of childhood and youth extends far beyond organized activism and the ballot box By unveiling how science fairs breakfast nooks Boy Scout meetings home economics classrooms and correspondence functioned as political spaces this anthology encourages a reassessment of the scope and nature of modern politics itself

*A Carnival of Buncombe* Henry Louis Mencken, Malcolm Moos, 1956 Provides lively critiques of the elections and policies of American presidents ranging from Warren Harding to Franklin Roosevelt

If you ally dependence such a referred **The Lanahan Readings In The American Polity** books that will offer you worth, get the unquestionably best seller from us currently from several preferred authors.
