Khobar Towers: Tragedy and Response Perry D. Jamieson, 2008 This account of the Khobar Towers bombing tells the story of the horrific attack and the magnificent response of airmen doing their duty under nearly impossible circumstances None of them view their actions as heroic yet the reader will marvel at their calm professionalism All of them say it was just their job but the reader will wonder how they could be so well trained to act almost instinctively to do the right thing at the right time None of them would see their actions as selfless yet countless numbers refused medical attention until the more seriously injured got treatment Throughout this book the themes of duty commitment and devotion to comrades resoundingly underscore the notion that America's brightest bravest and best wear her uniforms in service to the nation This book is more than heroic actions though for there is also controversy Were commanders responsible for not adequately protecting their people What should one make of the several conflicting investigations following the attack Dr Jamieson has not shied away from these difficult questions and others but has discussed them and other controversial judgments in a straightforward and dispassionate way that will bring them into focus for everyone It is clear from this book that there is a larger issue than just the response to the bombing It is the issue of the example set by America's airmen Future airmen who read this book will be stronger and will stand on the shoulders of those who suffered and those who made the ultimate sacrifice

Teaching 'Proper' Drinking? Maggie Brady,2017-12-12 In Teaching Proper Drinking the author brings together three fields of scholarship socio historical studies of alcohol Australian Indigenous policy history and social enterprise studies The case studies in the book offer the first detailed surveys of efforts to teach responsible drinking practices to Aboriginal people by installing canteens in remote communities and of the purchase of public hotels by Indigenous groups in attempts both to control sales of alcohol and to create social enterprises by redistributing profits for the community good Ethnographies of the hotels are examined through the analytical lens of the Swedish Gothenburg system of municipal hotel ownership The research reveals that the community governance of such social enterprises is not purely a matter of good administration or compliance with the relevant liquor legislation Their administration is imbued with the additional challenges posed by political contestation both within and beyond the communities concerned The idea that community or government ownership and management of a hotel or other drinking place would be a good way to control drinking and limit harm has been commonplace in many Anglophone and Nordic countries but has been less recognised in Australia Maggie Brady s book brings together the hidden history of such ideas and initiatives in Australia In an original and wide ranging set of case studies Brady shows that success in reducing harm has varied between communities largely depending on whether motivations to raise revenue or to reduce harm are in control Professor Robin Room Director Centre for Alcohol Policy Research La Trobe University

Regulating Aged Care John Braithwaite, Toni Makkai, Valerie A. Braithwaite, 2007-01-01 Regulating Aged Care is a significant achievement and addresses areas of personal caring which do not usually receive attention. It is an important book which draws attention to the central problems of providing care for large numbers of vulnerable people; it should be required reading on undergraduate and postgraduate courses relating to applied social science, health and medical sociology. Alison M Ball Sociology This book provides an impressive evidence base for both theory development and reassessment of policy and practitioner responses in the field. International Social Security Review They have given us a fascinating case study here, rich in detail and masterfully interpreted against the backdrop of evolving regulatory strategy. It is rare indeed to find this depth of analysis made accessible, laced throughout with humanity, compassion and humor. Malcolm Sparrow Harvard University US This book offers an intelligent and insightful account of the development of nursing home regulation in three countries: England, the USA and Australia. But more than that, it intertwines theory and more than a decade of empirical work to provide a telling and sophisticated explanation of why and how good regulatory intentions often go awry and what can be done to create systems of regulation which really work to produce improvement. Kieran Walshe University of Manchester UK This book is a major contribution to regulatory theory from three members of the world class regulatory research group based in Australia. It marks a new development in responsive regulatory theory in which a strengths based pyramid complements the regulatory pyramid. The authors compare the accomplishments of nursing home regulation in the US, the UK and Australia during the last 20 years and in a longer historical perspective. They find that gaming and ritualism rather than defiance of regulators are the greatest challenges for improving safety and quality of life for the elderly in care homes. Regulating Aged Care shows how good regulation and caring professionalism can transcend ritualism. Better regulation is found to be as much about encouragement to expand strengths as incentives to fix problems. The book is underpinned by one of the most ambitious, sustained qualitative and quantitative data collections in both the regulatory literature and the aged care literature. This study provides an impressive evidence base for both theory development and reassessment of policy and practitioner responses in the field. The book will find its readership amongst regulatory scholars in political science, law, socio-legal studies, sociology, economics and public policy. Gerontology and health care scholars and professionals will also find much to reflect upon in the book.
