Lesson Plan Sample

Course Title: Anatomy and Physiology

Course Description:

Anatomy and Physiology provides students with an introduction to the organization, structure, and function of the body. Through in-depth readings, flash cards, animations, and games, students will study how healthy body systems work, as well as the intricate ways in which the systems of the body work together to achieve homeostasis. Throughout the course, students will observe and discuss anatomy and physiology content in each body system, correct any facts that are first and evaluate sources of information about the body that they might use in their future healthcare-related careers.

Course Outcomes:

1. Illustrate the basic reference systems of healthy organizations.
2. Describe the organization and structure of various body systems.
3. Identify the functions and general pathologies of body parts within major body systems.
