In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago. Embrace and revel in the stories of the toughest cyclists of all time, told by The Velominati, originators of The Rules. Read and get ready to ride . . . In cycling, suffering brings glory: a rider's value can be judged by their results, but also by their panache and heroism. Prepared to be awed and inspired by Chris Froome riding on at the Tour de France with a broken wrist or Geraint Thomas finishing it with a broken pelvis. In *The Hardmen* the writers behind cycling superblog Velominati.com and *The Rules* will tell the stories and illuminate the myths of not just the greatest cyclists ever, but the toughest. From Eddy Merckx to Beryl Burton, and from Marianne Vos to Edwig Van Hooydonk, the book will lay bare the secrets of their extraordinary and inspirational endurance in the face of pain, danger and disaster. After all, suffering is one of the joys of being a cyclist. Embrace climbs, relish the descents, and get ready to harden up . . . From the author of the stunning debut novel *The Girl with Glass Feet* comes another magical story of love, discovery, and nature When Elsa's father is killed in a tornado, all she wants is to escape—from New York, her job, her boyfriend—to somewhere new, anonymous, set apart. For some years she has been haunted by a sight once seen from an airplane: a tiny, isolated settlement called Thunderstown. Thunderstown has received many a pilgrim, and young Elsa becomes its latest, drawn to this weather-ravaged backwater, this place rendered otherworldly by the superstitions of its denizens. In Thunderstown, they say, the weather can come to life, and when Elsa meets Finn Munro, an outcast living in the mountains above the town, she wonders whether she has witnessed just that. For Finn has an incredible secret: he has a thunderstorm inside of him. Not everyone in town wants happiness for Elsa and Finn. As events turn against them, can they weather the tempest—can they survive at all? This work of lyrical, mercurial magic and imagination is a modern-day fable about the elements of love.
